## GENERAL INSTRUCTIONS

The rules of the Transportation Department issued in book form, dated June 1st, 1922, will govern the rights of trains on this time table. Every employee whose duties are in any way prescribed by these rules must always have a copy of them at hand.

Note carefully that important changes have been made.

The officers of this Company direct that the time table, book of rules, general orders and general notices must be rigidly observed, and the claim of customary practice at variance therewith will not be accepted as an excuse for violation.

Eastward trains are superior to westward trains of the same class, in accordance with Rule S-72.

Trainmasters must require acknowledgment from every conductor and engineman of the receipt of a new time table before they are permitted to start out on their run with any train or engine after it has taken effect.

A train must not leave its initial station on any district, or other stations prescribed by special instructions, without receiving clearance card of proper form. If train dispatcher cannot be reached, the operator may issue clearance card, when no orders. Following are initial stations under this rule: St. Louis, Luther, Moberly, Outer Depot, Moulton, C. B. & O. Station Albia, Tracy when operator on duty, Des Moines, Brunswick, North Kansas City, Kansas City, Stanberry and East Switch.

### YARD LIMIT RULES S-93 AND D-93 (Revised)

Yard limits are designated by "Yard Limit" boards and under special instructions in time table.

Within yard limits the main track may be used protecting against first class trains. Second and third class and extra trains, including passenger extras, engines or motors, must move within yard limits prepared to stop unless the main track is seen or known to be clear.

First class trains running against the current of traffic on double track must move within yard limits prepared to stop unless the main track is seen or known to be clear.

### NOTES TO RULES S-93 AND D-93

Interpretation placed on "seen or known to be clear" is that trains, engines or motors affected will be operated within yard limits to stop within range of vision.

### SPEED OF TRAINS

**All trains must run at reduced speed whenever regulations or safety require.**

**All trains will reduce speed around sharp curves.**

#### Following is Maximum Speed of Trains Passenger Trains

##### 12th District

50 miles an hour, or 1 mile in 1 minute 12 seconds.

40 miles an hour, or 1 mile in 1 minute 30 seconds with engines equipped with single engine trucks.

##### 14th District

75 miles an hour, or 1 mile in 48 seconds, 110-112 pound rail, tangent track.

70 miles an hour, or 1 mile in 51 seconds, 90 pound rail, tangent track.  
60 miles an hour, or 1 mile in 1 minute with Class M-1 or O-1 engines.  
50 miles an hour, or 1 mile in 1 minute 12 seconds with engines equipped with single engine trucks.

##### 15th & 16th Districts

50 miles an hour, or 1 mile in 1 minute 12 seconds.

40 miles an hour, or 1 mile in 1 minute 30 seconds with engines equipped with single engine trucks.

##### 17th District

75 miles an hour, or 1 mile in 48 seconds, 110-112 pound rail, tangent track.

70 miles an hour, or 1 mile in 51 seconds, 90 pound rail, tangent track.  
60 miles an hour, or 1 mile in 1 minute with Class M-1 or O-1 engines.  
50 miles an hour, or 1 mile in 1 minute 12 seconds with engines equipped with single engine trucks.

##### 18th District

50 miles an hour, or 1 mile in 1 minute 12 seconds.

40 miles an hour, or 1 mile in 1 minute 30 seconds with engines equipped with single engine trucks.

##### 19th District

45 miles an hour, or 1 mile in 1 minute 20 seconds.

35 miles an hour, or 1 mile in 1 minute 42 seconds with engines equipped with single engine trucks.

##### All Districts

Passenger trains handling freight cars will be governed same as Red Ball Freight Trains.

Moberly Division (20)

## RED BALL FREIGHT, LOCAL, LIVE STOCK AND MIXED TRAINS OR LIGHT ENGINES AND TRAINS

### 12th District

40 miles an hour, or 1 mile in 1 minute 30 seconds.

### 14th District

50 miles an hour, or 1 mile in 1 minute 12 seconds.

### 15th & 16th Districts

40 miles an hour, or 1 mile in 1 minute 30 seconds.

### 17th District

50 miles an hour, or 1 mile in 1 minute 12 seconds.

### 18th District

40 miles an hour, or 1 mile in 1 minute 30 seconds.

### 19th District

35 miles an hour, or 1 mile in 1 minute 42 seconds.

## DEAD FREIGHT TRAINS

### All Districts

30 miles an hour, or 1 mile in 2 minutes.

Freight engines running backward (except when regularly equipped for back-up service) will not exceed 25 miles an hour.

Switch engines will not exceed 20 miles an hour.

### Branch Trains

On the Columbia Branch, passenger trains will not exceed 35 miles an hour, mixed trains 30 miles an hour and freight trains 25 miles an hour.

On the Ottumwa Branch, passenger trains will not exceed 30 miles an hour, mixed and freight trains 25 miles an hour.

On the Glasgow Branch, passenger and mixed trains will not exceed 30 miles an hour, freight trains 25 miles an hour.

Engines backing up (equipped for back-up service or not) will not exceed 20 miles an hour on all branches.

## ENGINES HANDLED IN TRAINS

Engines must not be handled in trains without side rods in position, except under special instructions in each case.

Wabash switch engines hauled in trains must be moved backward.

The speed of trains hauling dead engines will not exceed 20 miles an hour.

## WORK EQUIPMENT HANDLED IN TRAINS

Speed of trains handling following work equipment will not exceed 25 miles an hour:

Pile driver.

American ditcher.

Rail unloader.

Jordan spreader ditcher.

Scale test car.

Cranes, wrecking or traveling.

Steam shovel and other similar equipment.

Work equipment must be placed in trains next ahead of caboose.

Note: These instructions do not apply to wrecking derricks when they are handled in wreck train service.

## SPEED OF DISCONNECTED ENGINES

Engines, under steam, disconnected on one side, with only main rod taken down, will not exceed 35 miles an hour.

## SPECIAL INSTRUCTIONS

### 12th District

Clocks indicating standard time are located in telegraph offices at Moberly passenger station, Moberly yard office, Moberly round house Outer Depot and Hannibal Round House.

Trains between Outer Depot, and Union Depot, Hannibal, will be governed by Decatur Division time table and special instructions.

Conductors will register at Moberly passenger station, Moberly yard office and Outer Depot.

First class trains will register at Moberly passenger station. All other trains will register at yard office. All trains will examine register at Moberly passenger station unless given clearance by train dispatcher.

At Outer Depot first class trains will register by throwing off O. S. slip to operator.

All trains will not exceed 15 miles an hour through main track turnouts.

Passenger trains will not exceed 25 miles an hour, freight trains 20 miles an hour, between mile posts 32 and 34 between Clapper and Stoutsville and around curve at mile post 36 west of Stoutsville water tank.

**Yard limits at Moberly and Outer Depot are designated by "Yard Limit" boards.**

#### 14th District and St. Louis Terminal

Clocks indicating standard time are located in telegraph offices at Moberly passenger station, Moberly yard office, Moberly round house, St. Louis Union Station, Vandeventer yard office, Ferguson and Luther.

The line between Page Avenue Jct. and Grand Avenue, will be operated as double track in accordance with the rules.

Trains and engines will be governed by the Terminal Railroad Association rules east of Grand Ave. and elsewhere, while operating over their tracks.

On double track between Grand Avenue and Page Avenue Jct., extra trains will move with current of traffic without train orders.

All train and enginemen will be under the supervision of the Superintendent of Terminals between Robertson and St. Louis.

Conductors will register at St. Louis Union Station, Page Avenue Jct., Ferguson, Luther, Moberly passenger station and Moberly yard office. At Page Avenue Jct., all trains will register by throwing off O. S. slip to operator. All westward trains affected will examine register, unless given clearance by train dispatcher.

