NOTES

Chief Clerks and Clerks will notify this office of schedule changes on their lines, and of any errors in schedules of trains or star routes, space authorizations, mail worked, etc., under their supervision. (See Sec. 2049, P. L. & R.)

Assignment of Lines:—The district number at the right, following the route number under each table, shows the assignment of the line to chief clerks.

Distribution:—Where RPO trains make distribution of states other than the local states a list under a heading "Mails Worked" is shown below the time table. All distribution by lines and offices is by general scheme unless otherwise shown.

POUCHES:—On C. P. and S. R. lines the initial, terminal and principal offices usually pouch to all offices on the line. Closed pouches made by the larger offices are shown in the back of this schedule. Star route trips included in C. P. and R. P. O. tables serve the same function as C. P. trains for supply of local offices between the points shown.

Space Authorization:—The authorized RPO units of distributing space are shown in heavy faced type (thus: 60., 15.) and units of storage space of 15 feet or more are shown in light faced type (thus: 60., 15.) following the classification of runs at the foot of each time table involved. Deadhead return movements are indicated by the letters D.H. Unless otherwise specified the authorization is for the train run and with same frequency as the train. Closed pouch authorizations and storage authorizations of less than 15 feet are not shown, except in trunk and similar line service, but suitable units are authorized to accommodate the mails carried on all trains with frequency as shown in the schedule.

SPACE EQUIVALENT

TABLE

No. of Sacks	Feet	No. of Sacks	Feet
51 or less	3	256 to 306	18
52 to 102	6	307 to 357	21

205 to 255	15	460 to 510	30

Effective April 1, 1938, the Department directs that two outside packages shall be considered as equivalent to one sack. In determining this, clerks will please use the following table:

TWO OUTSIDE PARCELS EQUAL ONE SACK

Parcels	Sacks	Parcels	Sacks	Parcels	Sacks	Parcels	Sacks	Parcels	Sacks	Parcels	Sacks	Parcels	Sacks
1	1	14	7	27	14	40	20	53	27	65	33	77	39

12	6	25	13	38	19	51	26	64	32	76	38	88	44
13	7	26	13	39	20	52	26	65	33	77	39	89	45

Time:—All A.M. time commencing at one minute after midnight is shown in light-faced type—thus: 12:01. All P.M. time connections one minute after noon are shown in heavy-faced type—thus: 12:01. 12:00 (light-faced) is noon; 12:00 (heavy-faced) is midnight. Careful attention must be paid to this explanation.

All trains run by Eastern Standard time unless otherwise indicated.

Train Numbers:—All trains shown carry mail. The numbers of trains in which RPO service is performed are indicated by heavy-faced figures, thus: 8. All other trains shown in light-faced type, thus: 8.

Star Routes:—Important star routes are shown in this schedule. Where a star route parallels an RPO or CP line in whole or in part and supplies offices thereon the schedule of the star route, if not shown as a separate table, appears in the RPO or CP table.

Letters Indicating Frequency:—When applied to trains these letters refer to day of departure. When applied to pouches dispatched by RPO lines, they refer to day of departure of train from initial point, or from division terminal if operated over two or more divisions. When applied to pouches dispatched by post offices they refer to day pouch is dispatched as shown by the closing time.

LIST OF CLOSED POUCH MAILS

Forwarded from Principal Post Offices and Transfer Offices by other than R. P. O. Trains

The time shown opposite the Post Offices at heading of pouch lists is the minimum time required to connect made up mails between trains through that office. Where no time is specified, 1 hr. should be allowed for connection.

The hours during which the Post Office is open for receipt and dispatch of mails is shown in italics under the heading of the pouch lists.

A †, prefixed to the Post Office at heading of pouch list, indicates that Post Office is open all night for the receipt and dispatch of mails.

The closing time of pouches at Post Office is shown, and Eastern Standard Time is used unless otherwise indicated.

Postmasters should promptly notify this office of any changes in the information shown in the following pouch lists for their respective offices.

For Air Mail pouches made by post offices on Air Mail Routes and by Air Mail Fields see Air Mail tables on pages 137 to 143.

NOTES

1. Special delivery, special handling and perishable parcel post must not be sent to Terminal R. P. O.'s, except where unusual conditions obtain or special instructions govern.
2. When practicable directs should be made of parcel post and of circular mail at office of origin for offices in a State, any part of which is within the first or second zones, residue to be dispatched to designated Terminal is no material delay or back haul results.
3. (a) Circulars and parcel post from a local office for offices in same State must not be sent to a Terminal R. P. O., but should be distributed to directs and lines except where unusual conditions obtain or special instructions govern.
(b) Distribution of circulars and parcel post from local offices for other States any part of which is within the first or second zones and for which other mails are distributed, will be made on lines receiving them, if distribution can be made without interfering with other duties and material delay or back haul would result through dispatch to a Terminal.
- (c) Parcel post received from local offices for States beyond the second zone shall not be distributed with other classes of mail except that when direct sacks are made for post offices, papers and parcels may be combined where the parcels are not fragile. Parcel post must be made up into directs shall be forwarded as indicated in State Dispatch List. (See Note 1.)
4. "Mixed" sacks of parcel post properly labeled to show contents and address of Terminal R. P. O., may be made for any Terminal when the number of pieces or packages does not warrant separate State sacks. These "mixed" sacks must contain only mail due to the Terminal addressed, according to this scheme.
5. Sacks equipped with locking devices should be used when any part of the contents are parcels and be securely locked before dispatch.
6. R. P. O. lines of one division when traveling through or terminating in another division, will make the same dispatch of circular, ordinary paper and parcel post mails as is made by the division in which they are operating.

Label sacks to the proper Terminal and designate contents as follows:
