L. C. Feemster.....	Tupelo, Miss.
C. C. Pyle.....	Saltillo, Miss.
M. B. Rhodes.....	Guntown, Miss.
R. B. Caldwell.....	Baldwyn, Miss.
W. H. Sutherland.....	Booneville, Miss.
W. H. Anderson.....	Booneville, Miss.
G. W. Googe.....	Rienzi, Miss.
C. W. Norwood.....	Corinth, Miss.
Frank M. Davis.....	Corinth, Miss.
Jesse T. Davis.....	Corinth, Miss.
C. W. Norwood, Jr., Dental Surgeon.....	Corinth, Miss.
D. W. Hamrick (E. E. N. & T. Specialist).....	Corinth, Miss.
W. A. Johns (E. E. N. & T. Specialist).....	Corinth, Miss.
M. C. Key.....	Ramer, Tenn.
J. R. Smith.....	Selmer, Tenn.
E. M. Smith.....	Bethel Springs, Tenn.
H. T. Pitts.....	Henderson, Tenn.
W. O. Baird.....	Henderson, Tenn.
Hunter L. Steadman.....	Henderson, Tenn.
W. G. Saunders.....	Jackson, Tenn.
J. R. Thompson.....	Jackson, Tenn.
Geo. D. Hubbard.....	Jackson, Tenn.
W. T. Fitts.....	Jackson, Tenn.
Jerry L. Crook.....	Jackson, Tenn.
R. D. Poindexter, Dental Surgeon.....	Jackson, Tenn.
S. M. Herron (E. E. N. & T. Specialist).....	Jackson, Tenn.
G. H. Berryhill (E. E. N. & T. Specialist).....	Jackson, Tenn.
G. W. Penn.....	Humboldt, Tenn.
Geo. E. Spangler.....	Humboldt, Tenn.
W. C. McRee.....	Trenton, Tenn.
Dr. Thos. V. Banks.....	Trenton, Tenn.
R. L. Newman, Sr.....	Dyer, Tenn.
F. Douglass.....	Dyer, Tenn.
A. H. Gray.....	Kenton, Tenn.
M. A. Blanton, Sr.....	Union City, Tenn.
M. A. Blanton, Jr.....	Union City, Tenn.
E. W. Howell.....	Oakton, Ky.
F. H. Russell.....	Wickliffe, Ky.
George W. Payne.....	Bardwell, Ky.
Flint Bondurant.....	Cairo, Ill.
J. J. Rendleman.....	Cairo, Ill.
B. S. Hutcheson.....	Cairo, Ill.
J. K. Rossen.....	Tamms, Ill.
Earnest Radcliffe.....	Jonesboro, Ill.
H. H. Roth (E. E. N. & T. Specialist).....	Murphysboro, Ill.
R. S. Sabine.....	Murphysboro, Ill.
C. E. Riesling.....	Murphysboro, Ill.
J. A. Weatherly.....	Murphysboro, Ill.
R. E. Busery.....	Ava, Ill.
H. F. Busse.....	Campbell Hill, Ill.
C. O. Boynton.....	Sparta, Ill.
J. T. Reiss.....	Red Bud, Ill.
J. A. Werth.....	Waterloo, Ill.
E. T. Lark.....	Columbia, Ill.
E. C. Spitze (Ophthalmologist).....	E. St. Louis, Ill.
Walter Wilhelmj.....	E. St. Louis, Ill.
V. P. Siegel.....	E. St. Louis, Ill.
J. T. Murphy, Dental Surgeon.....	E. St. Louis, Ill.
James Andrew.....	Cordova, Ala.
B. S. Lester.....	Birmingham, Ala.
R. C. Woodson (Ophthalmologist).....	Birmingham, Ala.
J. O. Gordon.....	Memphis, Tenn.
J. E. Cox.....	Memphis, Tenn.
H. E. Middlecoff, Dental Surgeon.....	Memphis, Tenn.
C. D. Blassingame (E. E. N. & T. Specialist).....	Memphis, Tenn.
P. M. Lewis, Oculist.....	Memphis, Tenn.