At Ferguson, all through trains will register by throwing off O. S. slip to operator. All trains affected will examine the register, unless given clearance by train dispatcher.

First class trains will register at Moberly passenger station. All other trains will register at yard office. All trains will examine register at Moberly passenger station unless given clearance by train dispatcher.

Conductors on Columbia Branch will register at Columbia and Centralia.

All eastward trains will not exceed twenty (20) miles an hour between home signals at interlocking plant M.-K. & T. Ry. crossing Moberly, moving on main or auxiliary tracks.

All trains will not exceed 10 miles an hour passing through interlocking limits at Grand Avenue.

Eastward trains not scheduled to stop at Vandeventer will not exceed 15 miles an hour passing station.

All trains will not exceed 15 miles an hour through main track turnouts except Moberly Division trains will not exceed 25 miles an hour through No. 20 turnout end of double track Page Ave. Jct. and all trains from and to West Belt will not exceed 15 miles an hour through turnouts Page Ave. Jct.

Trains not stopping at Ferguson will not exceed 50 miles an hour passing the station.

Operation over North Main track between Kinloch Park and west end of passing track located 1800 feet west of Ferguson Station will be permitted only as authorized by train order.

**All trains will not exceed 30 miles an hour over Missouri River Bridge No. 59 and approaches at St. Charles.**

Passenger trains will not exceed 50 miles an hour and freight trains 40 miles an hour around curve west end of Perruque Bridge two miles east of Gilmore.

Passenger trains will not exceed 60 miles an hour and freight trains 40 miles an hour between Mile Post 107.5 located 2.5 miles east of Mexico and Mile Post 111.6 located 1.4 miles west of Mexico.

**Yard limits at Moberly, Centralia, Columbia, Mexico, St. Charles, Ferguson, Jennings—Luther, Page Ave. Jct.,—Delmar and Vandeventer are designated by "Yard Limit" boards**

Eastward yard limit boards governing Delmar Switching District are located 1.5 miles west of Page Avenue Junction on U. D. Line and 300 feet west of Page Avenue Junction on Terminal West Belt and westward yard limit boards located 200 feet east of Delmar Avenue.

Eastward yard limit board governing Vandeventer switching district is located 150 feet west of Forest Park tunnel.

Westward yard limit boards at 23rd Street and Grand Avenue interlocking tower.

Yard limit board governing Baden and Luther located 800 feet west of Jennings Station.

Same limits to apply when moving against current of traffic.

#### 15th District

Clocks indicating standard time are located in telegraph offices at Moberly passenger station, Moberly yard office, Moberly round house and Moulton.

Conductors will register at Moberly passenger station, Moberly yard office and Moulton.

At Moulton, first class trains will register by throwing off O. S. slip to operator.

At Moberly first class trains will register at passenger station. All other trains will register at yard office. All trains will examine register at passenger station unless given clearance by train dispatcher.

All trains will not exceed 10 miles an hour through main track turnouts.

**Yard limits at Moberly, Kirksville and Moulton are designated by "Yard Limit" boards.**

#### 16th District

Clocks indicating standard time are located in telegraph offices at Moulton, Ottumwa and Des Moines.

Trains will be governed by the time table and rules of the Des Moines Union Ry. between Chesterfield and Des Moines and by the time table and rules of the M. & St. L. R. R. while on their tracks at Albia.

Conductors will call at the telegraph office Union Station, Des Moines, for orders.

C. B. & Q. trains will be governed by the time table and rules of the Wabash Ry. between Bloomfield Junction and Moulton Junction and between Albia and Tracy.

At Belknap, Moravia and Tracy interlocking plants all trains will not exceed twenty (20) miles an hour between home signals.

At Albia, C. B. & Q. interlocking plant, all trains will not exceed fifteen (15) miles an hour between home signals.

No train order signal at Tracy and C. B. & Q. station at Albia.

