# The Golden State

*Premier streamliner, Los Angeles-Chicago via Palm Springs, Phoenix, Tucson, Bisbee, Douglas, El Paso and Kansas City. About 44 hours en route. Through car service between Los Angeles, Minneapolis and St. Louis.*

We think you'll enjoy our "Golden State". It is the choice of experienced travelers who, year after year, use it to "chase the sun southwest" to Southern Arizona and Southern California ranches and resorts. This smooth, extra-fare streamliner speeds over an interesting, historic route on Southern Pacific-Rock Island rails which provide *the only direct mainline service between Palm Springs, Phoenix, Tucson and the East.* The "Golden State" is re-streamlined in and out, a red-and-silver beauty from diesel to drumhead . . . extra fine as well as extra fast!

Turn these pages and see this streamliner's accommodations, its luxurious Diner, Lounge and Coffee Shop-Lounge. Choose the Pullman space you prefer: Drawing Room, Compartment, Bedrooms-en-Suite, Bedroom or Roomette. Also fine Reclining Chair Cars that offer you enjoyable travel with economy.

If yours is a round trip, why not take the "Golden State" one way, and another great S. P. streamliner over another scenic S. P. route returning? You'll see twice as much, add variety and interest to your journey. Try it. The little map on the back cover shows how. Alternate service over our Golden State Route is yours on the "Imperial", Los Angeles-Chicago, with through car service between Los Angeles and Memphis.

The smart new Lounge on the "Golden State" has a friendly atmosphere, rather like a club. Perhaps you'll find a fourth for bridge or a canasta partner here. Current magazines and today's newspapers are at your elbow. A refreshing drink is as near as the buzzer beside your chair. Or, if you'd prefer to sit and watch the scenery go by, that's your royal privilege in this Lounge for Pullman passengers.
