Time at New Orleans and Race Street Jct. is shown for information only.

Employees of the Texas and Pacific Railway are subject to the Rules, Time Table and Special Instructions of the Public Belt Railroad of the City of New Orleans between Race Street Jct. and West Bridge Jct.

Employees of the Texas and Pacific Railway are subject to the instructions of the officers of the Texas Pacific-Missouri Pacific Terminal Railroad of New Orleans while occupying its tracks.

Employees of the Texas Pacific-Missouri Pacific Terminal Railroad of New Orleans will be governed by the Rules of the Transportation Department and Time Table of the Texas and Pacific Railway.

Nos. 21, 23 and 715 may assume their schedule and leave West Bridge Jct. without clearance card but must secure a clearance card at Avondale.

Avondale is train order office for westward trains ONLY.

Alexandria yard is train order office for westward trains originating that point only, but is train order office for all eastward trains.

Race Street Jct. is register station for second class and inferior trains only.

Cheneyville is register station for No. 834 and 835 only.

All trains, except those originating and terminating at Avondale, Addis and Alexandria Yard will register at these stations by register ticket.

Time at Donaldsonville applies at train order signal.

Time at Addis applies at train order signal.

Time of first-class trains at Alexandria Yard applies to the end of two main tracks, M.P. 192.0.

OTHER PASSENGER TRAIN FLAG STOPS

Trains	Stations	M.P.
23	LeMoyen	148.6

No. 21; Melville to discharge passengers from Avondale and beyond or to receive passengers for Alexandria and beyond.

Train 23 stop at Rosa to discharge passengers from points Melville and east.

No. 715...Vacherie and St. James to discharge passengers from Avondale, New Orleans or beyond.

Eastward trains are superior to trains of the same class in opposite direction; except No. 21 is superior to all Eastward Trains.

First class trains will run at REDUCED SPEED between West Bridge Jct. and Waggaman and between Willow Glen and Texmo Jct.

Second class and inferior trains and engines may run ahead of overdue first class trains between West Bridge Jct. and Waggaman and between Texmo Jct. and Alexandria yard without train order authority, but will not occupy the main tracks within these limits when it is known a first class train will be delayed.

Employees of the G. C. L., Mo. Pac. and Sou. Pac. Railroads are subject to the Rules, Time Table and Special Instructions of the Texas and Pacific Railway Company while occupying its tracks.

Exception to Rule 95: Between Texmo Jct. and Willow Glen Mo. Pac. and GCL trains when so designated by Mo. Pac. or GCL train orders may display signals for a following section without train order authority from the Superintendent.

Exception to Rule 97: Between Alexandria yard and Texmo Jct. trains may run extra with the current of traffic without train order authority; and between Alexandria yard and Willow Glen may run extra without train order authority as authorized by automatic block signal indication.

All second class and extra trains may leave Alexandria passenger station without clearance card. First class trains must secure clearance card at Alexandria Dispatcher's office before leaving Alexandria passenger station.

GCL No. 102 is authorized to assume the schedule of No. 717 Willow Glen to Alexandria without clearance card.

Train No. 834 will secure clearance card at S. P. depot before departure.

EASTWARD TRAINS ARE SUPERIOR TO TRAINS OF THE SAME CLASS IN OPPOSITE DIRECTION

Between St. L-S. W. Ry. crossing, Bonham Sub-Division connection with K. C. S. Ry. near Compress, and Texarkana Passenger Station, ALL TRAINS AND ENGINES will move at reduced speed and will not exceed a maximum speed of ten (10) miles per hour. All trains and engines must approach St. L-S. W. Ry. and Bonham Sub-Division connections, Texarkana, prepared to stop unless switches and signals are right and the track is clear. Employees of the St. L-S. W. Ry and K. C. S. Ry. are subject to the Rules, Time Table and Special Instructions of the Texas and Pacific Railway while occupying its tracks.

STANDARD CLOCKS:
 Texarkana
 Bonham

No. 31 and 32 will stop on flag at Leary, East Gate Red River, Malta, Oak Grove and High. No. 31 will stop at West Gate to Red River Ordnance Training Center, approximately M.P. A-19 on request from passengers to detrain at that point.

NORTHWARD TRAINS ARE SUPERIOR TO TRAINS OF THE SAME CLASS IN OPPOSITE DIRECTION

Employees of Missouri Kansas & Texas Railroad are subject to the Rules, Time Table and special instructions of the Texas and Pacific Railway while occupying its tracks.

Two main tracks in service between 17th Street and Peach Street, Fort Worth.

South switch at end of Whitesboro Sub-Division two main tracks 17th Street, Fort Worth located 200 feet north of Interlocking Tower and switch controlled by Towerman.

Hand-throw switches 17th Street, Fort Worth will be handled by member of crew using them and left in normal position as indicated by targets and lights.

Trains or engines moving to or from 17th Street, Fort Worth from any route will approach prepared to stop unless switches are right and track clear.

Two tracks west of wye, in service between Passenger Station tracks and Whitesboro Sub-Division main track south of 17th Street, Fort Worth and Passenger trains and Engines entering and leaving Passenger Station will use the right hand track in direction moving unless otherwise directed by Interlocking signals; switches controlled by the Towerman.

Freight trains and engines moving between 17th Street and Lancaster Yard through the route to Passenger Station will use the outbound track from Passenger Station from the connection with Whitesboro Sub-Division main track south of 17th Street to the connection with Dallas Sub-Division main track just west of South Main Street Subway.

Southward trains or engines enroute to the West Yard and Lancaster Yard will use the crossover from southward to northward main track just south of 17th Street Crossing, thence Outbound track from Passenger Station to the connection with Dallas Sub-Division main track just west of South Main Street Subway.

First Class trains will run at REDUCED SPEED between 17th Street and Peach Street, Fort Worth.

Second Class and inferior trains and engines may run ahead of overdue first class trains between Fort Worth (Passenger Station) and Fort Worth (Peach Street) without train order authority, but will not occupy the main tracks within these limits when it is known a first class train will be delayed.

NORTHWARD TRAINS ARE SUPERIOR TO TRAINS OF THE SAME CLASS IN OPPOSITE DIRECTION

Exception to Rule 97: Between Fort Worth and Hodge trains may run extra without train order authority.

Fort Worth (Passenger Station) is train order office for first class trains only. All trains will register at Hodge by register ticket. MKT Nos. 324 and 327 will register at Whitesboro by register ticket.

Hand-throw crossover switches, M.P. 240.6, just south depot Hodge, are electrically locked, release of which controlled by Operator Hodge.

Both switches crossover between two main tracks north 9th Street crossing Ft. Worth electrically locked.

North switch No. 4 track, just north 9th Street crossing Ft. Worth electrically locked, and derails opposite each other on No. 4 and North Lead tracks, located approximately 160 feet south of switch, are pipe connected and are operated by switch lever.

STANDARD CLOCKS:

Bonham Ft. Worth (Passenger Station)
Whitesboro
Hodge

Special Instructions

ALL SUB-DIVISIONS

Exception to Rule 87: Clearance of Trains within Automatic Block System Limits. At meeting points, second-class and inferior trains must clear the main track not less than five minutes before the leaving time of a first-class train. At meeting points between other trains, the inferior train must clear the main track before the leaving time of the superior train.

Exception to Rule 92: Within Automatic Block System limits a train may arrive at a station in advance of its schedule arriving time.

Road Foreman of Engines has the authority of Trainmaster.

Where flag stops are shown trains will stop for revenue passengers only. (Exception to these instructions is made to trains Nos. 20, 27, 23 and 24 at Hollywood Yard.)

A running switch must not be made with cars containing inflammables, explosives or other dangerous articles.

Train and yardmen must not switch with locomotives without first ascertaining that air brakes are released, reverse lever in proper position and cylinder cocks open.

Outfit and wooden underframe cars, loaded or empty, must be handled in rear of all trains.

Water and fuel oil cranes equipped with switch locks must be kept locked when not in use.

Freight Trains and yard engines with freight cars will not use passenger tracks, Alexandria, Shreveport, Marshall and No. 1 Passenger track Longview.

AUTOMATIC BLOCK

1. Automatic Block Signal Rules effective:

- Westbridge Jct. to Texmo Jct., M.P. B-196-2.
- Cut Off Jct. to Mile Post 71.3, east of Lucas.
- Shreveport (Passenger Station M.P. B-327-3) to Marshall.
- Dallas Sub-Division.
- Whitesboro Sub-Division between Whitesboro and Ft. Worth Interlocking.

2. Certain color light Block Signals, with or without Number Plates, in addition to displaying aspects, provided by Rules, may display the following aspects and indications:

ASPECTS.	INDICATION
Yellow over Yellow.	Proceed preparing to stop at second signal.
Red over Lunar White, or Red over Red over Lunar White.	Proceed at Restricted Speed without stopping expecting to find route occupied and prepared to stop short of obstruction.

3. Certain color light Block Signals, equipped with Number Plates, which govern the approach to a Block Signal located at a diverging route power-operated switch may display the following aspect and indication:

ASPECT.	INDICATION
Red over Yellow.	Proceed preparing to enter diverging route at next signal.

4. Exception to Rule 287: When a color light Block Signal displays:

Red light with letter "S", or Red over Red light with letter "S":
Indication is: "Stop and throw switch." After switch has been thrown be governed by indication displayed by the signal.

5. A train or engine entering the main track, or passing from two main tracks to single track at a spring switch not protected by block signals or block indicator signals must, when necessary, protect the movement.

FIRE PROTECTION

1. Loose fire-bricks removed from fire pan must be retained in the boot underneath the fire pan while engine is running and when removed must be cooled to avoid fire.
2. Engines standing without fire must have safety valve in oil tank closed and oil not allowed to run into the pan or underneath the engine.

A maximum speed of 25 miles per hour for passenger trains and 20 miles per hour for freight trains will not be exceeded over cane crossings.

Special Instructions

ALL SUB-DIVISIONS

Trains of mixed freight and passenger equipment will not exceed maximum freight train speed; cabooses are considered freight equipment. Trains of deadhead passenger equipment will not exceed maximum freight train speed unless authorized.

Trains handling cars loaded with crude oil will not exceed maximum speed 40 miles per hour, and when handling scale test cars will not exceed a maximum speed of 45 miles per hour. Conductor keep engineer advised when crude oil or scale test car in train.

Trains handling cars equipped with arch bar trucks or wooden underframes (except cabooses) will not exceed maximum speed of 45 miles per hour, but all speed restrictions of less than 45 miles per hour must be complied with.

Trains handling Steam Wrecking Derricks Boom in forward position, self-propelled pile drivers, Ledgerwood, Brown hoists, and other machinery of similar description, also steam pile drivers moving under their own power, must not exceed maximum speed of 30 miles per hour on straight track, and 18 miles per hour on curves.

Light engines in road movement, either freight or passenger, and engines handling cabooses or rider cars only, not otherwise restricted by time-table or special instructions, will not exceed a maximum speed of 40 miles per hour.

Yard engines in service, running forward or backward with or without cars, and road engines in service running backward with or without cars or when shoving cars ahead of engine, must not exceed maximum speed of 20 miles per hour, except on New Roads, Avoyelles, Pleasant Hill Branches and Texarkana Sub-Division 15 miles per hour, and 12 miles per hour over all other branch lines.

Maximum speed trains or engines moving in the trailing point direction through a spring switch 30 Miles Per Hour unless otherwise restricted.

When a signal governing a movement in facing point direction of spring switch indicates "Stop" or "Stop and Proceed" switch must be tested by hand and switch points examined and known to fit properly before proceeding.

Rail sand must not be used or water allowed to run from any locomotive between signals governing movement over spring switches.

SPECIAL INSTRUCTIONS GOVERNING POWER-OPERATED SWITCHES

Alexandria Sub-Division

Power-operated switch at each end crossover west end siding Donaldsonville, M.P. 64.3 and at crossover end Two Main Tracks Donaldsonville, M.P. 64.8 and the signals in connection therewith controlled by operator Donaldsonville.

Shreveport Sub-Division

Power-operated switch leading from westward main track to Mo. Pac. North ward main track Texmo Jct. and signals in connection therewith controlled by T&P Train Dispatcher, Alexandria.

(Continued Next Column)

SPECIAL INSTRUCTIONS GOVERNING POWER-OPERATED SWITCHES—Continued

Dallas Sub-Division

Spring switch at west end National; power-operated switch at east end National; switch and signals east end National controlled by towerman Texarkana; signals at west end National controlled by Operator Marshall.

Power-operated switches at each end passing sidings Sulphur to Lansing, inclusive, and Willow Springs to Wilkins inclusive and signals in connection therewith controlled by Operator Marshall.

Power-operated switch at east end Water Track Longview and west end Longview, M.P. 90.1 and the signals in connection therewith controlled by Operator Longview.

Power-operated switch at west end siding Big Sandy and the signals in connection therewith controlled by Operator Big Sandy.

Power-operated switch west end siding Orphans Home and signals in connection therewith controlled by Towerman, T&P Jct.

Power-operated switch east end siding T&P Jct. and signals in connection therewith are a part of and are included in the Interlocking T&P Jct.

