NOTES.

Chief clerks and clerks will notify this office of all changes of schedules on their lines, and of any omissions or errors in the schedules of trains, space authorizations or lists of pouches. See Sec. 1521, P. L. & R.

Connections—Where direct pouches are not shown for connecting trains at junction points, mail is connected through the junction post office during office hours, to all closed pouches shown in the post office pouch list, and to all trains departing not less than 20 minutes after arrival of train, unless otherwise indicated by a special note following the table. Mail for star route or rural route carriers, connects all such carriers scheduled to leave the post office after arrival of the train. Clerks in charge, chief clerks and postmasters should notify this office where connections in such cases cannot be made, and where connections broken are restored.

Distribution—R. P. O. trains make distribution of mail for states thru which the trains operate unless otherwise stated. Additional distribution of letters and newspapers made by important trains for cities or adjacent states is shown in Distribution Lists below time tables. † signifies letters only.

Pouches—On C. P. lines where no reference is made to pouches, the initial and terminal offices pouch to all offices on the line. Closed pouches made by the larger offices appear in back of schedule.

Accommodation pouches for line separations, states or cities, which go forward from point of dispatch in R. P. O. trains are not shown in pouch lists. Local city dis and city station pouches are also omitted. Clerks' pouch records will be kept correct from line orders published by chief clerk.

Space Authorizations—R. P. O. or distributing authorization is shown in heavy-faced type (thus 15'). C. P. or storage authorization in light-faced type (thus 15'), under each table. Unless otherwise specified the authorization is for the train run, with frequency shown in table.

On electric lines, one unit equals ten bags or less.

Time—All A. M. time, commencing at one minute after midnight, is shown in light-faced type, thus—12 01. All P. M. time, commencing one minute after noon, is shown in heavy-faced type, thus—12 01. 12 00 (light-face) is noon. 12 00 (heavy-face) is midnight. Careful attention must be paid to this explanation.

All trains run by Central Standard Time unless otherwise indicated.

Train Numbers—All trains shown in schedule carry mail. The numbers of trains in which R. P. O. service is performed, are indicated by heavy-faced figures, thus—61a. Numbers of all other trains are shown in light-face type (thus 61a).

Offices shown in *Italics* are not located on the line.

ARBITRARY SIGNS

A star prefixed to the title of an RPO. denotes that clerks in all trains are equipped with rotary-lock keys. ★
If all trains on a line are not supplied, either the trains equipped, or the exceptions, follow the star. ★ Ex.33
First class and newspapers only. □
Pouch dispatched for delivery by star route or mail messenger. □
Pouch dispatched by airplane. □
Registered mail is also connected. †
Post office open all night for receipt and dispatch of mails (dagger). †
When used in space tables, deadhead space is indicated by. †
Junction offices exchanging registers by night trains. ⊙
Only closed pouches carried on this line. C. P.
No junction. (nj)
No office. (no)
The ditto sign (do) used throughout schedule, refers only to the name of R. P. O. or P. O. shown immediately above.

Letters Indicating Frequency—When applied to trains, these letters refer to the days of departure. Where applied to pouches dispatched by R. P. O. lines, they refer to day of departure of train from initial point. When trains operate as two divisions, they refer to date of departure from division terminal. When applied to pouches dispatched by post offices, they refer to the day pouch is dispatched as shown by the closing time.

POUCH LIST

Pouches are made to all R. P. O.'s leaving St. Paul, except those terminating at Minneapolis, twenty minutes prior to scheduled time of leaving St. Paul. A margin of fifty (50) minutes, from the arrival of dispatching train to the departure of receiving train, is required to connect made-up mails through the round table. Additional pouches are made as follows.

#The "gateways" referred to are: Chicago, Council Bluffs, Milwaukee, Mackinaw, St. Paul and Sioux City.
Lines and offices north and west of St. Paul will distribute parcel post and circulars for nearby western states—Idaho, Montana, North Dakota and South Dakota for instance—to lines making delivery or connections for that territory.

NOTES.

1. Special Handling parcel post should not be sent to Terminal R. P. O's.
2. When practicable directs should be made of Bulky and Fragile Parcel Post and of circular mail at office of origin for offices in a state, any part of which is within the first or second zone, residue to be dispatched to designated Terminal if no material delay or back haul results.
3. (a) Circulars and parcel post from a local office for offices in same state must not be sent to a Terminal R. P. O. but should be distributed to directs and lines except where unusual conditions obtain or special instructions govern.
(b) Distribution of circulars and parcel post from local offices for other states any part of which is within the first or second zones and for which other mails are distributed, will be made on lines receiving them, if distribution can be made without interfering with other duties and material delay or back haul would result through dispatch to a Terminal.
(c) Parcel post received from local offices for states beyond the second zone shall not be distributed with other classes of mail except that when direct sacks are made for post offices, papers and parcels may be combined where the parcels are not fragile. Parcel post, not made up into directs, shall be massed upon the proper Terminal, except Special Handling matter, or that which is liable to damage other parcels, which shall be treated as per present rules governing.
4. Non-fragile parcels under a shoe box size for distribution in a Terminal should not be combined with bulky and fragile parcels, but should be made up separately or combined with ordinary papers for the same state.
5. "Mixed" sacks of parcel post properly labeled to show contents and address of Terminal R. P. O., may be made for any Terminal when the number of pieces or packages does not warrant separate state sacks. These "mixed" sacks must contain only mail due to the Terminal addressed, according to this scheme.
6. Sacks equipped with locking device should be used when contents are exclusively parcels or mixed parcels and papers, and be securely locked before dispatch.
7. Label sacks to the proper terminal and designate contents as follows:

Omaha, Nebr. Terminal R. P. O.	Spokane, Wash. Terminal R. P. O.
NEBRASKA PARCEL POST	WASHINGTON CIRCULARS

Do not dispatch a sack labeled simply
"OKLAHOMA P. P."