The Names and Locations of Veterinarians

Charles Wright.....	Local Veterinarian.....	Jackson, Tenn.
W. L. Stroup.....	Local Veterinarian.....	Corinth, Miss.
J. T. Alston.....	Local Veterinarian.....	Tupelo, Miss.
K. U. Jones.....	Local Veterinarian.....	Birmingham, Ala.

The Names and Locations of Watch Inspectors

R. P. Wiggins.....	St. Louis, Mo.
Zerweck Jewelry Co.....	East St. Louis, Ill.
Miss Ethel Smith.....	Murphysboro, Ill.

ALL NORTH-BOUND trains are SUPERIOR to trains of the SAME CLASS in the OPPOSITE direction.

SPECIAL INSTRUCTIONS

NORTHERN DIVISION

No. 1. All trains between St. Louis Union Station and East St. Louis will be governed by the rules of the Terminal Railroad Association and Union Depot Company.

All northbound trains before proceeding to Relay Depot over Conologue track must call up "Q" tower by telephone and obtain authority.

I&N trains using G. M. & O. tracks at Humboldt will be governed by G. M. & O. rules and regulations.

S. L. S. F. trains using G. M. & O. tracks at Tupelo will be governed by G. M. & O. rules and regulations.

No. 2. CONDITIONAL STOPS:

Nos. 1 and 2 will stop on signal at Houston, Campbell Hill, Pomona, Elco, Cache, Wickliffe, Moscow and Crockett.

Nos. 15 and 16 will stop at Jonesboro to discharge or pick up passengers from and to St. Louis, and beyond.

No. 15 will stop at Henderson to discharge passengers from St. Louis and beyond.

On instructions No. 16 will stop at Henderson to pick up passengers for St. Louis and beyond.

Nos. 11 and 12 will stop on signal at Thrashers, Verona, Shannon and Chickasaw.

No. 3. TRAIN REGISTERS:

Tolson	Iselin
Tamms	Perry
North Cairo	Ruslor
Winford	Corinth
Jackson	Okolona

First class trains only will register at Jackson.

All trains will register at North Cairo, Winford, Perry and Ruslor, and first class trains at Tolson, Tamms and Iselin, by giving the operator at those points Form 9 properly filled out, and the operator will personally make entry in the register.

No. 4. RAILROAD CROSSINGS:

Interlocked:		Maximum Speed	
		Passenger	Freight
A. & S.	—Mile 642	35 MPH	25 MPH
M. P.	—Bixby	45 MPH	35 MPH
I. C.	—Mile 555	25 MPH	25 MPH
M. P.	—Percy	35 MPH	25 MPH
M. P.	—Between Mile Posts L-1 and L-2.	35 MPH	25 MPH
I. C.	—Rives	20 MPH	20 MPH

Non-Operative approach signals:

C. & E. I.	—Tamms	20 MPH	20 MPH
I. C.	—Jackson	20 MPH	20 MPH
I. C.	—Winford and North Cairo, —crossover—end of double track.	20 MPH	20 MPH

Not Interlocked:

Terminal R. R.	—E. St. Louis
I. C.	—E. St. Louis
Wiggins Ferry	—E. St. Louis
Southern	—E. St. Louis
Missouri-Illinois	—Sparta
N. Y. C.	—Between Mile Posts L-3 and L-4.
L. & N.	—Humboldt
Southern	—Corinth
S. L. S. F.	—Tupelo

Gates:

N. C. & St. L.—Union City

Maximum speeds prescribed must not be exceeded through interlocking limits (that is, between home signals), and do not relieve enginemen from complying with Rule 93 and special instructions.

All trains approaching Davis, southbound, unless otherwise restricted, will reduce speed as follows:

Passenger Trains 35 Miles Per Hour
Freight Trains 25 Miles Per Hour

No. 5. WATER STATIONS:

Tolson	Humboldt
Waterloo	Iselin
Murphysboro	Bethel Springs
Tamms	Corinth
Cairo	Wheeler's
Laketon	Tupelo
Union City	Okolona
Rutherford	

Engines of freight trains double heading will be detached when taking water at all water stations.