Power-operated switches between Browder and Dallas Union Terminal and the signals in connection therewith are controlled by Signalman at North Tower, Dallas Union Terminal, and form a part of the Dallas Union Terminal Interlocking.

Power-operated switches at east end siding Fort Worth and at each end of sidings, Arlington Grand Prairie and Browder and the signals in connection therewith controlled by Train Dispatcher Fort Worth.

Whitesboro Sub-Division

Power-operated switch and deraill south end Drill Track Belt Jct., and at south end siding Hodge; Switches, deraill and signals in connection therewith controlled by operator, Hodge.

Power-operated switch at Junction of the T&P and MK&T main tracks at Whitesboro and signals in connection therewith controlled by operator Whitesboro.

1. Should a train or engine approach a power-operated switch and find it not lined for the movement to be made, a member of crew must communicate with train dispatcher or operator.

2. If permission is given to proceed, all power-operated switches located in the block governed by that signal must be examined and points known to fit properly before proceeding over such switches.

3. When a signal governing a movement over a power-operated switch indicates "STOP," except as authorized by Authority Card, Form 157 and Rule 663, movements must not be made over switch until switch is placed in hand throw position and engineman notified.

4. Rail sand must not be used or water allowed to run from any locomotive between signals governing movements over power-operated switches.

STREET AND HIGHWAY CROSSING SIGNALS

Flashing-light and wig-wag signals located at street and highway crossings protect main track movements only. Before permitting train, engine or cars to pass over such crossings on auxiliary tracks, movements must be protected by flagman. Reverse movements, or forward movements after making reverse movements must be protected by flagman on both main and auxiliary tracks.

Flashing-light and wig-wag signals on two main tracks at Claiborne Avenue, Mansfield Road and Midway Street crossings between Shreveport Jct. and Hollywood Yard are operated by trains and engines moving with the current of traffic only. Trains and engines moving against the current of traffic must protect these crossings before passing over.

Flashing-light signals controlled by watchman located in tower at Jackson Street govern movement of street traffic at crossings of Lee, Washington, Murray, Jackson, Madison and Monroe streets and Park Ave., City of Alexandria.

Approach of trains and engines on either main track is indicated to watchman by lights on chart located in tower and signals are operated by watchman when these indications are shown. Switching movements must not be made or cars shoved over street crossings Alexandria until it is known by member of crew in position to observe same that flashing light signals are operating or that crossing is otherwise protected.

Trains and engines using other than main tracks over these street crossings, or doing switching on either main track, must signal watchman by operating toggle switch located in box on side case. Toggle switch must be placed in the "ON" position before movement is started and must remain in this position until crossing is cleared, whereupon it must be restored to "OFF" position. Watchman will operate signals while switch is in "ON" position.

Circuits are so arranged that approach of an eastward train or engine on eastward track is not indicated in tower when either the east switch of No. 4 track or switch leading to Old Mo. Pac. yard, just west of Monroe Street, is open, if necessary to make an eastward movement over Monroe Street while either these switches are open, the toggle switch at Monroe Street must be operated. Circuits are so arranged that approach of a westward train or engine on westward track is not indicated in tower when switches to Team or House track located west and east of Madison Street crossing are open. If necessary to make westward movement over Madison or Monroe, or an eastward movement over Madison or Park Avenue crossing on westward track while either of these switches are open, the toggle switch at crossing to be used must be operated.

Trains or engines moving west from passenger station tracks must not obstruct Park Avenue until a member of crew has signaled watchman by operating push button located on post under umbrella shed, near west end of passenger station. The sounding of engine bell on eastbound passenger or other trains or engines moving out of passenger tracks will be signal for towerman to operate flashing light signals on Jackson Street crossing.

Special Instructions

ALL SUB-DIVISIONS

SPECIAL INSTRUCTIONS GOVERNING THE MOVEMENT OF TRAINS AND ENGINES BY BLOCK SIGNALS

1. In the following designated territory trains and engines will be governed by block signals whose indications will supersede the superiority of trains as provided for in Rules 261 and 269 inclusive:

Between West Bridge Jct. and Avondale.

Between end two main tracks Donaldsonville, M. P. 64.8 and east end siding Donaldsonville, M.P. 62.9.

Between Willow Glen and end of two main tracks Alexandria Yard, Mile Post B-192.0.

Between east end siding Lucas and Cut Off Jct. Interlocking.

Between Cut Off Jct. Interlocking and junction switch, Reisor.

