CHANGES AND ERRORS

Chief Clerks and Clerks will notify this office of changes or errors in the schedules or pouch lists.

TYPE FACES.

The numbers of trains on which RPO service is performed are indicated by heavy-faced type. All other trains are indicated by light-faced type.

Offices shown in italics are not located on that line

TIME.

All trains run by Central Standard Time unless otherwise specified. Heavy-faced type indicates P. M. time. Light-faced type indicates A. M. time. 12.00 o'clock noon is light-faced and 12.00 o'clock night is heavy-faced type.

SPACE AUTHORIZATIONS.

Following time table of all space routes will be found statement showing units of space authorized in each train. Unless otherwise specified, the authorization is for the train run and with frequency shown in the table. Bold type denotes R. P. O. trains and units of R. P. O. car space authorized; light-face type denotes closed pouch trains and closed pouch or storage units.

ARBITRARY SIGNS

A star *ex* to the title of an RPO denotes that clerks on all trains are equipped with rotary lock keys.....

If all trains on a line are not supplied, either the trains equipped or the exceptions follows the star..... * Ex.33
Registered mail is also connected..... §
Post office open all night for receipt and dispatch of mails (dagger).... †
Junction offices exchanging registers by night trains..... §
The asterisk prefixed to pouches made by RPO lines indicates that pouch goes direct over star route..... *
Only closed pouches carried on this line..... C
No Office..... (no)

When applied to trains or pouches the reference letters indicate day of departure of train from initial point.

NOTES.

1. Special Handling parcel post should not be sent to Terminal R. P. O'S
2. When practicable directs should be made of Bulky and Fragile Parcel Post and of circular mail at office of origin for offices in a state, any part of which is within the first or second zone, residue to be dispatched to designated Terminal if no material or back haul delay results.
3. (a) Circulars and parcel post from a local office for offices in same state must not be sent to a Terminal R. P. O. but should be distributed to directs and lines except where unusual conditions obtain or special instructions govern.
(b) Distribution of circulars and parcel post from local offices for other states any part of which is within the first or second zones and for which other mails are distributed, will be made on lines receiving them, if distribution can be made without interfering with other duties and material delay or back haul would result through dispatch to a Terminal
(c) Parcel post received from local offices for states beyond the second zone shall not be distributed with other classes of mail, except that when direct sacks are made for post offices, papers and parcels may be combined where the parcels are not fragile. Parcel post, not made up into matter or that which is liable to damage other parcels, which shall be treated as per present rules governing.
4. Non-fragile parcels under a shoe box size for distribution in a Terminal should not be combined with bulky and fragile parcels, but should be made up separately or combined with ordinary parcels for the same state.
5. "Mixed" sacks of parcel post properly labeled to show contents and address of Terminal R. P. O. may be made for any Terminal when the number of pieces or packages does not warrant separate state sacks. These "mixed" sacks must contain only mail due to the Terminal addressed, according to this scheme.
6. Sacks equipped with locking device should be used when contents are exclusively parcels or mixed parcels and papers, and be securely locked before dispatch.
