SPECIAL INSTRUCTIONS

MOVEMENT OF TRAINS

1. **SUPERIORITY OF TRAINS BY DIRECTION** is shown at the bottom of schedule pages. (See Rule S-72.)

2. **GOVERNING TIMETABLE AND RULES:**

Between entrance to The Union Terminal Co. tracks MP D-766.9 and end of their tracks MP D-768.9 just north of GC&SF Interlocking, Tower 19: Be governed by The Union Terminal Co. rules.

Between south end The Union Terminal Co. tracks MP D-768.9 and M-K-T Junction, MP D-797.5: Be governed by MKT-FWD Joint Timetable.

Between Whitesboro and Fort Worth: Be governed by T&P Ry. timetable and rules.

Between entrance to FWD Ry. tracks MP G-790.0, Wichita Falls, and WF&NW Jct., and on Wichita Falls and Abilene Subdiv.: Be governed by FWD Ry. timetable and rules. On FWD Ry. between MP G-790 and WF&NW Jct., trains have no timetable superiority. Trains and engines move at Reduced Speed. FWD first class trains must not be unnecessarily delayed.

Between Pershing and Congress Ave., Austin: Be governed by T&NO R.R. timetable and rules.

Between Congress Ave., Austin and M-K-T Jct.: Be governed by Mo.Pac. R.R. timetable and rules.

Time shown in small figures on schedule pages is for information only and confers no authority.

3. **AUTOMATIC BLOCK SIGNALS:**

Subdivision	From (Station)	Mile Post	To (Station)	Mile Post
Denison-Ray Terminal	Staley	655.9	Denison	660.8
	Staley	655.9	Ray	660.0
	Denison	661.7	Ray	660.3
Fort Worth	Ray	663.5	Whitesboro	685.7
	Ney	758.5	Bellmead	843.6
	Lamar	D-661.6	Dallas Yard	D-766.9
Dallas	MKT Junction	D-797.5	Dallas Jct.	D-892.9
	Waco	846.3	Bass	849.7
Texas	(Southward movements on southward track)			
	Waco	847.4	Bass	849.7
	(Northward movements on northward track)			
	Bass	849.7	Houston	1083.6
	Granger	908.1	Pershing	U-953.7
San Antonio	MKT Jct.	M-984.9	Sloan	M-1037.2

Southward movements from sidings Melton and Winslow, if block indicator indicates "Block Clear", must open switch and wait 2 minutes to receive "Proceed" indication on Absolute Signal in siding.

Northward or southward trains holding main track at meeting point Melton; southward trains holding main track at meeting points Celeste, L&A Siding Greenville, Abbott, Berger, Temple and Hennessey; northward trains holding main track at meeting point Bethard; remain back of "Fouling Point" sign until opposing train is entering siding.

Automatic block signal 8469 between Two Main Tracks at 26th St., Waco and block indicator north end Duraglass Spur indicate condition of block on northward track between 26th St., Waco and Bass and also between Bass and Signal 8531. Block indicator at Duraglass Spur at south switch of crossover on southward track MP 848.7 indicates approach of trains on northward track. Block indicator at north switch of crossover on northward track MP 848.7 indicates approach of trains on southward track.

Automatic block signal 8487 just north of north switch of crossover on northward track governs southward movements on northward track to Duraglass Spur. Block indicator at south switch of crossover between northward track and Duraglass lead track MP 849.4 indicates northward movements between Signals 8531 and 8487.

Between Absolute Signal MP 1080.3 (Eureka Yard) and Absolute Signal MP 1083.4 (Houston) in addition to complying with Rule 350 and other Rules applicable in this territory, trains, engines or yard movements finding either of these Absolute Signals displaying Stop-indication between 7:00 A.M. and 11.00 P.M., must communicate with and be governed by instructions of Yardmaster, Eureka Yard, as to moving under flag protection against opposing movements and where they are to be met. Between these hours, all northward train, engine and yard movements will notify yardmaster, Eureka Yard, before leaving city yard, Houston.

Ajax - Southward Lockhart Subdiv. trains will not occupy preliminary track section located opposite phone booth until have authority to proceed on San Antonio Subdiv.

Hunter and Warden - Northward train meeting opposing train will not pass northward Absolute Signal at south switch until southward train passes north switch or enters siding. Northward train in siding must back out after meeting southward train, and get "Proceed" indication on northward Absolute Signal at south switch.

RULE 99(j) authorized on Dallas, Fort Worth, Texas and San Antonio Subdivisions.

FLOOD INDICATORS at following locations:

MP Location	Affects Signals
D-667.1.....	6671 and northward Absolute Signal north end siding Penland.
D-669.5.....	6708 and southward Absolute Signal south end siding Penland.
D-724.6.....	7235 and 7258.
D-729.0.....	7281 and northward Absolute Signal north end siding Royse City.
D-729.6.....	7281 and northward Absolute Signal north end siding Royse City.
D-732.3.....	7321 and 7344.
D-733.3.....	7321 and 7344.
D-742.0.....	7409 and 7432.
D-748.2.....	7482 and 7467.
D-758.5.....	7575 and 7594.
D-798.3.....	7994 and southward Absolute Signal south end siding Waxahachie.
D-822.0.....	8207 and 8262.
679.9.....	6783 and 6800.
772.0.....	7732 and 7709.
780.8.....	7797 and 7812.
960.8.....	9601 and 9610.
1026.1.....	10261 and 10284.
U-909.5.....	9087 and 9106.
U-918.7.....	9187 and 9190.
U-922.1.....	9211 and 9228.
M-999.5.....	9981 and 10006.
M-1006.5.....	10049 and 10088.
M-1013.5.....	10121 and 10150.
M-1023.5.....	10231 and 10236.

When any of the above signals display Stop-indication or "Stop, Then Proceed at Low Speed" indication, also lookout for track washed out or damaged by high water.

