NOTE.—Mails for the above lines must be made up whenever possible instead of massing on Terminal R.P.O.'s. When a connection is missed and any of the mail involved is shown as reworked in a Terminal R.P.O., such mail should be dispatched to the proper Terminal if same will arrive there by the time as shown in last column.

First Division Post Offices and Lines distribute New England States to directs and routes.

NOTES.

1. Special Handling parcel post should not be sent to Terminal R. P. O.'s.
2. When practicable, directs should be made of Bulky and Fragile parcel post and of circular mail at office of origin for offices in a State any part of which is within the first or second zone, residue to be dispatched to designated terminal if no material delay or back haul results.
3. (a) Circulars and parcel post from a local office for offices in same State must not be sent to a terminal R. P. O., but should be distributed to directs and lines except where unusual conditions obtain or special instructions govern.

(b) Distribution of circulars and parcel post from local offices for other States any part of which is within the first or second zones and for which other mails are distributed, will be made on lines receiving them if distribution can be made without interfering with other duties and material delay or back haul would result through dispatch to a terminal.

(c) Parcel post received from local offices for States beyond the second zone shall not be distributed with other classes of mail except that when direct sacks are made for post office papers and parcels may be combined where the parcels are not fragile. Parcel post not made up into directs shall be massed upon the proper terminal, except Special Handling matter or that which is liable to damage other parcels, which shall be treated as per present rules governing.

(d) Non-fragile parcels under a shoe box size for distribution in a terminal should not be combined with bulky and fragile parcels, but should be made up separately or combined with ordinary papers for the same state.

4. "Mixed" sacks of parcel post properly labeled to show contents and address of terminal R. P. O. may be made for any terminal when the number of pieces or packages does not warrant separate State sacks. These "mixed" sacks must contain only mail due to the terminal addressed, according to his scheme.

5. (a) Sacks equipped with locking device should be used when contents are exclusively parcels or mixed parcels and papers, and be securely locked before dispatch.

(b) Label sacks to the proper terminal and designate contents as follows:

Boston, Mass., Term. R. P. O.	St. Paul, Minn., Term. R. P. O.
MASS. CIRCULARS	MINN. PARCEL POST
From.....	From.....

Do not dispatch a sack labeled simply "MINNESOTA P. P. From....."

6. FILMS: Films MUST NOT be dispatched in storage cars and clerks who find or receive them in such cars must report each case to the Superintendent, R. M. S., through their chief clerk. They should be dispatched in R. P. O. cars or C. P. trains, and never placed near steam pipes or lights of any kind.