Conductors will register at Moulton, C. B. & Q. station at Albia, Tracy, Des Moines, Bloomfield Jct., and Ottumwa.

At Moulton, Wabash first class trains will register by throwing off O. S. slip to operator.

At Albia all Wabash trains will register, C. B. & Q. station by throwing off O. S. slip to Operator. All trains affected will examine register unless given clearance by train dispatcher.

At Tracy all trains will register by throwing off O. S. slip to Operator, except when no Operator on duty, conductors will register on train register maintained in waiting room of station. All trains affected will examine register unless given clearance by train dispatcher.

The register at Bloomfield Junction will be maintained in a box locked with switch locks.

All trains will not exceed 10 miles an hour through main track turnouts.

All trains will not exceed 15 miles an hour around curve at C. B. & Q. Junction Albia, ten miles an hour around curve between D. street, Albia and Bridge 0.24. Ten miles an hour over Highway Crossing mile post 0.5.

Passenger trains will not exceed 40 miles an hour and Wabash trains with class K-2 or larger engines will not exceed 30 miles an hour between C. B. & Q. Mile Post 0.5, located 0.5 miles west of Albia and C. B. & Q. Mile Post 10.75 located 0.76 mile east of Hamilton.

It will be permissible to operate C. B. & Q. Class O-3 engines over joint track between Albia, Iowa, and Tracy, Iowa, at a speed not to exceed thirty (30) miles an hour.

Engines with or without cars will not exceed 15 miles an hour on Tracy mine lead except that 10 miles an hour must not be exceeded around first curve west of C. B. & Q. main track switch.

All trains will not exceed 15 miles an hour between Mile Post 319.2 and Mile Post 319.5 two miles west of Percy.

**Yard limits at Moulton, Ottumwa, Albia-M.&St.L.-C.B.&Q., Tracy, Harvey water tank and McCoy are designated by "Yard Limit" boards.**

#### 17th District

Clocks indicating standard time are located in telegraph offices at Moberly passenger station, Moberly yard office, Moberly round house, North Kansas City yard office and Kansas City Union Station.

The line between Moberly and Huntsville, Salisbury and Brunswick, Birmingham and Birmingham Junction, will be operated as double track in accordance with the rules.

Conductors will register at Moberly passenger station, Moberly yard office, Huntsville, Salisbury, Glasgow, Brunswick, Carrollton Junction, Camden Junction, Birmingham, North Kansas City and Kansas City Union Station.

First class trains will register at Moberly passenger station and will register at Moberly yard office by throwing off O. S. slip to operator. All other trains will register at yard office.

At Huntsville, all trains will register by throwing off O. S. slip to operator. All westward trains affected will examine register unless given clearance by train dispatcher.

At Salisbury, all trains will register by throwing off O. S. slip to operator. All eastward trains affected will examine register unless given clearance by train dispatcher.

At Brunswick all trains will register by throwing off O. S. slip to operator. All trains affected will examine register unless given clearance by train dispatcher.

At Carrollton Junction, all trains will register by throwing off O. S. slip to operator. All eastward trains affected will examine register unless given clearance by train dispatcher.

At Camden Junction, all trains will register by throwing off O. S. slip to operator. All westward trains affected will examine register unless given clearance by train dispatcher.

At Birmingham Jct., all trains will register by throwing off O. S. slip to operator at Birmingham. All eastward trains affected will examine register unless given clearance by train dispatcher.

At Kansas City, conductors on first class trains call at Union Station for orders. Conductors on other trains call at yard office North Kansas City for orders.

Trains and engines will be governed by the joint time table and rules of the C. B. & Q. R. R. and the Wabash Ry. between Birmingham and St. Louis Ave. Tower, Kansas City.

Trains and engines will be governed by Kansas City Terminal time table and rules between St. Louis Avenue Tower and Union Station.

All trains using turnout at end of double track at Huntsville will not exceed 50 miles an hour in either direction on either track.

