EASTWARD TRAINS ARE SUPERIOR TO TRAINS OF THE SAME CLASS IN OPPOSITE DIRECTION SPECIAL INSTRUCTIONS PAGES 4, 5 and 6

GENERAL INSTRUCTIONS

Employes will be governed by the Consolidated Code of Transportation rules and, except on the Third Subdivision, by the Safety Rules and Special Instructions of the Idaho division of the Northern Pacific Railway. On the third subdivision employees will be governed by the Union Pacific Railroad Special and Safety Rules of the Washington Division and in addition at Riparia will be governed by Union Pacific Washington Division Time Table in use of Union Pacific track. Employees must provide themselves with copies of the above rules and current time-tables.

SPECIAL INSTRUCTIONS

ALL SUBDIVISIONS

- 1. Light engines observe speed of passenger trains.
- Passenger trains handling freight cars will observe speed restrictions for freight trains
- 2. When necessary to take slack of freight trains with helper on rear, it should be done by the helper engine.
- 3. Before moving a work or wrecking train, the whistle signal (14-b) or (14-h) must be sounded for the protection of men working about such train.
- 4. When a train order is received reading, "Eastward or (westward) extra trains wait at" the train addressed is relieved from protecting its rear end against following extra trains until the time named in the order, from point named to next register station.
- 5 Trains handling logs, when meeting passenger trains will stop at switch, whether train is to take siding or not and will not proceed unless passenger train is standing still or has moved by the logs and will not exceed speed of ten miles per hour until by.

FIRST SUBDIVISION

- 1. AT LEWISTON—When using back track Potlatch Forests, Inc., yard, yardmen must close and lock gate. Under no circumstances should cars be kicked in on single ended tracks. In handling cars ahead of engine on the inclines at the Mutual Creamery, White Bros. & Crum and The Oregon Packing Co., coupling should be made before switch is opened to the incline. In handling refrigerator cars ahead of the engine on these inclines, air should be coupled.
- 2. AT ARROW—Time of trains applies at Junction switch. Unless otherwise specified, right of track and meet orders will be fulfilled at the Junction switch.
- 3 AT FOREBAY—Time of trains applies at cross-over switch.

4. SPEED RESTRICTIONS:

All trains will not exceed speed of ten M.P.H. over highway crossing, serving mill of the Potlatch Forests, Inc., 1,500 feet east of east switch East Lewiston.
