TIME.

All a. m. time commencing one minute after midnight is shown in light-face type, thus—12.01. All p. m. time commencing one minute after noon is shown in heavy-face type, thus—12.01.

12.00 (light face) is noon; 12.00 (heavy face) is midnight. Careful attention must be paid to this explanation.

Unless otherwise stated, trains run by central standard (90th meridian time except in Colorado and New Mexico, where mountain standard (105th meridian) time is used.

ARBITRARY SIGNS.

- A star prefixed to the title of an R. P. O. denotes that clerks in all trains are equipped with rotary-lock keys. ★
- If all trains on a line are not supplied, either the trains equipped, or the exceptions, follow the star. ★ Ex. 33
- Registered mail is also connected. \$
- Post office open all night for receipt and dispatch of mails (dagger). †
- Junction offices exchanging registers by night trains. @
- The asterisk prefixed to pouches made by R. P. O. lines indicates that pouch goes direct over star route. *
- Pouches dispatched via airplane. □
- Only closed pouches carried on this line. C.P.
- No junction. (n.j.)
- No office. (n.o.)
- First Class and Newspaper only. ☒

TYPE FACES.

The numbers of trains on which R. P. O. service is performed are indicated by **heavy-face type**. All other trains are indicated by light-face type.

Offices shown in *italic* are not located on that line.

NOTES.

- Special handling parcel post should not be sent to terminal R. P. O's
- When practicable direct should be made of bulky and fragile parcel post and of circular mail at office of origin for offices in a State any part of which is within the first or second zone, residue to be dispatched to designated terminal if no material delay or back haul results.
- (a) Circulars and parcel post from a local office for offices in same State must not be sent to a terminal R. P. O. but should be distributed to direct and lines except where unusual conditions obtain or special instructions govern.
- (b) Distribution of circulars and parcel post from local offices for other States any part of which is within the first or second zones and for which other mails are distributed will be made on lines receiving them if distribution can be made without interfering with other duties and material delay or back haul would result through dispatch to a terminal.
- (c) Parcel post received from local offices for States beyond the second zone shall not be distributed with other classes of mail except that when direct sacks are made for post offices, papers and parcels may be combined where the parcels are not fragile. Parcel post not made up into direct shall be massed upon the proper terminal except special handling matter or that which is liable to damage other parcels, which shall be treated as per present rules governing.

(d) Nonfragile parcels under a shoe-box size for distribution in a terminal should not be combined with bulky and fragile parcels, but should be made up separately or combined with ordinary papers for the same State.

4. "Mixed" sacks of parcel post properly labeled to show contents and address of terminal R. P. O. may be made for any terminal when the number of pieces or packages does not warrant separate State sacks. These "mixed" sacks must contain only mail due to the terminal addressed according to this scheme.

- Sacks equipped with locking device should be used when contents are exclusively parcels or mixed parcels and papers, and be securely locked before dispatch.
- Label sacks to the proper terminal and designate contents as follows:
Little Rock, Ark., Term. R. P. O. St. Paul, Minn., Term. R. P. O.
ARK. CIRCULARS MINN. PARCEL POST

Do not dispatch a sack labeled simply "MINNESOTA P. P."