All trains using turnouts at end of double track at Salisbury, Brunswick and Birmingham Junction will not exceed 25 miles an hour and 15 miles an hour through all other main track turnouts and cross overs.

All Eastward trains will not exceed 50 miles an hour through spring switch at end of double track at Birmingham Junction.

#### Yard Limits at Moberly and Brunswick are designated by "Yard Limit" boards

##### 18th District

Clock indicating standard time is located in telegraph office at Stanberry.

Conductors will register at Brunswick and Stanberry.

At Brunswick, all trains will register by throwing off O. S. slip to operator when given clearance by train dispatcher. All trains affected will examine register unless given clearance by train dispatcher.

All trains will not exceed 10 miles an hour through main track turnouts except 20 miles an hour through No. 15 turnout Junction 18th district Brunswick.

All trains will not exceed 10 miles an hour while engine is on span of bridge 969, located 1.5 miles west of Evona.

It will not be permissible to run engines of any class coupled over span of bridge 969 located 1.5 miles west of Evona.

All trains must pass distant signals at Gallatin interlocking plant at such a speed that train can be brought to a stop before reaching home signal.

Eastward passenger trains will not exceed 40 miles an hour and eastward freight trains 30 miles an hour between Mile Post 267.75, located 1.1 miles west of Pattonsburg, and Mile Post 271.5, located 4.85 miles west of Pattonsburg.

All eastward trains must pass distant signal at Chillicothe interlocking plant at such a speed that train can be brought to a stop before reaching home signal.

Yard limits at Brunswick, Chillicothe and Stanberry are designated by "Yard Limit" boards.

##### 19th District

Clocks indicating standard time are located in telegraph offices at Stanberry, East Switch and Omaha Union Station.

Conductors will register at Stanberry and East Switch.

At East Switch, all first class trains will register by throwing off O. S. slip to operator.

Between U. P. transfer (Council Bluffs) and Omaha Union Station, each member of train and engine crews must have a copy of and be governed by Union Pacific Rules, Bridge Subdivision Special Rules, and Bridge Subdivision time-table.

All engines will not exceed 6 miles an hour around curves just east of C. M. St. P. & P. cross over 17th Street, Council Bluffs.

All trains proceed with caution between East Switch and junction switch of Wabash with C. M. St. P. & P., one-third mile east of Union Pacific Transfer, expecting to find main track occupied.

All trains will not exceed 10 miles an hour through main track turnouts.

Track located 1400 feet west of train order signal at Conception and formerly used for interchange purposes will be used as a siding. When necessary to back in on siding, trains must first be protected as per rule 99.

Yard limits at Stanberry, Shenandoah and East Switch are designated by "Yard Limit" boards.

## RAILROAD CROSSINGS AND JUNCTIONS

### 14th District

Grand Avenue—governed by semaphores of interlocking system.  
Page Avenue Junction—west end of double track, governed by semaphores of interlocking system.  
Ferguson—Junction, Luther Line.  
Mexico—Alton R. R. Signal Indication.  
Centralia—Junction, Columbia Branch.  
Clark—Alton R. R. Signal Indication.  
Moberly—M.-K.-T. R. R. Signal Indication.

### 15th District

Kirksville—Q. O. & K. C. R. R. No target. STOP.  
C. B. & Q. R. R., 2 miles west of Glenwood Junction. No target. STOP.  
Moulton—C. B. & Q. R. R. No target. STOP.

### 16th District

Moulton—C. B. & Q. R. R. No target. STOP.  
Moulton Junction—C. B. & Q. R. R.  
Bloomfield Junction—C. B. & Q. R. R.  
Belknap—C. R. I. & P. Ry. Governed by semaphores of interlocking system.  
Moravia—C. M. St. P. & P. R. R. 0.5 miles east. Signal Indication.  
Albia—M. & St. L. R. R. No target. STOP.  
Albia—C. B. & Q. R. R. 0.8 mile west. Signal Indication.  
Tracy—C. B. & Q. R. R., M. & St. L. R. R., Signal Indication.

