IF YOU ARE CONTEMPLATING A CHANGE IN LOCATION, THERE IS NO TIME LIKE THE PRESENT

If you are interested in owning a home and enjoying the independence which follows and for which you have longed, there is nothing to be gained by waiting and something might be lost. Exceptional opportunities exist here and there along the Burlington in Western Nebraska, Eastern Colorado, Wyoming and Montana. A few exceptional ranch properties containing some splendid farm land are now available. If you are not in position to buy a farm now, some good irrigated farms can be rented on very attractive terms.

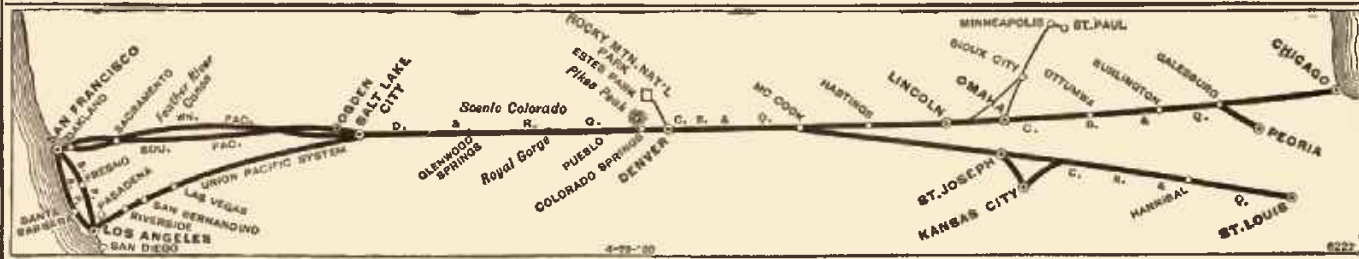

No matter what your problem, agricultural or industrial, I can help you. Tell me what you are looking for and let me send you facts and figures for consideration. My services are free—I have nothing to sell—the Burlington employs me to help you get located satisfactorily, in the wonderfully productive territory which it serves and which has a great future. Val Kuska, Colonization Agent, 1004 Farnam St., Omaha, Neb.

THE WEST'S MOST DEPENDABLE RAILROAD

The Burlington was 72 years old on September 2d. As the Aurora Branch Railroad, extending from Aurora, Illinois to Turner Junction (now West Chicago)—12 miles, it began serving the public on September 2, 1850, and had one "iron horse", one coach and two baggage and freight cars. Built to meet a purely local requirement, its promoters had no idea that the road ever would extend beyond the boundaries of Illinois.

Today, its rails serve practically every important commercial center between Chicago and St. Louis and the Rocky Mountains, and through its connection with the Northern Pacific and Great Northern Railways and its ownership of the Colorado & Southern Railway, it reaches every point upon these systems—a total of 27,453 miles of railroad in 17 great states having an area of 1,600,138 square miles, with a population of 30,639,970 (1920 census).

Today, the Burlington owns more than 75,000 equipment units (light, medium and heavy freight, passenger and switching locomotives; box, flat, stock, coal, tank, refrigerator, passenger, dining, parlor, baggage, express and postal and miscellaneous cars). Made up into one single train this equipment would reach from Springfield, Massachusetts, to Cleveland, Ohio; Richmond, Virginia, to Cincinnati, Ohio; Paris, Texas, to St. Louis, or Denver, Colorado, to Fairfield, Iowa.

The Burlington is headquarters for courteous, business-like and dependable transportation between Chicago or St. Louis and—Everywhere West.

DENVER
THE GATEWAY TO TWELVE NATIONAL PARKS AND THIRTY-TWO NATIONAL MONUMENTS
Gold and snow sports the same day combine a rare winter recreation in the Colorado Rockies—where you'd least expect such travel diversion. These unusual delights, enjoyed while Jack Frost elsewhere is blowing his hoary breath, are possible because of tempering Chinook winds and ever-present sunshine. This extraordinary circumstance of climate sometimes raises the temperature by 30 degrees for days at a time. The National Park Service at Washington is encouraging winter sports in Rocky Mountain National (Estes) Park, seventy five miles northwest of Denver. Hotel accommodations are near at hand. Golf, skiing and carnival sports likewise are enjoyed in the Denver Mountain Parks, twenty-five miles by auto. Denver, as a winter resort center, warrants a stop-over, on the way to, or returning from the Pacific Coast.

NATURE AND WYOMING

Nature, in her distribution of gifts, has been kind to Wyoming. Not only is Yellowstone, the land of spectacular natural phenomena in Wyoming, but so also are the Big Horn Mountains and it is doubtful whether, in any other part of our great West, there can be found a range that possesses more beauty, more grandeur and more attractions for the nature lover, the naturalist or the man of adventure than these picturesque Big Horns. Here men have builded "dude" ranches, also a Wyoming product—places where city men and women may go and obtain food and lodging while roaming o'er these lovely mountains—horseback riding, fishing, climbing, hunting, and discover that instead of being a habit, eating is a necessity, and that sleep comes without wooing. It's simply great! Better investigate before planning your next vacation.

