NOTES

1. District Superintendents will notify the General Superintendent of any schedule, or other, changes in their districts, and of any errors in the schedules of trains, HPO's, or star routes, space authorizations, mails worked, etc., under their supervision. Clerks will advise their District Superintendents of any errors detected in schedules. (See Sec. 107.17 P.L. & R.).
2. **Assignment of Lines:** - The district number following the route number under each title shows the assignment of lines to Districts.
3. **Distribution:** - Where HPO trains or HPO's make distribution of cities or states, other than local states, a list under a heading "Mails Worked" is shown below the time table. All distribution is by general scheme, unless otherwise shown.
4. **Pouches:** - On CP and SR lines the initial terminal and principal offices usually pouch to all offices on the line. Closed pouches made by each post office as are essential to correct distribution of mails appear in the back of this schedule. Star route trips are included in CP, HPO, and RPO tables serve the same function as CP trains for supply of local post offices between the points shown.

Accommodation pouches (pouches which go forward from point of dispatch in RPO trains) and local pouches (for city, dia., or stations) are not listed in this schedule.

5. **Space Authorizations:**—The authorized RPO units of distributing space are shown in heavy faced type (thus: 60', 15'), following the classification of runs at the foot of each time table involved. Unless otherwise specified, the authorization is for the train run and with the same frequency as the train. Closed pouch and storage space authorizations of 15' or more are shown.

6. **Space Equivalent Table (Effective April 1, 1950):** (1-12 outside parcels equal ONE sack, except baby chicks. EACH box of baby chicks equals ONE sack.)

Parcels	Sacks	Parcels	Sacks	Parcels	Sacks	Parcels	Sacks	Sacks	Space
1	1	16	11	31	21	40	31	1.46	3'
2-3	2	17-18	12	32-33	22	47-48	32	47.92	8'
4	3	19	13	34	23	49	33	93.138	9'
5-5	4	20-21	14	35-36	24	50-51	34	139.184	12'
7	5	22	15	37	25	52	35	185.230	15'
8-9	6	23-24	16	38-39	26	53-54	36	231.276	18'
10	7	25	17	40	27	55	37	277.322	21'
11-12	8	26-27	18	41-42	28	56-57	38	323.368	24'
13	9	28	19	43	29	58	39	369.414	27'
14-15	10	29-30	20	44-45	30	59-60	40	415.460	30'

7. **Time:**—All A.M. time commencing at one minute after midnight is shown in light faced type (thus: 12.01). All P.M. time commencing one minute after noon is shown in heavy faced type (thus: 12 01). 12 00 (light face) is noon. 12 00 (heavy face) is midnight.

All trains and other trips run by Eastern Standard Time unless otherwise indicated.

 The Symbol of the per cent (%) appearing ahead of the Title of any line denotes Daylight Saving Time operation during period of Daylight Saving Time.

8. **Train or Trip Numbers.**—All trains and trips shown carry mail. The numbers of trains, or trips, on which RPO or HPO service is performed are indicated by heavy faced figures (thus: 8). All other trains or trips are indicated by light faced figures (thus: 5).

9. **Star Routes:**—Important star routes are shown in this schedule. Where a star route parallels an RPO or CP line or HPO route, in whole or in part, and supplies offices thereon, the schedule of the star route, if not shown as a separate table, appears in a table as indicated in "Index." When a star route is included in an RPO, HPO or CP table, the trip numbers are prefixed with an asterisk (*).

10. **Letters Indicating Frequency:**—When applied to trains or trips, these letters refer to the day of departure. When trains are operated as two divisions, the letters refer to date of departure from the division terminal. When applied to pouches dispatched by RPO trains or HPO's these letters refer to day of departure of the train or HPO from initial or division point. When applied to pouches dispatched by post offices, they refer to the day that the pouch is actually dispatched as shown by closing time.

11. **International Exchange Offices:**—The abbreviation "I. E. Can. or I.E. Newfoundland" shown with operating unit title indicates that the unit is a designated International Exchange Office for the receipt (R) and dispatch (D) of mails with the country named.

NOTES.

1. Perishable, special delivery and special handling parcel post and time value circulars, such as market reports, stock quotations, price change announcements, etc., must not be dispatched to terminals or other distributing units listed in the preceding table except where unusual conditions obtain or special instructions govern.

2. Local post offices will, when quantity warrants, make directs of parcel post and of circular mail for offices in a state, any part of which is within the first or second zones, residue to be dispatched to designated terminal or post office, if no material delay or back haul results.

3. Except where unusual conditions obtain or special instructions govern, distribution of circulars and parcel post from local offices for a state, local, or any part of which is within the first or second zones and for which other mails are distributed, will be made on lines receiving them, if material delay or back haul would result through dispatch to a terminal or post office.

* Exc. large flats and sacks of directs to: St. Louis, Mo. Term.

†† New York--Long Island, N. Y. to Penn. Term., N. Y.; except Circulars to New York, N. Y., P. O.

4. Parcel post received from local offices for states beyond the second zone shall not be distributed with other classes of mail except that when direct sacks are made for post offices, unless otherwise instructed, papers and parcels may be combined where the parcels are not fragile. Parcel post not made up into directs shall be forwarded as indicated in State Dispatch List. (See note 1).

5. "Mixed" sacks of parcel post properly labeled to show contents and address of terminal or post office, may be made when the number of pieces or packages does not warrant separate state sacks. Unless otherwise instructed these "mixed" sacks must contain only mail due to the terminal or post office addressed, according to this scheme.

6. Sacks equipped with locking devices should be used when any part of the contents are parcels, and securely locked before dispatch.