BRIDGE INDICATORS at following locations:

Color light Signals 986 and 997 protect bridge 99.2-B. Signals 1156 and 1167 protect bridge 116.2-B. Rules 281 and 291 govern also when "Stop, Then Proceed at Low Speed" indication displayed, bridge will not be occupied until seen or known to be in safe condition. Report circumstances next telegraph office.

4. **MOVEMENTS BY SIGNAL INDICATION (Rules 400-404):**

a. Between interlocking limits of Staley and MP 660.0 Ray on freight main track. Control Operator Staley.

b. Between MP 663.5 Ray and Pottsboro. Control Operator Ray. "Lunar" indication displayed in unit on pole 100 feet south of new underpass indicates that Absolute Signal MP 663.5 is displaying "Proceed" indication. "Lunar" not displayed and unit on pole dark, indicates that Absolute Signal MP 663.5 is displaying Stop-indication. Telephones for communicating with Control Operator, Ray, located on pole and also at Absolute Signal.

c. Between MP 660.3 Ray and McCune; between McCune and Lamar on freight main track. Control Operator Lamar. Following instructions in effect:

Absolute Signal MP 660.3 east end Ray governs movement from Ray toward McCune. Passenger trains enroute Denison will be governed by indication of this signal; other movements must communicate with Control Operator and have his permission to proceed before accepting "Proceed" indication.

Absolute signal on Lamar cutoff authorizes movements from cutoff over dual control switch onto northward track, McCune, and against current of traffic to and through crossover just south of McCune and to Absolute Signal on southward track.

Except as above, movements between McCune and Sun will operate on right hand track with current of traffic unless authority of Control Operator, including Track and Time Limits, secured.

d. Between south end L&A Siding, Greenville, and north switch, Hunt Yard. No Control Operator.

5. **TWO MAIN TRACKS BETWEEN:**

Denison Passenger station yard and MP 662.5, Sun. MP 668.7 and MP 670.0, Pottsboro.

MP 767.4, Fort Worth and MP 758.5, Ney. Northward movements remain in clear on northward track until interlocking signal received.

MP 844.9, Waco and MP 849.7, Bass. (Between MP 844.9 and MP 846.0 trains may use track for which switches are lined. This is an exception to Rule D-81.)

6. **AUXILIARY SIGNALS:**

a. Whitesboro - When Stop-indication and illuminated "S" dis-

played on southward Absolute Signal in front of station, southward trains enroute to T&P comply with Rule 292 (A) by heading in south siding. When Stop-indication displayed and "S" not illuminated southward trains stop and remain north of Henrietta Subdiv. Jct. Switch until communicate with operator then be governed by Rule 350.

Whitesboro - Trains enroute to or from T&P are authorized to move between Henrietta Subdiv. Jct. Switch and T&P Jct. Switch ahead of or against superior trains when receive "Proceed" indication on southward Absolute Signal at station (with "S" not illuminated) or northward Absolute Signal at T&P - MKT Jct. Switch.

b. Color light signal on cutoff Lamar, and Whitesboro at locations shown, when "Yellow" aspect displayed, indicates no train order restrictions at that point, and that, when required, Train Order Form V will be received covering superior trains, or train order authority received to proceed ahead of or against them. Train Order Form N required before operator can display "Yellow" aspect. Color light signals Lamar and Whitesboro are not Train Order Signals as defined under Rules 230, 231 and 232. Display of "Yellow" does not affect observance of Block or Interlocking Rules.

Lamar - When signal displays "Red" aspect, Dallas Subdiv. main track at Lamar will not be fouled. (Yard movements not governed by this signal.)

Whitesboro - Signal on Fort Worth Subdiv. main track in front of station governs northward trains; signals on Henrietta Subdiv. main track just west of Jct. switch govern Henrietta Subdiv. trains in both directions. When "Red" aspect displayed on governing signal, Henrietta Subdiv. Jct. Switch will not be fouled.

7. TRAINS WILL REPORT FOR CLEARANCE, FORM 118, OTHER THAN REQUIRED BY RULE 83(a) (last paragraph);

Lamar, instead of Denison - Southward Dallas Subdiv. trains originating. Southward passenger trains will remain back to clear northward movements to other station tracks while southward Absolute Signal at Lamar Interlocking displays Stop-indication. If it displays "Proceed" indication, may proceed to Lamar Interlocking Station. If Interlocking Signal inoperative, move as instructed by operator Lamar.

Ray, instead of McCune - Southward Dallas Subdiv. freight trains. Lamar - Southward Dallas Subdiv. trains originating at Ray. Ray, instead of Denison - Southward Fort Worth Subdiv. trains originating.

Ray - Southward Fort Worth Subdiv. trains originating. Dallas Yard - All freight trains; northward passenger trains when Train Order Signal displays "Stop, Unless Clearance Received".

Dallas Yard, instead of Deny-Denton Subdiv. trains. Dallas (Union Station) - First Class trains and passenger extras.

Hillsboro, instead of Dallas Junction - Trains originating. Whitesboro - All trains.

North Yard, instead of Wichita Falls - Eastward freight trains. Fort Worth (T&P Passenger Station) - Passenger extras.

Waco, instead of Bellmead - Southward trains originating, when no operator on duty Bellmead.

Smithville - all trains. Austin - Northward trains, when operator on duty.

M-K-T Jct. (San Antonio Subdiv.) - Southward trains. "YD" Tower, instead of San Antonio - Trains originating.

Trains originating Sloan - Requirements of this rule may be fulfilled by delivery at Sloan of clearance issued at "YD" Tower.

T&NO Interlocking 13, MP 1078.9, instead of Eureka - Trains originating.

DeLeon - All trains.