No. 6. COALING STATIONS:

Tolson	Union City
Baldwin	Iselin
Tamms	Okolona

No. 7. YARDS:

E. St. Louis-Tolson	Rives
Percy	Humboldt
Murphysboro	Jackson-Iselin
Tamms	Ruslor-Corinth
Davis-Cairo	Tupelo
Union City	Okolona

All first class trains must move prepared to stop within the following specified limits, which are designated by triangular SI-7 boards:

Between I. C. Crossing East St. Louis and Tolson Yard office;

Between south yard lead and passenger station at Tamms;

Between I. C. Crossing and Lexington St. at Jackson.

Within the limits specified above, the main track may be used without protecting against first class trains, except that trains or engines occupying the main track therein must protect against first-class trains during fogs, storms or other unfavorable conditions.

No. 8. BULLETIN BOARDS:

St. Louis Union Station	Jackson
Tolson Yard Office	Iselin Yard Office
Tolson Round House	Iselin Round House
Tamms Yard Office	Corinth
North Cairo opr. office	Okolona
North Cairo Trainmen Room	

No. 9. STANDARD CLOCKS:

St. Louis	Cairo
Tolson-Yard Office	North Cairo
Tolson Round House	Jackson
Murphysboro	Iselin Yard Office
Tamms-C. & E. I. Telegraph Office	Iselin Round House
Tamms Yard Office	Corinth
	Okolona

No. 10. All trains will get clearance before leaving North Cairo and Corinth.

All southbound trains will get clearance before leaving Winford.

Number 2 will assume schedule at Iselin Junction without clearance.

Nos. 1 and 15 must secure clearance before leaving Tolson.

All trains except first class, must get clearance before leaving Tamms.

SPECIAL INSTRUCTIONS—Continued

No. 11. MAXIMUM SPEED RESTRICTIONS:

Between East St. Louis and Oko- lona.	Diesel Electric Passenger.....	.60 Miles Per Hour
	Steam Passenger.....	.55 Miles Per Hour
	Gas Electric Passenger.....	.55 Miles Per Hour
	Freight.....	.40 Miles Per Hour

Exceptions:

Between Perry and Ruslor.....	Diesel Electric Passenger.....	.70 Miles Per Hour
	Passenger.....	.70 Miles Per Hour
Passenger Trains with Consolidated or Mikado Locomotives..... .50 Miles Per Hour		
Trains using turnout not to exceed..... .15 Miles Per Hour		
Passenger trains must consume 8 minutes going down Alto Pass Hill.		
Freight trains must consume 12 minutes going down Alto Pass Hill.		
Trains Handling Loaded Kopple Air Dump Cars..... .25 Miles Per Hour		
Steam Derricks..... .25 Miles Per Hour		
Steam Shovels, Hoisting Derricks, Pile Drivers, Locomotive Cranes, and As- phalt or similar paving plants, on own trucks..... .25 Miles Per Hour		
Locomotives not equipped with trucks, will not be operated or towed at a speed in excess of..... .25 Miles Per Hour		
Towing gas-electric motors on passenger trains with authorized speed greater than 50 miles per hour..... .50 Miles Per Hour		
Locomotives being operated or towed with both front sections side rods down and both back sections side rods down, or all side rods down, will not exceed a speed of..... .10 Miles Per Hour		
First class trains must not exceed a speed of 30 Miles Per Hour within the yard limits of Okolona.		
First class trains must not exceed a speed of 25 Miles Per Hour between Iselin Junction and Lexington St., Jackson.		
All trains and engines over Bridge 554.21, Big Muddy River, south of Murphys- boro..... .25 Miles Per Hour		
Ohio River Bridge, between Illinois and Ballard:		
Passenger Trains..... .15 Miles Per Hour		
Freight Trains..... .15 Miles Per Hour		
Freight Trains handling derricks.... .10 Miles Per Hour		
Engines backing up light or with cars. .10 Miles Per Hour		

Freight trains handled by steam loco-
motives, or by single unit, double unit,
triple unit or four unit diesel loco-
motives, must not have a car with total
gross weight in excess of 80 tons among
the first ten cars immediately following
the locomotive.