Between Texarkana and West End Siding Big Sandy.

Between East and West end siding Terrell.

Between T&P Jct. and east end siding Orphans Home.

Between U.T. Jct. and east end siding Fort Worth Yard.

Between North switch siding Hodge and end two main tracks Peach Street, Fort Worth.

2. When permission to proceed is given as provided in Rule 265, all power-operated switches located in the block governed by that signal must be examined and points known to fit properly before proceeding over such switches.

3. When permission is given to a conductor or engine foreman by telephone under rule 267, the conductor or engine foreman must repeat to the train dispatcher or operator the track or tracks to be used, working limit on such track or tracks and the time limit and receive the response "OK" and the time before such permission is acted on.

4. Exception to Rule 266 and 266 (b):

(a). Between West Bridge Jct. and Avondale, engines may enter the main track at a handthrow switch where there is no signal to authorize the movement and use the main track without permission of the Train Dispatcher, but must clear first-class trains sufficiently in advance to avoid delay by block or interlocking signals, and must give way to other trains as promptly as possible.

(b). Yard engines may use the main track between Texarkana and the west end siding National; between U. T. Jct. and the west end siding Browder, and yard engines and engines in charge of Hostlers may use the main track between west end Water Track and west end Longview, M. P. 90.1, without securing permission from the Train Dispatcher, but must clear first-class trains sufficiently in advance to avoid delay by block or interlocking signals, and must give way to other trains as promptly as possible.

(c). Yard engines leaving the main track at M&ET yard and Darco Plant, Marshall must report themselves clear of main track and secure permission before again occupying main track.

(d). These exceptions to rule do not modify observance of Rules 104, 511 and 513.

5. Exception to Rule 97: Extra trains may be run without train orders between Texarkana and Big Sandy and between U. T. Jct. and Fort Worth (Passenger station); clearance card at initial station as prescribed by Rule 83 (a) will authorize the movement and identify the train as an extra. An extra train originating at a station not an open train order office may leave without a clearance card.

A westward train authorized to run extra from a Shreveport Sub-Division station to a Dallas Sub-Division station west of Marshall may leave Marshall without a clearance card when westward train order signal Marshall indicates proceed.

6. Eastward trains or engines moving from Alexandria Yard through crossover at Mile Post B-191.0 or end of Drill track Mile Post B-190.4 will not obstruct main track until operator Alexandria yard has been notified by a member of crew and proper signal indication displayed.

7. Annunciator system, of the miniature semaphore type, governing trains leaving Texarkana located on train shed post immediately west of stairway tracks 4, 5, and 6 for Passenger Trains and on post at extreme west end Passenger Track 6 for freight trains. Conductor will push button located on miniature signal case which will indicate to Towerman Texarkana that train is ready to depart; and the train must wait until miniature semaphore signal clears. If miniature signal does not clear promptly, notify Towerman Texarkana and be governed by his instructions.

8. When a train announces ready to leave Texarkana, the Towerman will notify Train Dispatcher and be governed by his instructions.

9. The signalman at North Tower, Dallas Union Terminal, will report to the train dispatcher Fort Worth the departure of westward trains, also the westward movement of yard engines when such movements are to Browder or beyond.

10. When necessary to use train order in connection with movements between U. T. Jct. and Fort Worth the following station names will refer to crossovers located as follows:

<u>Station</u>	<u>Location</u>
Handley	M.P. 239.1
Cloudy	M.P. 222.0

Harrys	M.P. 217.5
Harrys	M.P. 217.3

11. Yard Engines moving between Fort Worth and Belt Jct. or Hodge will not leave Peach Street, Belt Jct. or Hodge until operator has been notified by foreman of the move to be made and proper signal indication displayed.

12. Yard engines doing work at Belt Jct., Hodge or at Compress track north of Peach Street, Fort Worth must not occupy main track until permission is obtained from operator and proper signal indication displayed. Telephones for communicating with operator Hodge are located at Second Street Fort Worth, south end of Drill track Belt Jct. and at north and south crossover at Hodge.

Special Instructions

SHREVEPORT SUB-DIVISION

First Class trains will run at Reduced Speed between Texmo Jct. and Willow Glen.

Time Eastward trains Texmo Jct. applies at connection to Mo. Pac. southward main track; time westward trains Texmo Jct. applies at connection to Mo. Pac. northward main track.

Time at Shreveport Jct. applies at end of two main tracks, M.P. B-324.4.

Inbound EASTWARD first class trains, and outbound WESTWARD first class trains must secure clearance card and check on register Cut Off Jct.

