NOTES.

1. District Superintendents will notify the General Superintendent of schedule changes in their districts. Any errors in the published schedules of trains, H. P. O.'s, star routes, space authorizations, mail worked, etc., affecting units under their supervision, shall also be reported to the general superintendent. Postal transportation clerks will advise their District Superintendents of any errors detected in published schedules.

2. Assignment of Lines. The district number following the route numbers under each title shows the assignment of lines to District Superintendents.

3. Distribution. Where R. P. O. trains or H. P. O.'s make distribution of cities or states other than local states, a list under a heading "Mails Worked" is shown below the time table. All distribution is by general scheme unless otherwise shown.

4. Pouches. On C. P. and S. R. lines the initial terminal and principal offices usually pouch to all offices on the line. Closed pouches made by such post offices as are essential to correct distribution of mails, appear in the back of this schedule. Star route trips included in C. P., H. P. O. and R. P. O. tables serve the same function as C. P. trains for supply of local post offices between the points shown.

Accommodation pouches (pouches which go forward from point of dispatch in R. P. O. trains) and local pouches (for city, dis., or stations) are not listed in this schedule.

5. Space Authorizations. The authorized R. P. O. units of distributing space and storage space are shown in the block immediately following train number entries. R. P. O. train numbers are shown in heavy faced type (thus 60' and 15') and, unless otherwise stated, the authorization is for the train run and with the same frequency as the train. Information concerning storage authorizations, if any, is shown by the use of arbitrary signs.

6. Space Equivalent Table (Effective 4-1-54). Each pouch, sack and outside parcel will be counted as one piece. Forty-seven pieces will constitute a 3-foot unit.

Pieces — Feet	Pieces — Feet	Pieces — Feet	Pieces — Feet
1- 16 = 1'	283- 329 = 21'	612- 658 = 42'	941- 987 = 63'
17- 31 = 2'	330- 376 = 24'	659- 705 = 45'	988- 1034 = 66'
32- 47 = 3'	377- 423 = 27'	706- 752 = 48'	1035- 1081 = 69'
48- 94 = 6'	424- 470 = 30'	753- 799 = 51'	1082- 1128 = 72'
95- 141 = 9'	471- 517 = 33'	800- 846 = 54'	1129- 1175 = 75'
142- 188 = 12'	518- 564 = 36'	847- 893 = 57'	1176- 1222 = 78'
189- 235 = 15'	565- 611 = 39'	894- 940 = 60'	1223- 1269 = 81'
236- 282 = 18'			1270- 1216 = 84'

7. Time: All A. M. time commencing at one minute after midnight is shown in light face type, thus (12 01). All P. M. time commencing one minute after noon is shown in heavy faced type, thus (12 01). 12 00 (light face) is noon. 12 00 (heavy face) is midnight. Careful attention must be paid to this explanation.

All trains and other trips run by Central Time unless otherwise indicated.

8. Train or Trip Numbers: All trains and trips shown carry mail. The numbers of trains on which R. P. O. service is performed are indicated by heavy faced figures, thus (8). All other trains or trips are indicated by light faced figures, thus (8).

9. Star routes: Important star routes are shown in this schedule. Where a star route parallels an R. P. O. or C. P. line in whole or in part and supplies offices thereon the schedule of the star route, if not shown as a separate table, appears in a table as indicated in "Index." When a star route is included in an R. P. O., H. P. O. or C. P. table, the trip numbers are prefixed with an asterisk (*)

10. Letters Indicating Frequency: When applied to trains or trips these letters refer to the day of departure. When trains are operated as two divisions the letters refer to date of departure from the division terminal. When applied to pouches dispatched by R. P. O. trains these letters refer to day of departure of the train from initial or division point. When applied to pouches dispatched by Post Offices they refer to the day that the pouch is actually dispatched as shown by closing time.

FREQUENCY OF SERVICE

ARBITRARY SIGNS.

A star, in heavy faced type, prefixed to the title of an R. P. O. or H. P. O. denotes that clerks in all trains or trips are equipped with rotary-lock keys. ★
 If all trains or trips on a line are not supplied with rotary-lock keys, either the trains or trips equipped or the exceptions follow the star. ★ Ex. 33.
 A star prefixed to the name of a transfer office, terminal or air mail field indicates that it is equipped with a rotary-lock key. ★
 An asterisk prefixed to pouches made by R. P. O.'s, H. P. O.'s, Post Offices, Terminals and Transfer Offices, indicates that pouch goes direct over star or mail messenger route, and an asterisk prefixed to trip number in tables, indicates such trips to be star or mail messenger route. ★
 Office open all night for receipt and dispatch of mails. +
 Registered mail is also connected. §
 Junction offices exchanging registers with night trains. §
 Pouches dispatched by airplane or over air mail route. □
 First class mail only. ○
 First-class mail only and all classes of air mail. ○
 First-class mail, newspapers and all classes of air mail. ☒
