

Late in the summer of 1947 a fleet of these new streamlined North Coast Limiteds is scheduled to go into service between Chicago and the North Pacific Coast. The present North Coast Limiteds are powered by these giant 4500 H.P. Diesel locomotives.

BELOW—This photograph, made at Livingston, Mont., shows the sleek new coaches now in service on the North Coast Limited.

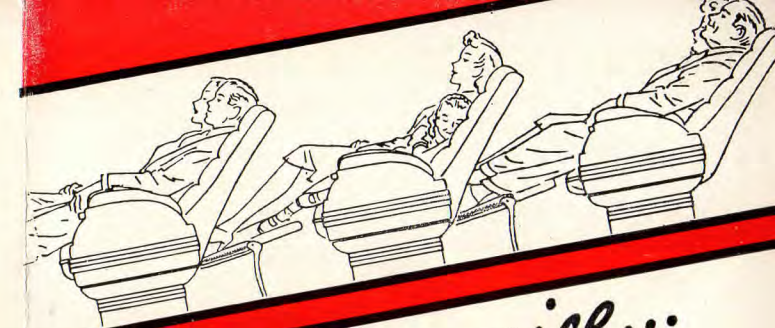

All aboard for a journey in unbelievable luxury on a low cost coach ticket!

If you're considering a trip, let Northern Pacific provide travel information and quote fares.

There's no obligation to you.

New Luxury Coaches!

New post-war streamlined coaches now in service on the Northern Pacific Railway's transcontinental North Coast Limited give travelers the last word in comfort at economy fares.

The amazing new "Day-Nite" car, designed for long-distance and overnight travel, offers the most luxurious accommodations for coach passengers. Deeply upholstered chaise lounge "Sleepy Hollow" seats and leg rests permit the traveler to recline at full length. These cars operate between Chicago and Seattle and Chicago and Portland.

Expressly for coach passengers is the new Buffet-Lounge car with comfortable seats and settees for 19 passengers. This car operates between St. Paul and Seattle.

All the new coaches have the latest temperature controls and mechanical devices to assure "smooth sailing."

▲ A corner of the Buffet-Lounge, expressly for coach passengers. Sandwiches and beverages are served by an attendant. There's a writing desk in the lounge.

▲ "Powder Room"—All the new coaches have well-equipped dressing rooms for ladies and gentlemen.

▲ An individually-controlled light over each seat is beamed directly to the passenger. Ideal for reading.

These chaise lounge seats, with leg rest, are ideal for long distance travel. The ▲ seats are easily adjustable to six positions.

← This new "Day" coach is designed for comparatively short trips. Has the same comfortable "Sleepy Hollow" seats as the "Day-Nite" car and adjustable foot rests.

Reversible seats and a handy table set → the stage for a rubber of Bridge.