Steam locomotives must not be double-
headed or handled coupled together in
trains. When any steam locomotive is
handled in trains, it must be separated
from any other locomotive or car
(exceeding a gross weight of 80 tons) by
at least 10 cars.

Trains having hot boxes must be stopped
before moving on Ohio River Bridge
and proper attention given to such
boxes before proceeding.

Diesel-electric Locomotives, diesel-elec-
tric and gas electric motor cars, steam
locomotives, and passenger cars must
not be operated, either by towing or using
power, through water having a greater
depth over rail, or at a greater speed,
than that shown in the following table:

	Depth of Water	Speed
Electro-Motive Passenger and Freight Diesel Locomotives.....	4"	5 mph
Baldwin Pass. Diesel Locomotives....	6"	5 mph
Ingalls Combination Locomotive.....	6"	5 mph
Alco Diesel Motors, 352, 353, 354.....	5"	5 mph
Alco Passenger, Freight & Switching Diesel Locomotives.....	4"	5 mph
Electro-Motive Diesel Electric or Gas Electric Motor Cars.....	4"	5 mph
Passenger Cars with Roller Bearings.	8"	5 mph
Passenger Cars, Standard Friction Bearings.....	12"	5 mph
Steam Locomotives.....	24"	3 mph

All trains will observe speed restrictions indicated by Dia-
mond Boards.

No. 12. SIGNALS APPROACHING HIGHWAY CROSSINGS:

The attention of engineers and firemen is particularly di-
rected to the laws of Illinois, Kentucky, Tennessee and Mis-
sissippi, which require that the crossing signal, by whistle,
shall be continuously repeated, or that the bell shall be con-
tinuously rung, from whistle board to each highway crossing.
In Tennessee, the law also requires that the whistle should be
blown or the bell rung for a distance of one mile before reach-
ing any depot or station.

No. 13. BUSINESS TRACKS NOT SHOWN AS STATIONS ON FACE OF TIME TABLE:

Station	Name	Mile Post	Car Capacity	Opens
603	Griggs.....	603.12	4	South
574	Campbell Hill.....	574.18	12	North
544	Pomona.....	543.99	10	South
534	Kaolin.....	533.89	5	South
517	Elco.....	517.22	12	South
459	Moscow.....	459.40	12	Double
438	Crockett.....	437.92	26	Double
396	Youngs.....	396.00	15	North
391	Gilmore.....	391.07	10	South
313	Thrashers.....	313.47	10	Double
275	Verona.....	274.73	23	Double
269	Shannon.....	269.33	23	Double
266	Chickasaw.....	266.09	2	North

No. 14. EXTRACT FROM LAWS OF MISSISSIPPI:

"It shall be unlawful to back a train of cars, or part of a train,
or an engine into or along a passenger depot at a greater rate
of speed than three miles an hour; and every such train, part
of a train, or engine backing into or along a passenger depot,
and within fifty feet thereof, shall, for at least three hundred
feet before it reaches or comes opposite to such depot, be
preceded by a servant of the railroad company on foot, not
exceeding forty nor under twenty feet in advance, to give
warning."

No. 15. North cross-over switch at Eden will be known and used as
North siding switch.

Nos. 11 and 12 will use track No. 1 at Jackson.

No. 16. INSTRUCTIONS REGARDING INTERLOCKING AND BLOCK SIGNAL TERRITORY:

DEFINITIONS:

MEDIUM SPEED.—A speed not exceeding one-half au-
thorized speed, but not exceeding thirty (30) miles per hour.

RESTRICTED SPEED.—Proceed, not exceeding fifteen
(15) miles per hour, prepared to stop short of train, obstruc-
tion, or switch not properly lined and to look out for broken rail.

Rule 502(a) of Rules for the Government of the Operat-
ing Department is revised to read: "Grade signals are in-
dicated by the letter "G" mounted on the mast below the
signal. Trains may pass, without stopping, a Grade signal
indicating "Stop"; but must proceed at restricted speed
through the entire block as prescribed by Rule 509(a)".