8. EXCEPTIONS TO RULES 82(a) and 83(a):

a. Exception to Rule 82(a): Schedules may be assumed without train order authority at other than the initial station on the Subdiv. at the following points:

- Dallas Yard - No. 52.
- Smithville - Nos. 41, 42, 52 and 53.
- DeLeon - Nos. 96 and 97.

Northward trains from M-K-T-FWD Joint Track may assume their schedule or train order authority at Dallas Yard upon receipt of clearance, Form 118, at Dallas (Union Station) or Dallas Yard.

Southward trains from M-K-T-FWD Joint Track may assume their schedule or train order authority at M-K-T Junction upon receipt of clearance, Form 118, at Waxahachie (passenger station). "Proceed" indication of Southward Absolute Signal at M-K-T Junction authorizes movement to Train Order Signal, Waxahachie.

b. Exception to Rule 83(a) (last paragraph): Unless Train Order Signal displays "Stop, Unless Clearance Received", regular trains may leave their initial station without clearance, Form 118, at the following points:

- Hillsboro - Trains originating at Dallas Junction.
- Bellmead - No. 97.
- Granger - Trains originating
- Forgan - No. 93.
- Wichita Falls - No. 12.
- Elk City - Nos. 91 and 92.

9. REGISTER STATIONS: (Designated by full-faced type)

- a. Ray is register station only for freight trains. Dallas is register station only for first class trains, and passenger extras. First class trains displaying signals from or to Dallas Yard will record this information on the register at Dallas. Dallas Yard is register station only for freight trains. Whitesboro. May register by ticket. Wichita Falls is register station only for first class trains and passenger extras. Bellmead is register station only for freight trains. Waco is register station only for first class trains and passenger extras. Granger is register station only for first class trains. Sloan is register station only for freight trains.
- b. Trains will register at other than register stations as follows; Dallas Junction, Nos. 2 and 6. Austin instead of Pershing.
- c. Signals must not be ordered displayed to or taken down at Endot or M-K-T Junction.

When a regular northward MKT train is registered at Dallas Yard or Dallas, or when such train is identified on M-K-T FWD Joint track between Endot and M-K-T Junction, it will not be required to ascertain if the same train has arrived M-K-T Junction.

13. FLAG STOPS NOT SHOWN ON SCHEDULE PAGES:

For revenue passengers only unless otherwise provided.
Nos. 1 and 2, Garland and Waxahachie, to receive for or discharge from regular stops Denison and north and Waco and south.

Nos. 1 and 2, New Braunfels, San Marcos and Georgetown to receive for or discharge from regular stops Dallas and north.

No. 2, New Braunfels regular stop Sundays and Holidays. San Marcos regular stop Sundays.

Nos. 11 and 12. Any station to receive or discharge mail or passengers.

Nos. 5 and 6, any station to receive or discharge.

Nos. 5 and 6, will also stop at any flag stop shown for head end traffic. Conductors will ascertain from postal clerk and express messenger-baggage man stops necessary to comply with the above. Trains may be flagged at these stations as outlined.

No. 5, Abbott for mail to be placed in mail box on station platform when too late to go through to Waco and return on No. 6.

USE OF TRACK

14. RESTRICTED SPEED REQUIREMENTS:

a. **FIRST CLASS TRAINS RUN AT RESTRICTED SPEED** between MP M-1036.5 and Sloan (MP M-1037.5).

b. **FIRST CLASS TRAINS RUN AT RESTRICTED SPEED** at the following locations, expecting to find main track occupied or crossovers fouled by trains or engines moving in either direction without flag protection:

Greenville - Hunt: Approaching and between Absolute Signal at MP D-713.5, south end L&A Siding, and Absolute Signal at MP D-713.8, north end Hunt.

Whitesboro: Approaching and between Highway 10 crossing and Henrietta Subdiv. Jct. switch; and between south switch storage "B" track and T&P - MKT Jct. Switch on Fort Worth Subdiv. Switching movements are authorized to occupy main track in this territory avoiding unnecessary delay to first class trains. Movements also authorized as per Special Instructions 6-a.

c. **TRAINS WILL HAVE NO TIMETABLE SUPERIORITY AND ALL TRAINS AND ENGINES WILL MOVE AT RESTRICTED SPEED** at following locations:

Denison-Ray Terminal: Between Signal 6605, Denison, and yard limit sign MP D-662.1, south of Lamar, Dallas Subdiv.; and on Fort Worth Subdiv. between Denison passenger station yard and yard limit sign MP 663.0, south of Ray.

Dallas: Between MP D-765, north of Drill track, north end Dallas Yard, and entrance to The Union Terminal Co. tracks, MP D-766.9.

Fort Worth - Ney: Between northward Absolute Signal south of T&P Interlocking Fort Worth, and yard limit sign at MP 762.8.

Dallas Junction - Winslow: Between Dallas-Fort Worth Subdivision Jct. Switch, Dallas Junction, and south end siding, Winslow.

Wichita Falls: Between yard limit sign MP G-786.8, east of south yard, and entrance to FWD tracks, MP G-790.

Western Subdiv.: Between City Jct. and Hammon Jct.

Bellmead - Waco: Between Caphead, MP 841.9, and MP 847.4.

Temple-Smith: Between MP 880.0, Temple passenger station and MP 883.3, Smith.

San Antonio - Sloan: Between Sloan, MP M-1037.5, and San Antonio passenger station, MP M-1038.5.

15. **BETWEEN THE FOLLOWING POINTS TRAINS AND ENGINES WILL OPERATE UNDER PROVISIONS OF RULE 93 WITHOUT CLEARANCE OR TRAIN ORDERS:**

Sherman Jct. and Sherman on Sherman Subdiv.

Stamford and Rotan on Rotan Subdiv.

Smith and Belton on Belton Subdiv.

