KEY—If you have 4 hours and 15 minutes overtime, find 4 hours at left and 15 minutes at top, follow both to place where they meet: viz., 80 miles overtime.

FIGURING PASSENGER MILES

District Miles is figured at 20 M.P.H.
Straight Time is figured at 20 M.P.H.
Over time is figured at 30 M.P.H.

Key: To find miles made for initial, final and tie-up divide time by 3 to get miles earned—Overtime is divided by 2 to get miles earned.

Example: 30 minutes divided by 3 equals 10 miles at straight time—

30 minutes divided by 2 equals 15 miles at overtime.
120 miles district divided by 20 M.P.H. gives (6) hours time allowed for district or before overtime starts.