### 17th District

Huntsville—End of double track.  
Governed by Signal Indication.  
Salisbury—End of double track. Junction Glasgow Branch.  
Governed by Signal Indication and target of hand throw switch located 488 feet east of depot platform.  
Brunswick—End of double track. 18th District Junction.  
Governed by hand throw switch located at west end depot platform and signal indication.  
Carrollton Junction—Junction A. T. & S. F. Ry. End of double track.  
Governed by semaphores of interlocking system.  
Camden Junction—Junction A. T. & S. F. Ry. End of double track.  
Governed by semaphores of interlocking system.  
Birmingham—Junction, C. B. & Q. R. R., and C. R. I. & P. Ry. Governed by semaphores of interlocking system.  
Birmingham Junction—1.5 miles east of Birmingham. End of double track. Governed by automatic signals.

### 18th District

Sumner—C. B. & Q. R. R. No target. STOP.  
Chillicothe—C. B. & Q. R. R. 0.5 mile east. Signal Indication.  
Lock Springs—C. R. I. & P. Ry. 1.5 miles west. Signal Indication.  
Gallatin—C. R. I. & P. Ry. Signal Indication.  
Darlington—C. B. & Q. R. R. No target. STOP.

### 19th District

Burlington Junction—C. B. & Q. R. R. No target. STOP.  
Shenandoah—C. B. & Q. R. R. 0.2 mile west. No target. STOP.  
White Cloud—C. B. & Q. R. R. 0.1 mile west. No target. STOP.  
East Switch—C. B. & Q. R. R. 0.2 mile west. Signal Indication.  
Council Bluffs—15th Street—C. & N. W. Ry. No target. STOP.  
Council Bluffs—16th Street—Junction C. M. St. P. & P. R. R.

## STATIONS AND SIDINGS NOT SHOWN ON TIME TABLE

### 14th District

Ben Avis 0.6 miles west of Jennings. Team track connected at east end, capacity 5 cars.  
Buck-X-Ograph track connected west end, capacity 17 cars, K-1-2 engines not to be used beyond point 212 feet from main track switch.  
Emerson Spur 1.5 miles east of Ferguson on Luther line, connected at west end, capacity 8 cars.  
Gardnerville 3.0 miles west of St. Charles. Team track connected at east end, capacity 9 cars.  
Westward siding Wellsville extended 2270 feet, connected both ends, used only for storage purposes, capacity 41 cars.  
Wellsville Fire Brick Co. 1.2 miles west of Wellsville, connected west end, capacity 55 cars.  
Moore's Switch, 1.1 miles east of Columbia, connected west end, capacity 7 cars.  
Shell, 1.9 miles east of Columbia, connected west end, capacity 4 cars.  
Auxiliary Track extends from Moberly to point 1.7 miles east of Moberly, connected both ends, capacity 154 cars.

### 15th District

Hildreth, 1 mile east of Macon, connected west end, capacity 5 cars.  
Sinclair Oil Co., 1.1 miles west of La Plata, connected west end, capacity 2 cars.

# STATIONS AND SIDINGS NOT SHOWN ON TIME TABLE

## 16th District

Spur Track, 0.3 miles east C. B. & Q. station Lovilia connected east end, capacity 45 cars. House track connected both ends spur track capacity 11 cars.

Pershing Coal Co., 0.5 mile west of Tracy connected west end, capacity 642 cars.

Coal Junction, 1.4 miles east of McCoy connected west end, capacity 2 cars.

Iowa Power & Light Co., connected east end of McCoy siding, capacity 145 cars.

Lake Shore Tire & Rubber Co., 1.7 miles west of McCoy connected east end, capacity 4 cars.