16. **FORM Y TRAIN ORDERS AUTHORIZED** on all Subdivisions, but are not effective in territory where Movements are by Signal Indication (Rules 400-404) as per Special Instructions 4. When Form Y orders are received before reaching Dallas or Dallas Yard on Dallas Subdiv.; before reaching Ft. Worth or Ney on Ft. Worth Subdiv.; before reaching Smithville on Texas Subdiv.; before reaching M-K-T Jct. on San Antonio Subdiv.; before reaching Elk City on Western Subdiv.; or before reaching DeLeon on Rotan Subdiv.; to be effective beyond these points must specify a wait at a station beyond the point named on each of these Subdivisions.

On Henrietta, Western and Rotan Subdivisions, regular trains will be notified of following extra trains by train dispatcher who will issue train order to all concerned as follows:

"C&E....."

After (time) protect against Extra....."

Preceding trains receiving this order will, after the specified time, while occupying main track, protect in accordance with Rule 99.

In the absence of this train order, regular scheduled trains on the Subdivisions designated may occupy the main track between Station Whistling Signs (Black letter "S" on white background) protecting against scheduled trains only and following extra trains must approach all stations prepared to stop at the Station Whistling Sign and thereafter proceed only as the way is seen or known to be clear.

17. EXCEPTIONS TO RULE 5. TIMETABLE OR TRAIN ORDER RESTRICTIONS APPLY AT:

McCune - South of Absolute Signal south of crossover between main tracks, Fort Worth Subdiv.

Greenville - At siding, first track west main track, passenger station.

L&A Siding Greenville - May be used by MKT trains, avoiding delay to L&A trains or engines, who use south end siding moving to or from Hunt. Remain north of "Fouling Point" sign to avoid signals displaying Stop-indication.

Hunt - At yard lead track, north of Wellington St.

Dallas Yard - First class trains and passenger extras, entrance to Union Terminal Co. tracks; freight trains, at Deny.

Waxahachie - Northward trains, at passenger station.

Whitesboro - Fort Worth-Henrietta Subdivision Jct. Switch.

Ney - Passenger extras, south end Two Main Tracks.

Bellmead - First class trains and passenger extras, old southward track between switch MP 842.9 and crossover MP 843.5.

Bass - South end Two Main Tracks.

Cisco - First track south of main track.

Granger - First class trains, Texas - San Antonio Subdivision Jct. Switch; other trains, siding No. 2.

Taylor - Siding No. 1.

Sealy - Siding No. 1.

18. NORMAL POSITION OF SWITCHES:

Ray - No track designated as main track between Absolute Signal MP 660.3, east end Ray Yard and Absolute Signal MP 663.5 west end Ray Yard. All tracks are yard tracks and switches may be left lined in any position, except crossover switches will be left with both switches lined for crossover or both switches lined against crossover movement.

Greenville - Switch intersecting L&A main track and L&A Siding, for L&A main track.

Waxahachie - Compress lead track switch intersecting house track, for compress lead track.

Whitesboro - Fort Worth - Henrietta Subdivision Jct. Switch for Fort Worth Subdiv.; intersection of Henrietta Subdiv. with north siding, for siding; intersection of Henrietta Subdiv. with south siding, for Henrietta Subdiv.

Whitesboro - Crossover switch, south siding, for siding.

Winslow - Lead switches, both ends of siding, for siding.

Caphead - Switch at intersection main track and yard lead, for yard lead.

Switch at intersection of Rotan Subdiv. main track and yard lead, for yard lead.

WF&NW Jct., Wichita Falls - For FWD Ry.

North Yard, Wichita Falls - All main track switches from WF&NW Jct. to and including north drill track switch, lined as needed.

Elk City - All main track switches between yard limit signs, lined as needed.

DeLeon and Stamford - Main track switches within yard limits, lined as needed.

Granger - Texas-San Antonio Subdivision Jct. Switch, for Texas Subdiv.

Ajax - For San Antonio Subdiv.

Sloan - No. 4 track designated inbound passenger main track and normal position of switch is for outbound main track.

19. CROSSOVERS AND SIDINGS:

Whitesboro - Sidings designated as:

North Siding - From north end yard to Henrietta Subdiv. main track just west of Jct. Switch.

South Siding - From Henrietta Subdiv. main track to T&P main track south of T&P-MKT Jct. Switch.

Storage "B" - North of station along east side of Fort Worth Subdiv. main track.

Granger: Sidings designated as:

Siding No. 1 - Track west of main track, north switch intersects Texas Subdiv. main track near Signal 9071, south switch intersects San Antonio Subdiv. main track just north of Signal 9083.

Siding No. 2 - Track east of main track intersecting Texas Subdiv. main track north of station.

Crossovers designated as:

No. 1 - Texas Subdiv. main track to siding No. 1, just north of Jct. switch.

No. 2 - San Antonio Subdiv. main track to siding No. 1, just south of Jct. switch.

No. 3 - Texas Subdiv. main track to San Antonio Subdiv. main track at south switch Siding No. 1.

No. 4 - Texas Subdiv. main track to siding No. 2, just south of north switch to storage track.

Taylor - Siding No. 1, north of station.

Siding No. 2, south of Mo. Pac. crossing.

Sealy - Siding No. 1, north of station.

Siding No. 2, south of GC&F crossing.

20. RESTRICTIONS IN OPERATION OF LOCOMOTIVES AND CARS:

Maximum depth of water, over top of rail, through which equipment may be handled is as follows, except where greater depths are authorized by special instructions:

Diesel engines and R.D.C. (Budd) Cars ... 5 inches.

Passenger cars 9 inches.

Freight cars 25 inches.

When trains are operated through water a maximum speed of 5 MPH must not be exceeded.

Cars with gross weight exceeding 105 tons must not be handled on Western, Sherman, Denton and Belton Subdivisions and between DeLeon and Rotan on Rotan Subdiv.

21. ABBREVIATIONS:

a. The following signs placed in column provided on schedule pages indicate:

W—Water.

T—Turntable.

