NOTES

Chief clerks and clerks will notify this office of any schedule changes on their lines, and of any errors in schedules of trains, or star routes, space authorizations, mails worked, etc., under their supervision. (See Sec. 2049 P. L. & R.)

Assignment of lines.—The district number at the right, following the route number under each table shows the assignment of the line to chief clerks.

Distribution.—Where R. P. O. trains make distribution of States other than the local States, a list of mails worked is shown below the time table.

Pouches.—On C. P. lines the initial, terminal, and principal junction offices usually pouch to all offices on the line. Closed pouches made by the larger post offices appear in the back of this schedule.

Space authorizations.—The authorized R. P. O. units of distributing space are shown in heavy-faced type (thus: 60', 15'), and units of storage space of 15 feet or more are shown in light-faced type (thus: 60', 15') following the classification of runs at the foot of each table involved. Deadhead return movements are indicated by the letters D.H. Unless otherwise specified the authorization is for the train run and with same frequency as the train. Closed-pouch authorizations and storage authorizations of less than 15 feet are not shown, but suitable units are authorized to accommodate the mails carried on all trains with frequency as shown in the schedule.

Time.—All a. m. time, commencing at one minute after midnight, is shown in light-faced type, thus—12 01. All p. m. time, commencing one minute after noon, is shown in heavy-faced type, thus—12 01. 12 00 (light-faced) is noon: 12 00 (heavy-faced) is midnight. Careful attention must be paid to this explanation.

All trains are run by Eastern Standard Time unless otherwise specified.

Train numbers.—All trains shown carry mail. The numbers of trains on which R. P. O. service is performed are indicated by heavy-faced figures, thus—8. Numbers of all other trains are shown in light-face type thus—8.

Star routes.—Important star routes are shown in this schedule. Where a star route parallels an R. P. O. or C. P. line in whole or in part and supplies offices thereon the schedule of the star route, if not shown as a separate table, appears in the R. P. O. or C. P. table.

Letters indicating frequency.—When applied to trains, these letters refer to the day of departure. When applied to pouches dispatched by R. P. O. lines, they refer to day of departure of train from initial point or from division terminal if operated over two or more divisions. When applied to pouches dispatched by post offices they refer to day pouches dispatched as shown by the closing time.
