Lathrop Interlocking and B.C. Jct. to M.P. 71.9.

RULE 261 IN EFFECT:

Between B.C. Jct. and M.P. 70.8.

Trains must secure numbered clearance cards before leaving originating stations, except westward C.G.W. trains at B.C. Jct. and eastward trains at St. Joseph U.S.; eastward trains secure at Terminal Yard.

At B.C. Jct. authorized speed within home signal limits 15 MPH.

Signals at B.C. Jct. and M.P. 70.8 are controlled from Terminal Yard. If signal indicates "Stop", train will not proceed until aspect changes or permission is obtained by telephone from Terminal Yard Operator except, at B.C. Jct. eastward trains, if unable to communicate may, after placing dual control switch on hand operation, proceed on authority held for movement beyond B.C. Jct. Switch must be restored to motor position after movement is completed.

Trains and engines authorized to pass "Stop" signal to enter block between B.C. Jct. and M.P. 70.8 must proceed at restricted speed throughout block. Before making movement at B.C. Jct. with signal in "Stop" position, switch must be inspected and flag protection must be provided against conflicting route.

Between St. Joseph U.S. and M.P. 70.8 there is no superiority of trains. Trains and engines within these limits must proceed prepared to stop short of train, obstruction, or switch not properly lined, but not exceeding 20 MPH. Between these points main track may be used not protecting against trains and engines.

Between St. Joseph U.S. and Monterey Street be governed by St. Joseph Union Depot Co. Time Table, Rules and Regulations.

No switch lights between Henrietta and B.C. Jct.

No. 43 is superior to No. 44.

Rule 104(A). When a train is clear of main track, to be met or passed by another train, employe attending the switch will not go nearer the switch than the clearance point until the expected train has been met or has passed.

When a train is on the main track, to be met or passed by another train, employe attending the switch will, after lining and locking it, immediately return to the clearance point and remain back of that point until expected train clears the main track.

When necessary to go beyond the switch in flagging, the flagman must remain at least 150 feet away from the switch while approaching train is passing over it.

The conductor or engineman must have an oral understanding with the employe attending the switch as to the required handling

Employes using switches must observe whether switch points fit properly after switch is lined, and must grasp the lock chain and pull it to insure that the lock is securely fastened.

Employes, in alighting from trains to change switches, must get off on opposite side of train from switch stand when to do so will not endanger their safety.

Crews of trains which are clear of main track must not give "proceed" signals to approaching trains.

- 1. Except as otherwise provided, Eastward Trains are superior to Westward Trains of the same class.
- 2. REGISTER STATIONS (Rule 83)

W.B. JCT .- Eastward, 3 Unit Signal. Movement to A.T.& S.F. track governed by indication of top and middle units, per Rules 283, 286, 290 and 292. All movements to Wabash governed by indication on all 3 units.

C.A. JCT.—Track No. 3, westward, 2 Unit signal. Movement to A.T.& S.F. track governed by indications of Rules 283, 286, 290 and 292; to Wabash track, green over red, yellow over red and red over

B.C. JCT .- Eastward, 2 Unit signal. Green on top unit governs movement to A.T.& S.F. track. Red over yellow governs movement to C.G.W. track.

7. TRAFFIC REVERSAL

Between Interlocking M.P. \$.1 and Joliet U.S.

Operators will not display proceed signal for movement against the current of traffic without train order authority, except Operators may authorize such movements entirely within yard limits.

If trains are to use the other main track without signal indication, move must be authorized by numbered clearance card endorsed, "UseTrack".

7. TRAFFIC REVERSAL-(Cont'd)

If a train or engine is stopped by a stop signal (Rule 292) it must not proceed without permission from interlocking station. If authorized to proceed be governed by Rule 606. If unable to communicate, after complying with Rule 606 (b), be governed by Rule 509 (a).

To avoid misunderstanding, instructions or information received by telephone must be repeated to employes from whom received, and names and occupations of employes stated.

Switch indicators are operative only with normal direction of traffic. At switches where there is no head out signal, obtain permission from Operator before occupying main track regardless of position of switch indicator. If communication fails, main track may be used under flag protection with front and rear protected until next home signal is passed.

Except as affected by these rules, block signal and train rules remain in force.

8. AUTOMATIC TRAIN CONTROL

Maximum authorized speeds for cab signal indications are:

	MI	n
	Passenger	Freight
High (H) Indication	90	60
Medium (M) Indication	40	40
Low (L) Indication		20

Should the control cut in while approaching train control territory from the east or the Pekin District, seal may be broken by Conductor and pneumatic feature cut out, reporting by wire from first open office. A westward train may then proceed to Pequot, where seal will be delivered to Operator, train control equipment cut in and sealed, and test made before entering train control territory. Should test show train control inoperative, secure train order authority to proceed. If movement from Pekin District beyond Ancona not authorized before arrival Ancona, Conductor call Operator at Streator and be governed by verbal instructions which must be repeated. On arrival Streator, deliver seal to Operator.

Should cut out not be obtained in leaving train control territory at Pequot or Ancona, or should train control cut in after leaving such territory, seal may be broken by Conductor and pneumatic feature cut out. Report will be made at terminal and seal there delivered to Operator.

25. STATUTORY REGULATIONS

IN ILLINOIS, it is lawful for the conductor to remove from the train, using no unnecessary force, any passenger who shall refuse, upon reasonable demand, to pay his lawful fare, or who shall upon the train or car use any abusive, vulgar, threatening, obscene or profane language thereon, or shall so conduct himself as to make his presence offensive or unsafe to passengers thereon; and when any passenger shall be guilty of disorderly conduct or use any obscene language to the annoyance and vexation of passengers, or play any game of cards or other games of chance for money or other valuable thing upon any railroad train, the conductor is authorized to stop his train at any place where such offense has been committed and eject such passenger from the train, using only the force which may be necessary to accomplish the removal, but before doing so shall tender to such passenger such proportion of the fare he has paid as the distance he then is from the place to which he has paid his fare bears to the whole distance for which he has paid his fare. Conductor may command the assistance of other employes of the railroad, or any of the passengers to assist in such removal.

IN MISSOURI, if any passenger shall refuse to pay his fare, or shall behave in an offensive manner, or be guilty of repeated violations of the rules of the company, it shall be lawful for the conductor of the train and the servants of the corporation, to put him and his baggage out of the cars, using no unnecessary force, at any usual stopping-place, or near any dwelling-house, as the conductor shall elect on stopping the train.