Y—Wye.

PH—Telephone.

R—Radio base station.

RY—Radio yard station.

O—Fuel for diesel locomotives.

S—Track scales.

s—Regular stop.

f—Flag stop for passengers.

¶—Stop for meals.

b. Abbreviations in connection with MP location and station numbers:

D—Dallas Subdiv.

G—Henrietta Subdiv.

U—Granger to Pershing.

K—Denton Subdiv.

—A—Rotan Subdiv.

P—Sherman Subdiv.

M—Smithville to San Antonio.

L—Belton Subdiv.

—B—Western Subdiv.

22. PRECAUTIONS TO BE TAKEN TO INSURE SAFE TRAIN OPERATION DURING AND FOLLOWING SEVERE STORMS:**OPERATORS**—Notify Train Dispatcher promptly of nature and extent of storm. Call Section Foreman, if not on duty. If so advised by Section Foreman, hold trains until it is known track is safe.**TRAIN AND ENGINEMEN**—Bring train under control and proceed through territory affected by storm at a rate of speed that will insure safety; notify Train Dispatcher condition of track. If unable to communicate with Dispatcher or Section Foreman and there is doubt as to safety of movement, take siding and wait until advised track is safe.**TRAIN DISPATCHERS**—On receipt of report of storm, notify trains likely to be affected; see that Superintendent, Division Engineer and Roadmaster are notified and that Section Foremen are patrolling track and get all information necessary to protect safe movement of trains as quickly as possible. If necessary, have Operator call Section Foreman.**23. DUAL CONTROL AND REMOTE CONTROL SWITCHES.**

a. Dual Control Switches:

M-K-T Junction (MP D-797.5)—Normally controlled from Waxahachie (Passenger Station).

McCune—Normally controlled from Lamar Interlocking Station.

b. Remote Control Switches:

Whitesboro—T&P—MKT Jct. Switch.

24. SPRING SWITCHES AND SPRING DERAILS:

a. Spring Switches: Designated by letter "S" attached to switch stand.

Ray—East end yard, MP 660.8, where crossover intersects Warner cutoff freight main track. Normal position for crossover. Southward movements from Warner cutoff trail through. Signal 6607 protecting as per Rule 104(a) affected only by position of the switch.

Ray—East end yard, MP 660.1, intersection of inbound and outbound tracks - normal position for inbound track.

McCune—Both switches crossover between Two Main Tracks, - normal position for crossover.

Sun—End Two Main Tracks—normal position for northward track. Sherman Jct. - Sherman - Fort Worth Subdivision Jct. Switch - normal position for Fort Worth Subdiv.

Penland—South switch, siding.

Kellogg—North switch, siding.

Dallas Yard—North switch, drill track.

Dallas Junction—Dallas-Ft Worth Subdivision Jct. Switch—normal position for Dallas Subdiv.

Pottsboro—Both ends Two Main Tracks - normal position for movement on right hand track.

Fort Worth - North end Two Main Tracks, MP 757.4 - normal position for southward track. (Signal protecting per Rule 104(a) affected only by position of the switch.)

Ney—South end Two Main Tracks, MP 758.5 - normal position for northward track. (Signal 7586 protecting as per Rule 104(a) also actuated by movements on northward main track between switch and crossover MP 758.)

Ney—South end drill track.

Egan - North switch, siding.

West - Both switches, siding.

Elm Mott - Both switches, siding.

Caphead - (Signal 8415 protects). Normal position lined for yard. Southward movements on main track leave lined for yard. Northward movements trail through.

Bass - End of Two Main Tracks - normal position for northward track.

Eddy - Both switches, siding.

Little River - Both switches, siding.

Elgin - South switch, siding.

L A Yard - South switch, siding.

Fayetteville - North switch, siding.

New Ulm - Both switches, siding.

Houston - North switch, lead track.

Pershing - M-K-T-T.&N.O. Jct. Switch - normal position for T.&N.O.

Ajax - San Antonio-Lockhart Subdivision Jct. Switch - normal position for San Antonio Subdiv.

Hunter - South switch, siding.

b. Spring Derails:

Denison - On main track 280 feet north of Signal 6608, north of passenger station - trailing for southward movements, hand operated for northward movements. Must be handled by crew of northward movements unless in charge of yardmen.

Ney—In tail track just south Magnolia St., - trailing for southward movements, hand operated for northward movements.

25. CONELRAD:

The CONELRAD program is a civil defense procedure mandatory to all radio stations in the Land Transportation Radio Service, which includes railroads, to provide for the alerting and operation of radio broadcasting stations during periods of air attack or imminent threat thereof and to minimize navigational aid to an enemy from such radio broadcast stations.

CONELRAD ALERT

The CONELRAD RADIO ALERT message for actual alert is as follows:

"We interrupt our normal program to cooperate in Security and Civil Defense measures as requested by the United States Government.

THIS IS A CONELRAD RADIO ALERT.

Normal broadcasting will now be discontinued for an indefinite period.

Civil Defense information will be broadcast in most areas at 640 or 1240 on your regular radio receiver."

The above message is then repeated once and if it is a CONELRAD test or drill broadcast station will so announce.

The above message will be broadcast by all standard AM, FM and TV broadcast stations upon direction of the Air Defense Command

at which time all broadcast stations must leave the air except certain stations on CONELRAD frequencies 640kc and 1240kc, which will broadcast under controlled conditions which render the broadcasts useles for direction finding purposes.

The Air Defense Command, when the danger of Radio Navigational aid is removed, initiates a RADIO ALL CLEAR message as follows:

"CONELRAD radio all clear. Resume normal operations."

The message is repeated once, after which normal operations may be resumed.

CONELRAD RADIO ALERT may be given over the whole country or just certain zones. The M-K-T is divided into two zones: all of Missouri, Kansas and that part of Oklahoma north of a point between Checotah and Oktaha on the Muskogee Subdivision, and north of a point between Yale and Jennings on the Oklahoma Subdivision is Zone 20; the remainder of Oklahoma and Texas in Zone 33.