THE BLACK HILLS

of South Dakota is a picturesque country that was formerly a hunting ground for the Cheyenne Indians. They believed that the wonderful health-giving powers of the air and the unusual medicinal value of the waters were the beneficent gifts of the "Great Spirit." Now, because of their beauty and natural resources, the Hills have both a summer and a winter clientele.

ON A RANCH

In the Buffalo Bill country, where there's tang in the air and the call of the wild is insistently audible, is suggested as THE place for your 1923 vacation, because it's "big medicine." Here, along the Cody Road to Yellowstone Park, artists and men of letters find inspiration for their best work; captains of business find relaxation and obtain untold benefit; women and children find ever-present opportunity for the quiet enjoyment of outdoor life decidedly to their liking. Send for folder—worth reading even if you fail to make the trip.

Table with columns for dates (e.g., 20, 21, 22, 23, 24, 25, 26) and times, likely representing a schedule for the ranch trip.

THE PIKE'S PEAK REGION presents a distinct surprise to the unacquainted visitor in that, lying as it does in a sheltered basin at the eastern edge of the Rocky Mountains at an altitude of about 6,000 feet, it's winter days are mild and bracing and relatively free from discomforts and extremes of cold and snow. Pleasant weather, just peppy enough to be genuinely enjoyable from January to January—is the rule rather than the exception in the Pike's Peak Region. That Colorado Springs is a health resort of the first water has been attested by patrons from every state in the union. The early faith of the Indians in the mineral springs at Manitou has been endorsed by modern science. Motoring and golfing are favorite winter pastimes. Hotel accommodations are ample. Those who feel below standard will find this region admirably fitted to their needs. A great variety of wonderful scenery and ample time in which to see it are recommended for a stop-over here for the transcontinental traveler.

THE WATERS

of the Big Horn Spring at Thermopolis, Wyoming, are as an antitoxin to many of the ills which beset the human race. The unusual efficacy of these waters commend them strongly for the cure of all blood and skin diseases, rheumatism and kidney complaints. Climatic conditions are favorable. Sufferers from the oppression and congesting effects of lower altitudes should take cognizance of the benefits to be derived from a season of rest and recuperation in the rejuvenating ozone of this region, and stop-off en route between the East and the Pacific Northwest by way of Denver.

For local service Oxford to Denver, see Table 1, pages 21 to 28.

UNCLE SAM INVITES THE NATION

To The American People:

With a lavish hand nature has moulded throughout our land the most magnificent and awe-inspiring scenery surpassing in beauty and grandeur that offered by any foreign country. These spots—our national parks—have been set aside by the American government to be maintained untouched by the inroads of modern civilization so that you and your children may enjoy them. Roads have been built through deep-cut canyons, across towering mountain ranges, beside rippling streams filled with fighting trout, and into primal forests. Hotels and camps have been erected to provide comfortable accommodations in the most distant and inaccessible places. Free camp grounds have been provided for those who wish to bring their own equipment and camp out. These unspoiled bits of native America are for you. They are the playgrounds and the recreation parks of the people. To visit them and see them is to inspire pride and make more real your love for America. In the name of the government I invite you to be its guest.

HUBERT WORK, Secretary of the Interior.

WHEN YOU ARE AWAY
 — Western Union day letters, day telegrams, night letters and night telegrams provide a prompt and inexpensive way of keeping in touch with home and business. Fifty-word night letters sent at the regular ten-word day message rate. Money promptly transferred by telegraph.

EXPRESS SERVICE
 on the Burlington is maintained by the American Railway Express Company, as a part of the unified, nation-wide system for the safe and rapid handling of express matter. A comprehensive system of through-car routes, special express trains, pick-up service and delivery and a trained force of 125,000 practical expressmen, scattered broadcast throughout the nation, are constantly at your service. Express money orders and travelers cheques—a most convenient way of sending or carrying money—are on sale at principal stations.

Burlington Dining Car Service

In addition to the a la carte service, at exceptionally moderate prices, club breakfasts (with a choice of combinations priced from 40c to \$1.00), a table d' hote luncheon for \$1.00 and a table d' hote dinner for \$1.25 are available to all patrons, on all dining cars.

The inviting hospitality and appealing superiority of this service is one of the outstanding satisfactions of Burlington patrons.

To enjoy an appetizing meal in one of the new standard all-steel, wall-papered diners is a genuine travel treat—an experience which gives you a brand new conception of the ease and comfort with which one can live on rails and wheels.

Those who realize how much such service contributes to the delights of travel, choose the Burlington, if for no other reason. Best of all—it costs no more to travel "Burlington"—between the East and the West.
