NOTES.

Chief clerks and clerks will notify this office of schedule changes on their lines, and of any errors in schedules of trains or star routes, space authorizations, mails worked, etc., under their supervision (See Sec. 2049, P. L. & R.)

Assignment of Lines:—The district number at the right, following the route number under each table, shows the assignment of the line to chief clerks.

Distribution:—Where R. P. O. trains make distribution of states other than the local states a list of mails worked is shown below the time table.

Pouches:—On C. P. and S. R. lines the initial, terminal and principal offices usually pouch to all offices on the line. Closed pouches made by the larger offices are shown in the back of this schedule. Star route trips included in C. P. and R. P. O. tables serve the same function as C. P. trains for supply of local offices between the points shown.

Space Authorizations:—The authorized R. P. O. units of distributing space are shown in heavy-faced type, (thus: 60', 15'), and units of storage space of 15 feet or more are shown in light-faced type, (thus: 60', 15'), following the classifications of runs at the foot of each time table involved. Deadhead return movements are indicated by the letters D. H. Unless otherwise specified the authorization is for the train run and with same frequency as train. Closed pouch authorizations and storage authorizations of less than 15 feet are not shown, but suitable units are authorized to accommodate the mails carried on all trains with frequency as shown in the schedule.

SPACE EQUIVALENTS.

Two outside parcels equal one sack.

TABLE.	
1 to 49 sacks 3'	246 to 294 sacks 18'
50 to 98 sacks 6'	295 to 343 sacks 21'
99 to 147 sacks 9'	344 to 392 sacks 24'
148 to 196 sacks 12'	393 to 441 sacks 27'
197 to 245 sacks 15'	442 to 490 sacks 30'

Time:—All A. M. time, commencing at one minute after midnight, is shown in light-faced type, thus: 12:01. All P. M. time, commencing one minute after noon, is shown in heavy-faced type, thus: 12:01. 12:00 (light-faced) is noon; 12:00 (heavy-faced) is midnight. Careful attention must be paid to this explanation.

All trains are run by Central Standard Time unless otherwise specified.

Train Numbers:—All trains shown carry mail. The numbers of trains on which R. P. O. service is performed are indicated by heavy-faced figures thus: 8. Numbers of all other trains shown in light-faced type, thus: 8.

Star Routes:—Important star routes are shown in this schedule. Where a star route parallels an R. P. O. or C. P. line in whole or in part and supplies offices thereon the schedule of the star route, if not shown as a separate table, appears in the R. P. O. or C. P. table.

Letters Indicating Frequency:—When applied to trains these letters refer to day of departure. When applied to pouches dispatched by R.P.O. lines, they refer to day of departure of train from initial point, or from division terminal if operated over two or more divisions. When applied to pouches dispatched by post offices they refer to day pouch is dispatched as shown by the closing time.

DISTRIBUTION.—Where R.P.O. trains make distribution of states other than the local states a list under a heading "MAILS WORKED" is shown below the time table. All distribution by lines and offices is by general scheme unless otherwise shown.

ARBITRARY SIGNS

- A star prefixed to the title of an RPO denotes that clerks in all trains are equipped with rotary-lock keys. ★
- If all trains on a line are not supplied, either the trains equipped or the exceptions follow the star. ★ Ex. 33.