OPERATION DURING A CONELRAD RADIO ALERT

Upon receipt of a CONELRAD RADIO ALERT all radio stations, which includes railroad base and mobile stations, must interrupt any communication in progress, make a brief announcement (base stations, for instance, notify mobile stations); leave the air, and maintain radio silence for the duration of the alert, except for limited transmissions handled in accordance with the following restrictions:

(1) No transmissions shall be made unless they are of extreme emergency affecting the national safety, or the safety of people and property;

(2) All transmissions shall be as short as possible;

(3) No station identification nor geographical location shall be given.

PROCEDURE ON THE M-K-T RAILROAD

Denison Dispatcher's Office is equipped with an automatic "CON-ALERT" receiver and when a CONELRAD RADIO ALERT is received will notify Waco Relay Office and all base radio stations on Southern Division, except Hico, DeLeon and Stamford, who will be notified by Waco Relay Office.

Radio base stations will notify all mobile units within range by repeating the ALERT message twice, then leaving the air.

The same procedure will be followed when the RADIO ALL CLEAR is received.

Base, fixed or mobile stations not directly receiving the CONELRAD RADIO ALERT must use caution in returning to the air after an "out of service" period, to insure that a CONELRAD RADIO ALERT is not in progress before making any transmissions.

A log must be maintained for all CONELRAD tests, drills and operations on forms provided by Denison Dispatcher's Office, Waco Relay Office, and all base stations.

26. SPEED RESTRICTIONS

LIMITS	CLASS OF SERVICE	
	Passenger Trains	Freight Trains
Main track, except as otherwise restricted by Yard Limits, Train Orders, Speed Restriction Signs, General Orders, Special Instructions, or other restrictive conditions.		
MAXIMUM SPEED MPH - DIESEL OPERATION:		
Between Staley and Denison	70	30
Except: Over Red River Bridge, MP 656.0	30	25
Over puzzle switch north of Denison passenger station	15	15
Denison, over street crossings	20	20
Between Staley and Ray, freight main track	30	30
Except: Denison, over street crossings	20	20
Between Denison and MP D-662.1	20	20
Between MP D-662.1 and MP D-665.5	45	35
Between MP D-665.5 and Atkins	75	45
Except: Whitewright, over street crossings	30	30
Trenton, over street crossings	46	30
From first street crossing north of passenger station, Greenville, to Hunt	20	20
Royse City, over street crossings	30	30
Around first curve north of GC&SF crossing, Garland	40	40
Garland, over street crossings	40	40
Between Atkins and MP D-765	40	20
Except: Highland Park, over Cole, Knox, Airline Road and Mockingbird Lane Streets	10	10

LIMITS	CLASS OF SERVICE	
	Passenger Trains	Freight Trains
Between MP D-765 and Dallas Yard	20	20
Except: Dallas Yard, over Alamo and Houston Streets and McKinney Ave.	10	10
Between M-K-T Junction and Dallas Junction	75	45
Except: Waxahachie, over street crossings	20	20
Italy, over street crossings	30	30
Through turnout, Dallas Junction	20	20
Hillsboro, over street crossings	18	18
Between Denison and MP 660.3, Ray	20	20
Except: Through turnouts, Sun and McCune Denison, over Morton Street	15	15
Denison, over Morton Street	15	15
Between MP 662.9, Ray, and Pottsboro	30	30
Except: Through turnouts, both ends of Two Main Tracks, Pottsboro	15	15
On southward track, Pottsboro	20	20
Between Pottsboro and MP 680	50	40
Between MP 680 and Whitesboro	76	55
Between Ft. Worth and MP 762.8	20	15
Except: Through turnouts, both ends Two Main Tracks	15	15
Between MP 762.8 and Dallas Junction	75	55
Except: Grandview, over first crossing south of station.	30	30
Between Dallas Junction and south end siding, Winslow	18	18
Between Winslow, south end siding, and Caphead	75	55
Except: West, over street crossings.	30	30
Between Caphead and MP 847.4	20	20
Between MP 847.4 and Bass	50	36
Except: Through turnout, end Two Main Tracks, Bass	30	20
Between Bass and Hewitt	60	40
Between Hewitt and MP 880	75	55
Between MP 880 and Smith	18	18
Between Smith and MP 921	75	55
Between MP 921 and Cat Spring	50	40
Except: Over Highway 95, Smithville	15	15
Between Cat Spring and Brookshire	75	55
Between Brookshire and T&NO crossing, Eureka	50	40
Except: Wirth St. MP 1076.	20	20
Between T&NO crossing, Eureka and Houston	20	20
Between Granger and Pershing	60	40
Except: Through turnout, Jct. Switch, Granger	30	20
Over Congress Avenue, Austin	5	5
Between M-K-T Jct. and MP M-1036.1	75	55
Except: Through turnout, M-K-T Jct.	30	20
Between MP M-1036.1 and San Antonio	20	20
Between Sherman Jct. and Sherman	30	30
Except: Sherman, over street crossings, Pecan to King Street; inclusive		Flag crossings
Perrin Field Spur Track	10	10
Between Whitesboro and Wichita Falls	50	35
Except: Whitesboro, over Highway 10	20	20
On siding	5	5
Gainesville, over street crossings	10	10
Nocona, over Clay and Cooke Streets	10	10
Other street crossings	20	20
Wichita Falls, over 7th and Iowa Park Streets	8	8
Other street crossings	15	15
Between North Yard and Forgan	40	25
Except: North Yard, over Jefferson Street	5	5
Other street crossings	15	15
MP 2.1-B, over crossing north of Panhandle Refinery	15	15
MP 3.2-B, over US Highway 277-A	20	20
Burkburnett, over crossings north and south of station	8	8
Burkburnett and Devol	35	20
Grandfield, over crossing MP 28-B	15	15
Loveland and Altus	35	20
Altus, between Main and Blaine Streets, inclusive	8	8
Elk City, over Main Street	8	8
Forgan, over Main Street	8	8
Between Denton and Deny	25	25
Except: MP K-735.5, street crossing	10	10