MURPHYSBORO DISTRICT—TOLSON-NORTH CAIRO

Automatic block signal system, and power operated switches
at both ends of sidings, is in effect between Murphysboro and
Tamm.

SPECIAL INSTRUCTIONS—Continued

No. 16. (Continued)

Northbound trains approaching Alton & Southern crossings, south of Tolson, destined East St. Louis, using main track, will be governed by upper signal, 800 feet south of crossing. Trains destined to head in Tolson Yard will be governed by lower signal.

Southbound trains on main track will be governed by the home signal located 800 feet north of crossing.

Southbound trains moving out of Tolson Yard will be governed by dwarf signal located 300 feet north of the crossing between siding and main track.

Northbound trains to hold main track at Bixby will call for signal by one long and one short blast of the whistle, and will be governed by upper arm of interlocking home signal located south of the crossing.

Northbound trains to take siding at Bixby will call for signal by four short blasts of the whistle, and will be governed by lower arm of interlocking home signal located south of the crossing.

Southbound trains holding main track at Bixby will call for signal by one long and one short blast of the whistle, and will be governed by interlocking home signal located north of crossing.

Southbound trains on siding at Bixby will call for signal by four short blasts of whistle, and will be governed by dwarf signal located at south end of siding.

Southbound trains approaching Davis will be governed by 2-unit colorlight signal at north switch of siding.

When top unit displays a green aspect and bottom unit is not lighted train will proceed on main track. When top unit displays a yellow aspect and bottom unit is not lighted train will proceed on main track prepared to stop at next signal. When top unit displays a red aspect and bottom unit displays an illuminated letter "S" train must take siding. When top unit displays a red aspect and bottom unit is not lighted train must stop and then proceed prepared to stop short of train or obstruction.

Home signal located 270 feet north of south siding switch at Davis, governing movement of southbound trains and engines to North Cairo will display the following aspects and corresponding indications:

Yellow—Proceed at reduced speed.

Red—Stop.

Northbound trains approaching Davis will be governed by 2-unit colorlight signal located 200 feet south of junction switch at Davis.

When top unit displays a yellow aspect and bottom unit is not lighted train may proceed at reduced speed through interlocking on main track prepared to stop short of train or obstruction. When top unit displays a red aspect and bottom unit displays an illuminated letter "S" train must take siding. When top unit displays a red aspect and bottom unit is not lighted, train will communicate with the operator North Cairo for instructions or proceed through the interlocking under flag protection.

These signal indications do not relieve trains or engines from complying with Rule 93 within the yard limits of Davis.

CAIRO-DAVIS

Northbound trains approaching Davis will be governed by semaphore signal located 200 feet south of Junction Switch at Davis.

JACKSON DISTRICT-NORTH CAIRO-WINFORD JUNCTION

Between Winford Junction and North Cairo block signal indications supersede Time Table superiority without requiring the use of train orders; they do not dispense with the use or observation of other signals whenever or wherever they may be required.

Trains may pass stop and proceed signals, proceeding from such signal to the next signal indicating proceed, at restricted speed not exceeding fifteen miles per hour.

Clear home signal for northward trains at Winford Junction and for southward trains at North Cairo will authorize trains to proceed.

Trains not receiving proper signals at Illinois or Ballard will communicate with train dispatcher at Carbondale.

Telephone located at switch.

OKOLONA DISTRICT—ISELIN-OKOLONA

Interlocking signals govern the movement of trains and engines between Iselin and Iselin Junction, without requiring the use of train orders, and their indications supersede time-table superiority, but do not dispense with the use or observance of other signals whenever and wherever they may be required.

Trains or engines not receiving proper signal indication at either Iselin or Iselin Junction will communicate with the operator at Iselin.

Automatic block signal system is in effect between Ruslor and Iselin Junction.

Normal position train-order signals at Perry and Ruslor will be "STOP" and must be changed within the view of approaching train.

