LIST OF CLOSED POUCH MAILS

Forwarded From Principal Post Offices by other than R. P. O. Trains

The time shown opposite the Post Office or Transfer Office at heading of pouch lists is the maximum time required to connect made-up mails between trains or trips, through the office. Where no time is specified 1 hr. should be allowed for the connection.

The hour during which the Post Office or Transfer Office is open for receipt and dispatch of mails is shown in italics under the heading of the pouch lists. A * prefixed to the name of the Post Office at heading of pouch list indicates that the office is open all night for receipt and dispatch of mails.

The frequency and closing time of crouches at Post Office is shown. Postmasters should promptly notify the Gen. Supt. P T S of any changes in the information shown in the following pouch lists for their respective offices. For Air Mail pouches made by Air Mail Fields see pages 102 and 103.

For reference letter denoting frequency of dispatch, see page 5.

New York parcel post, circulars and ordinary papers having Long Island as a part of the address or offices known to be on Long Island should be dispatched to Penn. Term. P. T. S., New York, N. Y.

NOTES

- Perishable, special delivery and special handling parcel post, time value circulars, such as market reports, stock quotations, price change announcements, etc., must not be dispatched to terminals or other distributing units listed in the preceding table except where unusual conditions obtain or special instructions govern.
- Local post offices will, when quantity warrants, make directs of parcel post and of circular mail for offices in a state, any part of which is within the first or second zones, residue to be dispatched to designated terminal or post office, if no material delay or back haul results.
- Except where unusual conditions obtain or special instructions govern, distribution of circulars and parcel post from local offices for a state, local, or any part of which is within the first or second zones and for which other mails are distributed, will be made on lines receiving them, if material delay or back haul would result through dispatch to a terminal or post office.
- Parcel post received from local offices for states beyond the second zone shall not be distributed with other classes of mail except that when direct sacks are made for post offices, unless otherwise instructed, papers and parcels may be combined where the parcels are not fragile. Parcel post not made up into directs shall be forwarded as indicated in State Dispatch List. (See Note 1).
- "Mixed" sacks of parcel post properly labeled to show contents and address of terminal or post office may be made when the number of pieces or packages does not warrant separate state sacks. Unless otherwise instructed these "mixed" sacks must contain only mail due to the terminal or post office addressed, according to this scheme.
- Sacks equipped with locking devices should be used when any part of the contents are parcels, and securely locked before dispatch.
- R. P. O. lines of one division when traveling through or terminating in another division, will make the same dispatch of circulars, ordinary papers and parcel post mails as is made by the division in which they are operating.
- Label sacks to the proper terminal or post office and designate contents as follows:

Chicago, Ill. Term.	Chicago, Ill. Dis.
IOWA, CIRCULARS	ILL. PARCELS