LIMITS	CLASS OF SERVICE	
	Passenger Trains	Freight Trains
Dallas, over Harry Hines Blvd.	10	10
Over Hawes St. and Inwood Road	15	15
Between Bellmead and Stamford	40	30
Except: Gorman, over two crossings east of station	10	10
Cisco, over West 6th Street	10	10
Albany, over crossing east of station ..	10	10
Between Stamford and MP 234-A	25	25
Between MP 234-A and Rotan	15	15
Except: Over all bridges between Hamlin and Rotan, when handling 70-ton coal and hopper cars		10
Between Belton and Smith	10	10
Between Smithville and Ajax	45	40
Except: Lockhart, over street crossings ..	10	10
MISCELLANEOUS:		
All trains and engines operating through turnouts	20	15
Except: Through turnouts on Sherman, Denton and Western Subdivisions ..	10	10
TRAINS HANDLING:		
Steam derricks, pile driver, ditchers or cranes on their own wheels (except where maxi- mum speed is lower)		30
Derricks X-255 and X-256, (Cooper's rating E-58), Pile Driver X-1030 (Cooper's rating E-53) and Crane X-1020 (Cooper's rating E-28) (except where maximum speed is lower)		25
These machines must not be operated over Western, Sherman, Denton or Belton Sub- divisions, nor the BM&E Railroad. Must be located in train not less than four cars nor more than ten cars from engine. When two of these machines are handled in freight trains, they must be separated by at least six cars.		
When Derricks X-255 and X-256 are operated on tracks other than the main track, on all Subdivisions, timber bridges under those tracks must be inspected before allowing machines to pass over those bridges. If the bridges are constructed with fewer than four stringers per chord, machines will not be permitted to pass over until helper stringers are placed or cribbing placed be- tween bents to reduce the span length. The machines must not be spotted on bridges to handle loads and must not travel across a bridge while carrying a load.		
Any Engine - must have air brakes in oper- ation and when set out, must be coupled to car or cars with sufficient hand brakes set to hold; hand brakes must be released while being handled dead in train, and it must not be placed next to cars of pipe, poles, piling or loads liable to shift.		
Engines Towed in Train - Handle next to operating engine of through trains and be- hind short cars of trains setting out and picking up; except all 70-ton Road Switchers to be handled next ahead of caboose.		

27. ... MAXIMUM SPEED OF TRAINS OVER RAILROAD CROSSINGS

Railroad	M.P.	At or Near Station	Not to Exceed MPH	
			Passenger	Freight
T&NO R.R. T&P Ry.	D-661.6 D-674.3	Lamar Bells	Restricted Speed 35 20

28. EXCEPT WHERE OTHER RESTRICTIONS REQUIRE SLOWER SPEED, ALL TRAINS REDUCE SPEED TO 25 MPH WHILE MEETING OR PASSING ANOTHER TRAIN OCCUPYING A SIDING.

STATE STATUTES

- TEXAS.....Whistle must be sounded and bell rung at least 80 rods from place where the railroad shall cross any public road or street, and the bell shall be kept ringing until locomotive shall have crossed such public road.
- OKLAHOMA.....Whistle shall be sounded or bell rung at least 80 rods from place where the railroad shall cross any road or street.

OPERATING INSTRUCTIONS FOR WHITE AND RED OSCILLATING HEADLIGHT

WHITE LIGHT

Must be displayed at night and during the day when weather conditions impair visibility. Must be extinguished when the standard white headlight is dimmed or extinguished.

RED LIGHT

Will be displayed by day or by night when train is stopped suddenly under circumstances in which adjacent tracks may be fouled, or when head end protection is required. Must be extinguished when necessity no longer exists. A headlight burning red is a signal for an approaching train on the same or adjacent track to stop before passing such headlight, and be governed by conditions.

DISPLAY OF HEADLIGHTS DOES NOT RELIEVE ENGINE MEN OR TRAINMEN FROM PROTECTING TRAIN IN ACCORDANCE WITH RULE 99.