G. M. & O. trains must approach Perry and Ruslor under full control, prepared to stop before reaching fouling point of adjoining tracks and stop unless switches are properly set and train-order signal is in clear position and will call for signal by one long and one short blast of whistle.

I. C. trains approaching Perry or Ruslor either on the G. M. & O. or I. C. tracks must be under full control prepared to stop before reaching the fouling point unless switches are set for the I. C. connecting track and will call for signal by four short blasts of whistle.

I. C. trains approaching Perry or Ruslor will be handed clearance by operator and a 19 Train Order if superior overdue trains have not arrived. All trains to be registered at Perry and Ruslor by conductors handing operator register slip who will personally make entry in the register. Operators at Perry and Ruslor will be required to open and close all switches to be used by trains at their stations, except south siding switch Perry and I. C. siding switch Ruslor.

At Ruslor southbound trains will be governed by I. C. Block signal No. 001. Top unit governs G. M. & O. trains, normal position yellow when switch is lined for G. M. & O. main line, red when lined for I. C., bottom unit governs I. C. trains, normal position green when switch is lined for I. C., red when lined for G. M. & O.

Illinois Central Trains will display red and green markers.

						Burksville to Millstadt Jct...	3000	3150	2000	1700	2250
						Millstadt Jct. to Tolson.....	4500	4700	3200	2200	3000

The above is an outline of general tonnage brackets and does not restrict the handling of tonnage in excess of that shown as between Northern

points where there is no grade or between points where the grade is descending or ascending as the exigencies of the service demand.

SPECIAL INSTRUCTIONS—Concluded

When trains are delayed on account of failure of engines to handle their tonnage rating, engineers must report to Chief Dispatcher by wire stating cause of such failure, and conductors must show tonnage in train at the time such delay occurred on their delay report.

HOLDING TRAINS FOR CONNECTIONS FOR REPORTED REVENUE PASSENGERS

ARTESIA, MISS.—No. 16 will wait 30 minutes for No. 116 when passengers are reported for points north of Okolona.

No. 115 will wait one hour and thirty minutes for No. 15 when passengers are reported for points beyond Tuscaloosa, and one hour when passengers are reported for Tuscaloosa and points north.

SAFETY FIRST PRECAUTIONS

Bear in mind that Eternal Vigilance is the price of SAFETY and that SAFETY must have first consideration in the operation of this property.

Rules are the result of past experiences. A wise man does not pit his judgment against them. Observe all rules and be safe.

The time to prevent an accident is before it occurs.

Conductors and engineers! be sure you understand your orders. Read them twice, and check Nos. against clearance.

Coal, loaded above the tender, is often a source of accident and contributes to waste.

Avoid starting injectors or opening cylinder cocks at stations, passing over highway bridges, or over bridges and other structures on which men are working.

Don't fail to ring bell or blow whistle at dangerous places.

Don't stand on end of a car without having a secure hold.

Don't sit on brake wheels of cars.

Don't stand close to pole when poling cars.

Don't go between cars to make a coupling.

Don't attempt to adjust couplers on moving cars.

Don't kick drawbars or open them with the feet.

Don't walk on frogs, switches, guard rails or interlocking machinery or connections.

Don't cut air in too abruptly; use sufficient time and avoid sticking brakes.

Avoid coupling to or going against standing engines on or around ash-pits or inspection pit tracks, until assured no one is working on or about them.

When using jacks under rails, place outside if possible.

Loose ties and rails should be kept six feet back from the track to give brakemen sufficient clearance.

Remove motor cars from track when they are not in use.

Stand back at a safe distance when cars pass to avoid being struck by protruding objects.

Agents and operators should note condition of trains as they pass their stations. This denotes efficiency.

Handle telephone receivers, during lightning storm, in such a manner as not to cause contact with any metallic substance.

Employees must not ride on the forward footboard of yard engines on long moves or transfers in yard and are forbidden to ride on pilots of locomotives between stations.

Trainmen and other employees having to do with switching of *Rebel Coaches* must bear in mind that there is no clearance afforded between the buffers and they must stand clear of the track when coupling this equipment.
