Schedule of Mail Routes

No. 316

MARCH 10, 1941

ELEVENTH DIVISION RAILWAY MAIL SERVICE

COMPRISING
New Mexico, Oklahoma
and Texas

Prepared Under the Supervision of

C. J. TAYLOR

Superintendent, Eleventh Division
Post Office Building, Fort Worth, Texas
Phone 2-8361

By direction of the General Superintendent, R.M.S.

Babcock Ptg. Co., Fort Worth-3-10-1941-5000

NOTES

Chief clerks and clerks will notify this office of schedule changes on their lines, and of any errors in schedules of trains or star routes, space authorizations, mails worked, etc., and of their supervision. (See Sec. 2049, P. L. & R.)

Assignment of Lines—The district number at the right, following the route number under each table, shows the assignment of the line to chief clerks.

Distribution—Where RPO trains make distribution of states other than the local states, a list under a heading, "Mails Worked" is shown below the time table. All distribution by lines and offices is by general scheme unless otherwise shown.

Pouches—On CP and SR lines the initial, terminal and principal junction offices usually pouch to all offices on the line. Closed pouches made by the larger post offices appear in back of this schedule.

Important star routes are shown in this schedule. Where a star route parallels an RPO or CP line, in whole or in part, and supplies offices thereon, the schedule of the star route, if not shown in a separate table, appears in the RPO or CP table.

Air-Mail Pouches—Pouches made by post offices and air-mail fields in Eleventh Division, for dispatch via plane, will be found in list under table of route due to carry same. Those made by RPO trains will be found in list of pouches under RPO line.

Space Authorizations—The authorized RPO units of distributing space are shown in heavy-faced type (thus: 60', 15'), and units of storage space of 15 feet or more are shown in light-faced type (thus, 60', 15') following the classification of runs at the foot of each time table involved. Deadhead return movements are indicated by the letters DH. Unless otherwise specified the authorization is for the train run and with same frequency as the train. Closed-pouch authorizations and storage authorizations of less than 15 feet are not shown, but suitable units are authorized to accommodate the mails carried on all trains with frequency as shown in the schedule.

Sack and Outside Package Equivalents

1 to 49 sacks	3 ft.	246 to 294 sacks	18 ft.
50 to 98 sacks	6 ft.	295 to 343 sacks	21 ft.
99 to 147 sacks	9 ft.	344 to 392 sacks	24 ft.
148 to 196 sacks	12 ft.	393 to 441 sacks	27 ft.
197 to 245 sacks	15 ft.	442 to 490 sacks	30 ft.

Time—All a. m. time commencing one minute after midnight is shown in light-faced type—thus: 12:01. All p. m. time commencing one minute after noon is shown in heavy-faced type—thus: 12:01.

12:00 (light face) is noon; 12:00 (heavy face) is midnight. Careful attention must be paid to this explanation.

All trains and planes are run by Central Standard Time unless otherwise stated.

Train Numbers—All trains shown carry mail. The numbers of trains in which RPO service is performed are indicated by heavy-faced figures, thus: 8. Numbers of all other trains shown in light-faced type, thus: 8.

Letters Indicating Frequency—When applied to trains these letters refer to day of departure. When applied to pouches dispatched by RPO lines, they refer to day of departure of train from initial point, or from division terminal if operated over two or more divisions. When applied to pouches dispatched by post offices they refer to day pouch is dispatched as shown by the closing time.