## 17th District

Sinclair Coal Co.-Mark Twain Siding, 4.6 miles west of Moberly, westward track, connected both ends, capacity 106 cars.

Potato Spur, 1 mile east of Camden on Wabash Line, connected east end, capacity 9 cars.

Atwood Quarry, 1.4 miles east South Liberty connected east end, capacity 31 cars.

## 18th District

Magill, 2.7 miles west of Carlow connected east end, capacity 23 cars.

Gravel Pit Spur, 1.8 miles east of Sampsel connected east end, capacity 94 cars.

Gravel Pit Sidings, 1.8 miles east of Sampsel connected both ends, 2 tracks, total capacity 35 cars.

## RULES GOVERNING OPERATION OF THE JOINT TRACKS OF THE A. T. & S. F. RY. CO. AND WABASH RAILWAY CO.

1. The tracks of the A. T. & S. F. Railway Co., and the Wabash Railway Co., between Carrollton Jct., and Hardin, and the A. T. & S. F. Railway Co., tracks between Hardin and Camden Jct., will be operated as double track governed by the following A. T. & S. F. rules and regulations.

Trains have no time table superiority between Carrollton Jct., and Camden Jct.

2. Double track between Carrollton Jct., and Camden Jct., trains must keep to the right unless otherwise directed. On double track, trains will run with current of traffic by block signals, whose indications will supersede time table superiority.

When necessary to run trains against the current of traffic movement must be controlled by train orders.

Except as affected by these rules, all block signal and train rules remain in force.

The movement of trains will be supervised by A. T. & S. F. Train Dispatcher who will issue instructions to signalmen when required.

Trains having work to do, or encountering unusual delay, which may detain them must notify the Train Dispatcher.

3. Trains carrying classification signals will continue same over joint track.

4. Westward trains register by throwing off O. S. slip at Carrollton Jct., and eastward trains at Camden Jct.

5. THE WABASH MAIN TRACK BETWEEN HARDIN AND CAMDEN JCT., WILL BE USED AS AN AUXILIARY TRACK. THE OPERATION THEREON WILL BE GOVERNED BY TRAIN ORDERS. SPEED LIMIT FORTY MILES AN HOUR. MANUAL BLOCK BETWEEN CAMDEN JCT., AND HARDIN. YARD LIMITS ON THIS TRACK AT HARDIN AND HENRIETTA.

6. At Henrietta a train taking siding where separate signals for trains to leave siding are not provided, will secure clearance card before again occupying main track.

7. Standard interlocking plants at Carrollton Jct., Hardin and Camden Jct.

At an interlocking station, the home interlocking signal may be used as a train order signal, a red flag by day or a red light by night so placed at the interlocking station that it can be seen from the approaching train will indicate to enginemen and trainmen that there are train orders.

The engineman will acknowledge the display of signals as above indicated by two short blasts of the whistle.

The signalman will then display the interlocking signal in the proper proceed indication and the train may then proceed to the interlocking station, but not beyond, and there be released by clearance card, Form 902.

When an interlocking plant is out of order and the signals cannot be operated and the operator or towerman desires a train or engine to move through the plant, this permission may be given verbally or by proceed signal with yellow flag or yellow light, but in such cases some member of crew must precede train or engine and flag over each interlocked switch, derail and railroad crossing protected by such signals.

8. A train finding a fusee burning on or near its track must stop and wait until it has burned out before proceeding.

9. The explosion of two torpedoes is a signal to proceed at restricted speed for a distance of one mile, the explosion of one torpedo will indicate the same as two, but the use of two is required.

10. A yellow flag, yellow disc lettered "Slow," or a yellow light will be placed at least one mile in advance of where reduced speed applies on temporary reduced speed locations, at the end of which a green flag, green disc or green light will be placed, which rear of train will pass before speed shall be increased. Reduced speed limit shall be fifteen miles an hour unless otherwise specified by train order or bulletin.