1. Safety is of first importance in the discharge of duty.
2. Avoid all risks. Watch for unsafe conditions and correct and report them.
3. Look both ways before crossing any track. Avoid crossing track in front of movement after signal is given to move. Do not stand or walk on track when avoidable.
4. Step over rails, frogs, switch guard rails, interlocking machinery or connections and not on them. Do not sit on rails or ties or take refuge under car.
5. Look out for approaching movements and alight outside of rails when getting off engine or cars.
6. When alighting from or boarding rear end of freight train, use rear platform of caboose.
7. When boarding or alighting from a locomotive, caboose, or car, face in, as on a ladder. Observe footing and clearances before alighting from moving or standing engine or car. Keep firm grip on handhold until foot is firmly placed on ground or other support when engine or car is standing.
8. Keep away from side or end while riding top of car, except for time required to operate brake or perform other duty there.
9. Do not ride on facing end of leading car or trailing end of rear car when possible to avoid it.
10. When riding side or top of car, keep close watch for unsafe clearances.
11. Before going under or between standing cars or engines, first see or know they will not be moved. Otherwise obtain suitable protection. No signal should be given to move engine or cars when anyone is under or between.
12. One man will be permitted to ride the leading footboard of switch engine on short switch moves. He will board the footboard from a position outside of the rails, remaining in sight of engineer or fireman. He will alight from the footboard before coupling into other equipment. Enginemen will not permit their engine to couple into other equipment while a man is riding the leading footboard.
13. Employees will not attempt to board oncoming footboards when the movement is of such speed to be unsafe, or when engine is moving over frogs, crossovers, turnouts, or where a safe footing on the ground or footboards is in doubt.
14. Firm grip and safe foothold are essential to safety when on sill-step, side ladder, end platform, or in transferring or changing position.
15. When alighting from moving equipment extreme care should be exercised. Avoid getting off in an awkward manner that will result in strains or sprains.
16. When engineman sees or knows that ground man is about to get on or off, he will regulate speed down to point of assured safety. Consider the footing, visibility and other conditions.
17. In setting or releasing brakes, be alert to the hazard of slipping or losing hold, sudden lurch, stop or start of car, brake club breaking or slipping, brake chains kinking or overlapping, also grabbing or kicking of brake. (Study the peculiarities and proper handling of different types of brakes.) Pressure on brake should be exerted toward body of car. Do not hold brake tension by hand—use the dog and ratchet.
18. Leave cars in clear and tied down to avoid possibility of fouling other tracks or man on side of car. Do not leave cars standing on tracks too near street or highway crossing, preferably 75 feet away from the crossing.
19. Be prepared constantly for sudden start or stop and for the shock of brake or slack action.
20. Use cut-lever to uncouple cars. If lever is inoperative, tie the movement down before crossing to opposite side.
21. It is prohibited to use foot or hand to adjust drawbar, knuckle or lock pin while car or locomotive is in motion or when another car is approaching within a car length.
22. Angle cocks will be closed before uncoupling air hose when there is pressure in train line. When setting brakes by turning angle cock, keep firm grip on hose.
23. Do not place hands, feet, or any part of body between inside end of car and lumber, pipe, or other lading likely to shift. Keep clear of unsecured drop end doors. Do not use gate of gondola for handhold.
24. Slack cuts apart half car length before going between couplers to make adjustments of knuckles or for other purposes.
25. Do not attempt to cross track close in front of moving engine or car.
26. Wear safe shoes and other apparel, and use suitable clear goggles when needful to protect against sand, cinders, or other eye hazards.
27. Keep feet in clear of the path of counterweights on ground throw switch levers. Do not handle switch stand lever when switch is being run through.
28. A habit of too much idle conversation across cab or caboose may contribute to serious accident.
29. Keep the mind on the work and have a clear and mutual understanding of the moves to be made.

DIESEL LOCOMOTIVE SAFETY RULES

30. Enginemen and others will use hard rubber or nonmetallic cased flashlights in and around Diesel locomotives.
31. Never place hands or face near main generator or any high voltage equipment while it is working under load.
32. Do not smoke or have open flame in engine room.
33. Rings and wrist watches will not be worn while working around electrical equipment.
34. Fuses will not be pulled while under load.
35. High voltage cabinet will not be opened while motor is running, other than idling.
36. Stepping out of side doors of moving Diesel units to elevated platform or other side elevation is prohibited.
37. At any time an engine is overheated or shut down for mechanical defect, no handhold cover plates should be removed until sufficient time has elapsed to permit engine to cool down sufficiently to prevent possibility of an explosion (minimum one hour).

RULES REGARDING HANDLING OF PLACARDED CARS

Cars placarded "Explosives" shall, when length of train permits, be placed not nearer than the 16th car from both engine or occupied caboose; otherwise, near middle of train; except in train made up in "blocks" or classifications, be placed near middle of the "block" or classification in which moving, but not nearer than 6th car from both engine or occupied caboose; in train performing pickup or setoff service shall be not nearer than 2nd car from both engine or occupied caboose, when length of train permits.

Placarded loaded tank cars shall, when length of train permits, be placed not nearer than the 6th car from engine, occupied caboose, or passenger car; otherwise, or when handled in freight train engaged in pickup or setoff service, shall not be nearer than the 2nd car from both engine or occupied caboose.

Cars placarded "Explosives" must not be handled next to any car placarded "Dangerous", "Dangerous-Class D Poison" "Poison Gas" or car containing poison liquids Class A. Placarded loaded tank cars must also not be handled next to any car placarded "Poison Gas." Cars placarded "Poison Gas" or containing poison liquid Class A must also not be handled next to cars placarded "Explosives" or "Dangerous."

Cars placarded "Explosives" or placarded loaded tank cars must not be handled next to engine or occupied caboose (except when train consists only of placarded loaded tank cars); next to occupied passenger or combination car, other than gas handlers accompanying shipment as excepted below; wooden underframe cars; loaded flat cars (except cars carrying trailers or containers placarded "Explo-

sives" may be coupled to each other); (flat cars equipped with permanently attached ends of rigid construction shall be considered as open-top cars); open-top car when any of lading protrudes beyond car ends or any extending above car ends if liable to shift and protrude beyond car ends; car equipped with automatic refrigeration or any other apparatus utilizing an open-flame light or an internal combustion engine in its operation; cars containing lighted heaters, stoves or lanterns; cars loaded with live animals or fowl, occupied by an attendant. (Exception: A car placarded "Explosives" or "Poison Gas" or both shall be next to and ahead of the car occupied by the guards or gas handling crews accompanying such car; except that when the car occupied by guards or gas handling crews is equipped with a lighted heater or stove it shall be the 4th car behind a car or cars with "Explosive" placards. Otherwise, cars containing explosives, Class A; poison gases or liquids, Class A; and tank cars placarded "Dangerous" shall not be transported next to occupied cabooses or cars carrying passengers in mixed trains.)

When handling car placarded "Explosives" in terminals, yards, side tracks or sidings, such car shall be separated from engine by at least one non-placarded car.

At all terminals or other places where trains are made up by crews other than road crews accompanying them outbound, numbered notice Form 1169, showing the location in train of every car placarded "Explosives" shall be delivered to the train and engine crew. At points where train or engine crews are changed, the notice shall be transferred from crew to crew.
