NOTES

Chief Clerks and Clerks will notify this office of schedule changes on their lines, and of any errors in schedules of trains, space authorizations, or lists of pouches. (See Sec. 2049, P. L. & R.)

Assignment of Lines:—The district number at the right, following the route number under each table, shows the assignment of the line to chief clerks.

Distribution:—Where RPO trains make distribution of states other than the local states a list under a heading "Mails Worked" is shown below the time table. All distribution by lines and offices is by general scheme unless otherwise shown.

POUCHES:—On C. P. and S. R. lines the initial, terminal and principal offices usually pouch to all offices on the line. Closed pouches made by the larger offices are shown in the back of this schedule. Star route trips included in C. P. and R. P. O. tables serve the same function as C. P. trains for supply of local offices between the points shown.

Space Authorization:—The authorized RPO units of distributing space are shown in heavy faced type (thus: 60', 15', and units of storage space of 15 feet or more are shown in light faced type (thus: 60', 15') following the classification of runs at the foot of each time table involved. Deadhead return movements are indicated by the letters DH. Unless otherwise specified the authorization is for the train run and with same frequency as the train. Closed pouch authorizations and storage authorizations of less than 15 feet are not shown, except in trunk and similar line service, but suitable units are authorized to accommodate the mails carried on all trains with frequency as shown in the schedule.

SPACE EQUIVALENT

One and three-fourths outside parcels equal one sack

TABLE

1 to 52 sacks = 3'	261 to 312 sacks = 18'
53 to 104 sacks = 6'	313 to 364 sacks = 21'
105 to 156 sacks = 9'	365 to 416 sacks = 24'
157 to 208 sacks = 12'	417 to 468 sacks = 27'
209 to 260 sacks = 15'	469 to 520 sacks = 30'

Effective April 1, 1936, the Department directs that one and three-fourths outside packages shall be considered as equivalent to one sack. In determining this, clerks will please use the following table:

Parcels	Equivalent Parcels	Equivalent Parcels	Equivalent Parcels	Equivalent Parcels	Equivalent Parcels	Equivalent Parcels	Equivalent Parcels	Equivalent Parcels	Equivalent Parcels	Equivalent Parcels	Equivalent Parcels

13	8	26	15	39	23	52	30	65	37	77	44	89	51	100	58

Time:—All A. M. time commencing at one minute after midnight is shown in light-faced type—thus: 12:01. All P. M. time connections one minute after noon is shown in heavy-faced type—thus: 12:01. 12:00 (light-faced) is noon; 12:00 (heavy-faced) is midnight. Careful attention must be paid to this explanation.

All trains run by Eastern Standard time unless otherwise indicated.

Train Numbers:—All trains shown carry mail. The number of trains in which RPO service is performed are indicated by heavy-faced figures, thus: 8. Number of all other trains shown in light-faced type, thus: 8.

Star Routes—Where a Star Route parallels a C. P. or R. P. O. line and supplies offices located thereon, the schedule of the Star Route is shown in the C. P. or R. P. O. tables.

Letters Indicating Frequency:—When applied to trains these letters refer to day of departure. When applied to pouches dispatched by RPO lines, they refer to day of departure of train from initial point, or from division terminal if operated over two or more divisions. When applied to pouches dispatched by post offices they refer to day pouch is dispatched as shown by the closing time.
