Ship via Santa Fe for swift and dependable merchandise service

Merchandise service is an important part of Santa Fe's freight operations and this directory has been prepared to give shippers convenient reference of schedules, as well as facts about how Santa Fe handles this type of freight.

Schedules in this directory show service between principal points on the Santa Fe that are used the most by our merchandise shippers. Service to intermediate points that are not shown herein, can be determined by checking location on the map with relation to stations shown in this directory. In this manner, it is easy to tell the approximate time it will take a shipment to move to any point on the Santa Fe System Lines.

Merchandise cars are operated from all points shown on Pages 5,6,7, 10 and 11, each day, Monday through Friday (subject to change without notice). Normally, merchandise arriving destination on Saturday or Sunday will be delivered Monday. However, all principal transfer points operate six days per week to avoid delay to merchandise in transit. The figures shown in these schedules represent the day car is scheduled to be unloaded at destination. Day of loading is counted as zero (0) day.

Santa Fe—All the Way

Santa Fe is the only railroad under one management between Chicago and California, as well as between Chicago and Phoenix. Santa Fe tracks also extend from Chicago and Denver to the Texas Gulf Coast.

This means you can route your merchandise freight Santa Fe all the way and benefit from the many advantages of one railroad operation. It means less chance for delay en route and more dependable handling of your freight from point of origin through to final destination.

Fast dependable freight Service

Train 39 provides fast overnight merchandise service from Chicago to Kansas City, as does Train 35 from Kansas City to western Kansas points.

From Chicago and Kansas City, Santa Fe offers fast overnight merchandise service to points as distant as 450 miles. This service is performed by routing through cars to representative points and extending rail service with our truck operation to points where we have been granted certificated authority to use them.

Similar fast merchandise service is operated from Dallas and Fort Worth to Houston, as well as between Denver and Albuquerque.

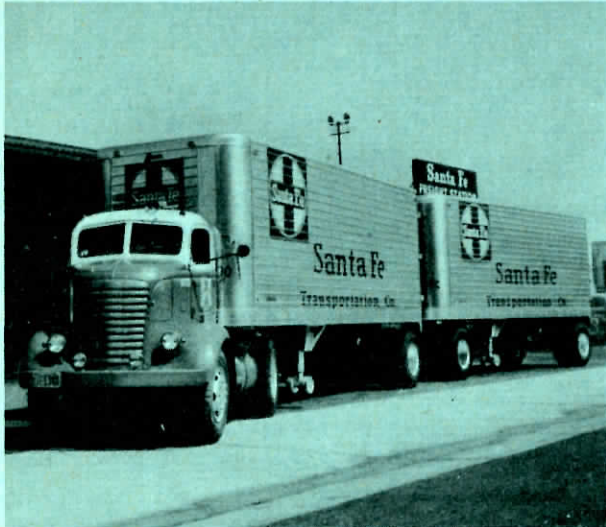

In California, Santa Fe provides overnight coordinated rail-truck service between Los Angeles, Bakersfield, Fresno, Porterville, Merced, Stockton, Pittsburg, and Oakland; also between Los Angeles and San Diego.

Free Pick-Up and Delivery Service

Free pick-up and delivery service is provided by Santa Fe at all of its agency stations.

With few exceptions, this pick-up and delivery service is performed at principal stations by our own trucks. This insures Santa Fe handling from door-to-door.

If desired, C.O.D. service is available.

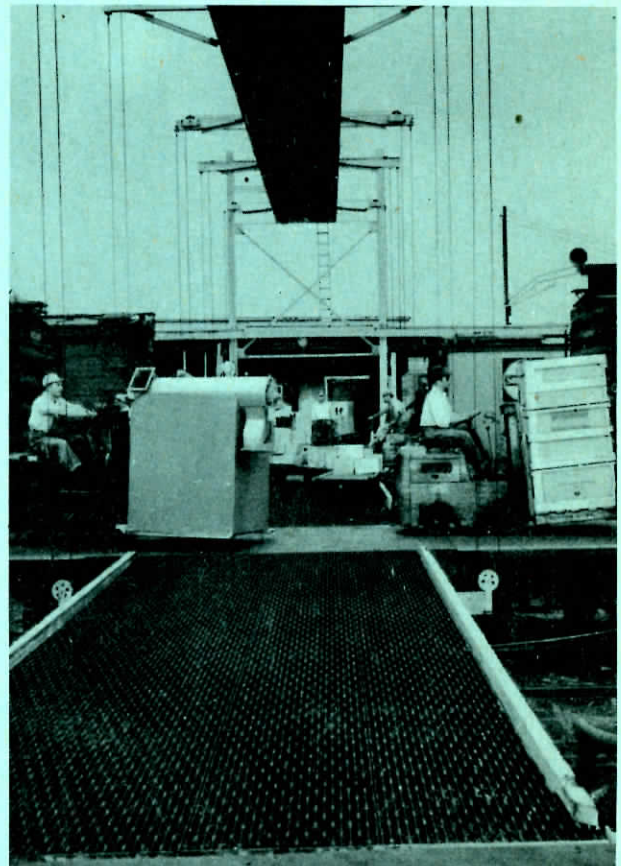

Santa Fe Rail-Truck Service

Santa Fe has coordinated rail-truck service in the States of Kansas, Oklahoma, Missouri, Colorado, New Mexico, Texas and California, serving stations at which we have received certificated authority to do so. This service comprises 10,868 route miles throughout these states. Our trucking auxiliary, wholly Santa Fe owned, operates 1460 pieces of highway freight equipment and has 1700 employees.

Santa Fe's RAIL-TRUCK service offers many advantages of distributing merchandise from major or centrally located points. Cars can be loaded to the points of distribution and freight transferred to road trucks the morning of arrival. Thus delivery can be made along truck routes the same day and many small towns receive practically the same

service as large break-bulk points, although formerly the volume of traffic was such that it permitted service by peddler car only on semi-weekly basis.

Special drop bridges between platforms and modern equipment speeds the loading and unloading of LCL shipments at important Santa Fe freight stations.

Modern Freight Handling Equipment

Santa Fe's principal freight houses have been fully equipped with modern machinery and devices which assure careful and expedited handling of merchandise freight for prompt delivery at destination.

In many instances freight houses and platforms have been modified, or a completely new facility built to permit the use of the most modern freight handling technique.

Nationwide Traffic Offices Serve Santa Fe's Merchandise Shippers

Every town in the U.S.A., Canada and Mexico is served by a man from the Santa Fe! No matter where you are a Santa Fe traffic representative is ready to serve you. He is either in your town or has your town assigned to him. His knowledge of freight traffic, plus his "know-how" of the entire Santa Fe organization of transportation specialist, is at your service. Call him for help with your traffic problems.
