LIST OF CLOSED POUCHES
Forwarded from Principal Post Offices by other than Mail Trains

The time shown opposite the Post Offices at heading of pouch lists is the minimum time required to connect made up mails through that office. Where no time is specified, 1 hr. should be allowed for connection.

The hours during which the Post Office is open for receipt and dispatch of mails is shown in *italics* under the heading of the pouch lists.

A * prefixed to the Post Office at heading of pouch list, indicates that Post Office is open continuously.

The closing time of pouches at Post Office is shown.

Postmasters should promptly notify this office of any changes in the information shown in the following pouch lists for their respective offices.

Above shows dispatch of circular, parcel post and ordinary paper mail authorized by the Department. On account of wide scope embraced in this division it was necessary for Chief Clerks to issue special instructions for dispatch of some states, which instructions will continue to be observed.

Gateways used in the foregoing table are: Chicago, Ill.; Council Bluffs, Iowa; Evansville, Ind.; Kansas City, Mo.; Memphis, Tenn.; St. Louis, Mo.; St. Paul, Minn.; and Sioux City, Iowa.

NOTES

- Special delivery and special handling parcel post must not be sent to Terminal R. P. O.'s.
- When practicable directs should be made of parcel post and of circular mail at office of origin for offices in a state, any part of which is within the first or second zones, residue to be dispatched to designated Terminal if no material delay or back haul results.
- (a) Circulars and parcel post from a local office for offices in same state must not be sent to a Terminal R. P. O. but should be distributed to directs and lines except where unusual conditions obtain or special instructions govern.
(b) Distribution of circulars and parcel post from local offices for other states, any part of which is within the first or second zones and for which other mails are distributed, will be made on lines receiving them, if distribution can be made without interfering with other duties and material delay or back haul would result through dispatch to a Terminal.
(c) Parcel post received from local offices for states beyond the second zone shall not be distributed with other classes of mail except that when direct sacks are made for post offices, papers and parcels may be combined where the parcels are not fragile. Parcel post, not made up into directs, shall be massed upon the proper Terminal, except special handling and special delivery matter, or that which is liable to damage other parcels, which shall be treated as per present rules governing.
- "Mixed" sacks of parcel post properly labeled to show contents and address of Terminal R. P. O., may be made for any Terminal when the number of pieces or packages does not warrant separate state sacks. These "mixed" sacks must contain only mail due to the Terminal addressed, according to this scheme.
- Sacks equipped with locking devices should be used when contents are exclusively parcels or mixed parcels and papers, and be securely locked before dispatch.
- R. P. O. lines of one division when traveling through or terminating in another division, will make the same dispatch of circular, ordinary papers and parcel post mails as is made by the division which they are in.
- Label sacks to the proper terminal and designate contents as follows:

Boston, Mass., Term.	St. Paul, Minn., Term.
MASS. CIRCULARS	MINN. PARCELS

EXPLANATION—The small capitals to the left of time in this table indicate the days in transit between New York, San Francisco, etc., as follows: S—Sunday, M—Monday, Tu—Tuesday, W—Wednesday, Th—Thursday, F—Friday, Sa—Saturday. The reference letter affixed to train number indicates the frequency of service. Small black-face figures to right of train numbers are symbols indicating connections. Connections westward are toward the center table east of Chicago, and away from it west of Chicago. Connections eastward are toward the center table west of Chicago, and away from it east of Chicago. By use of the symbol, time of arrival at any desired destination shown in these tables may be readily ascertained by looking in the column of same symbol as that of departure time. # affixed to a symbol number indicates an advance dispatch for the same symbol without prefix. Where two symbols appear in one column they signify that both connections indicated by the symbols are made by that train.
