## LETTERS INDICATING FREQUENCY.

When applied to trains these signs refer to the days of departure. When applied to pouches dispatched by R. P. O. lines, these signs refer to day of departure of train from initial point. When trains are operated as two divisions signs refer to date of departure from division terminal. When applied to pouches dispatched by post offices they refer to the day that the pouch is actually dispatched as shown by the closing time.

## ARBITRARY SIGNS.

A star prefixed to the title of an R. P. O. denotes that clerks in all trains are equipped with rotary-lock keys. ★  
 If all trains on the line are not supplied, either the trains equipped or the exceptions, follow the star. ★ Ex. 33  
 Registered mail is also connected. §  
 Before the title and in the index of C. P. lines, summer service is indicated by. ⊕  
 Winter service is indicated by. ⊕  
 Post office open all night for receipt and dispatch of mails (dagger). †  
 Junction offices exchanging registers by night trains. ⊙  
 The asterisk prefixed to pouches made by R. P. O. lines indicates that pouch goes direct over star route. \*  
 Only closed pouches carried on this line. C. P.  
 No junction. (n. j.)  
 No office. (n. o.)  
 Pouches dispatched via airplane. □

## TYPE FACES.

The numbers of trains on which R. P. O. service is performed are indicated by heavy-faced type. All other trains are indicated by light-faced type.

Offices shown in *italics* are not located on that line.

## TIME.

All trains are run by eastern standard time except where noted otherwise.

Time from 12.01 a. m. to 12 m. is shown in light-faced type. Time from 12.01 p. m. to 12 p. m. is shown in heavy-faced type.

## SPACE.

Space authorizations follow time table for each route. Unless otherwise indicated, authorization is for the distance and with the frequency shown for the train in the time-table. Heavy-faced type indicates distribution units and light-faced type indicates C. P. or storage units.

## SECTION 1521, POSTAL LAWS AND REGULATIONS.

"Railway postal clerks shall notify their division superintendent or chief clerk of all changes in schedules or running of trains upon their respective lines or of errors in published schedules and Postal Guides."

DISTANCES BETWEEN RAILROAD STATIONS AT IMPOR-  
TANT JUNCTIONS AND TIME REQUIRED FOR TRANSFER.

Wis.		Chic., Ill. Term.	Chic., Ill. (Van Buren Sta.)
Wyo.		Council Bluffs, Ia.	Council Bluffs, Ia.

**NOTES.**

1. In most cases mail is to be massed on a Terminal R. P. O., but note carefully those cases where it is to be massed on a post office or a station of a post office.
2. Where more than one massing point is shown, mass upon the nearest in the direction in which the mail should move for final delivery.
3. Perishable parcel post and circular mail relating to market and stock quotations, and price lists, should not be sent to Terminal R. P. O.'s.
4. When practicable direct should be made of bulky and fragile parcel post and of circular mail at office of origin for offices in a State, any part of which is within the first or second zone, residue to be dispatched to designated terminal if no material delay or back haul results.
5. (a) Circulars and parcel post from a local office for offices in same State must not be sent to a Terminal R. P. O., but should be distributed to direct and lines except where unusual conditions obtain or special instructions govern.

(b) If a few packages of circulars (6 or less) are received by an R. P. O. train from a local office, and distribution may be made without difficulty, it should be done if the distribution of letter mail for the particular State is regularly made.

(c) Distribution of circulars and parcel post from local offices for other States, any part of which is within the first or second zones and for which other mails are distributed, will be made on lines receiving them, if distribution can be made without interfering with other duties and material delay or back haul would result through dispatch to a terminal.

(d) Parcel post received from local offices for States beyond the second zone shall not be distributed with other classes of mail except that when direct sacks are made for post offices, papers and parcels may be combined where the parcels are not fragile. Parcel post, not made up into direct, shall be massed upon the proper terminal, except perishable matter, or that which is liable to damage other parcels, which shall be treated as per present rules governing.

6. "Mixed" sacks of parcel post properly labeled to show contents and address of Terminal R. P. O. may be made for any terminal when the number of pieces or packages does not warrant separate State sacks. These "mixed" sacks must contain only mail due to the terminal addressed, according to this scheme.

7. Dept. C. L. 626 instructs that sacks be labeled to show State mail contained and terminal for which intended as:

Boston, Mass., Term. R. P. O. || St. Paul, Minn., Term. R. P. O.  
 MASS. CIRCULARS || MINN. PARCEL POST  
 From ..... || From .....

Do not dispatch a sack labeled simply "MINNESOTA P. P. from ....."

8. So far as practicable, post offices and lines should dispatch circular mail to terminals in No. 2 sacks. (C. L. 2413.)