A yellow board, with black numerals on the track side to indicate the speed limit for passenger trains and on the field side to indicate the speed limit for freight trains, will be placed at least 2500 feet in advance of where reduced speed applies on permanent reduced speed locations, at the end of which a green board will be placed which rear of train will pass before speed of train will be increased. There may be more than one yellow board in advance of green board, in which case the reduced speed limits shown on each yellow board shall be observed in succession until a green board is passed.

11. A.T.&S.F. trains will use marker lamps with red and yellow lenses.

12. All stations are offices of communication, except Palemon, at which point booth telephone is located.

### SPRING SWITCHES

When movement is made over a spring switch, movement must be continuous until switch is cleared. If necessary to make a back-up movement against the points of switch before clearing same, the switch must first be lined by hand.

Trains or engines moving against or springing points when trailing through the following spring switches must not exceed a speed of twenty-five miles an hour, except where further restricted.

#### Location of Spring Switches

Henrietta—East end eastward siding.

West end long storage track west of station.

West end westward siding, speed limit fifteen miles an hour.

Switches are interlocked by remote control and handled by operator at following locations:

Henrietta—West switch of eastward siding and east switch of westward siding, and east switch of long storage track west of station.

Telephone connected with office of communication is located at each of these switches.

Trains finding home signal in stop position get in touch with operator by telephone and be governed by his instructions. Should telephone be out of order, examine switch, spike in position found and proceed if this can be done without damage to switch.

### THE MAXIMUM SPEED OF TRAINS IS AS INDICATED BELOW

	Passenger		Freight	
	Mi. an Hr.	Time Per Mile Min. Sec.	Mi. an Hr.	Time Per Mile Min. Sec.
Except where further restricted.....	75	0 48	50	1 12
On Curves between M. P. 416.7 and Camden Jct.....	60	1 00	50	1 12
Curve M.P. 411.4 to 411.3, eastward...	60	1 00	50	1 12
Two Curves M.P. 404.8 to 404.2, eastward.....	55	1 05	50	1 12
Between Camden Jct., and Hardin, Wabash Auxiliary Track.....	40	1 30	40	1 30
Camden Jct.: Through turnouts and crossovers between A.T.& S.F. and Wabash tracks, and through crossover between A.T.& S.F. tracks....	25	2 24	20	3 00
Henrietta:				
Turnout—West end eastward siding	30	2 00	20	3 00
Turnout—East end westward siding	30	2 00	20	3 00
Turnout—East end long storage track west of station.....	30	2 00	20	3 00
Hardin:				
Turnout from eastward A.T.& S.F. track to auxiliary track.....	30	2 00	20	3 00
Crossover from westward A.T.& S.F. track to auxiliary track.....	15	4 00	15	4 00
Carrollton Jct.:				
Through turnouts and crossovers between A.T. & S.F. and Wabash tracks.....	25	2 24	20	3 00
Through all crossovers and turnouts not otherwise specified.....	10	6 00	10	6 00

Trains moving against current of traffic on double track will reduce speed around curves to forty-five miles an hour or one mile in 1 minute and 20 seconds, and will move in yard limits at restricted speed.

LIST OF THROUGH TRUSS AND OTHER NON-CLEARANCE BRIDGES AND STRUCTURES

Inasmuch as these structures will not clear a man on top of cars, or on side of cars and engines, employees are forbidden to stand on top of, or ride on side ladders of cars, or to hang or lean out from sides of cabooses or engines when approaching or passing through these bridges and structures.

Conductors must not, under any circumstances, attempt to handle cars through these bridges, the lading of which is in excess of clearance indicated.

Attention is directed to the fact that the bridges enumerated cover non-clearance bridges only; numerous other bridges and non-clearance points are covered by special notices or signs with which employees are directed to familiarize themselves. Employees are forbidden to stand on top of, or ride on side ladders of cars, or to hang or lean out from sides of cabooses or engines when approaching or passing non-clearance points.