First Class trains must secure clearance card at Alexandria Dispatchers office before leaving Alexandria Passenger station; all second class and extra trains may leave Alexandria Passenger station without clearance card.

Exception to Rule S-83: Eastward trains departing Reisor on Shreveport Sub-division may leave Reisor without ascertaining whether all trains due, which are superior or of the same class, have arrived or left.

Exception to Rule 88 (a): Mo. Pac. No. 101 is authorized to assume schedule of No. 718 and Mo. Pac. No. 103 is authorized to assume schedule of No. 716 Texmo Jct. to Alexandria without clearance card.

No. 27 arriving Reisor on Pleasant Hill Branch may assume schedule of No. 28 and leave Reisor without clearance card, and an Eastward Extra train originating at Reisor may leave Reisor without clearance card.

Exception to Rule 95: Between Texmo Jct. and Willow Glen Mo. Pac. and GCL trains when so designated by Mo. Pac. or GCL train orders may display signals for a following section without train order authority from the Superintendent.

Exception to Rule 97: Between Alexandria Yard and Texmo Jct. trains may run extra with the current of traffic without train order authority.

Between Reisor and Cut Off Jct. trains may run extra without train order authority.

Between Texmo Jct. and Alexandria Yard second class and inferior trains and engines may run ahead of overdue first class without train order authority, but will not enter these limits when it is known a first class train will be delayed.

Alexandria is register station for first class trains only.

Cypress is register station for Nos. 20, 23 and 27 only.

All trains will register at Cut Off Jct. by register ticket, except those originating and terminating that point.

Interlocking Rules govern movement within Home Signal limits Texmo Jct.; all signals controlled by T&P Train Dispatcher, Alexandria.

When a signal Texmo Jct. displays a Red light with letter "S" indication is: "Stop and throw switch." After switch or switches have been thrown for intended movement train or engine will be governed by indication displayed by the signal. Hand throw switches Texmo Jct. must not be thrown for an intended movement when signal governing movement does not display a Red light with letter "S."

When a train or engine finds a "stop" indication displayed for a route to be used a member of crew must communicate by telephone with T&P Train Dispatcher and authority to proceed may be given by telephone; before proceeding it must be known the route is properly lined for the movement.

East end crossover, Mile Post 195.7, Texmo Jct. electrically locked.

L&A main track switches breaking out of T.&P. main track, Mile Post B-330.6 electrically locked. Operating instructions inside of electric lock case.

Between Shreveport Jct. and Shreveport (Passenger Station.)

All trains and engines move at Reduced Speed (proceed prepared to stop short of train or obstruction) between Shreveport Jct. and Mile Post 1, Texarkana Sub-Division, and Shreveport (Passenger station).

Inbound first class trains will use Texarkana Sub-Division main track from TS&N Jct. to North Wye switch and back around wye into Passenger station. Outbound movement will be straight-away over main track.

Between Shreveport Jct. and Shreveport (Passenger station) second and inferior class, extra trains and engines may run ahead of overdue first class trains without train order authority, but will not enter these limits when it is known a first class train will thereby be delayed.

Second and inferior class, extra trains and engines will not foul main track between Shreveport Jct. and Shreveport (Passenger station) on the time of first class trains without permission from Train Dispatcher, Alexandria.

Second and inferior class, extra trains and engines, including yard engines of foreign lines making interchange movements, will not foul automatic block circuits, or main track between Shreveport Jct. and McNeil Street, or block circuit north of North Wye switch until it has been ascertained all overdue first class trains have arrived and departed.

Dispatchers telephones located as follows:

End two main tracks, Shreveport Jct.

East end yard tracks, Shreveport Jct.

Between IC and KCS Interchange connections, near Culpepper Street.

TS&N Jct.

West end Passenger Shed near McNeil Street.

City telephone 1000 feet north of North Wye switch, Texarkana Sub-Division.

Employees of the I.C., K.C.S., L.&A., and Mo. Pac. Railroads are subject to the Rules, Time Table and Special Instructions of the Texas and Pacific Railway while occupying its tracks.

Employees of the Texas and Pacific Railway performing service on L.&A. tracks in Lorraine yard limits, east of Waskom, will be governed by the Rules, Time Table and Special Instructions of the L. & A. Ry. while occupying its tracks, protecting movements as required by rules.

Standard Clocks: Marshall, Hollywood Yard, Cut Off Jct. Alexandria.

Other Passenger Train Flag Stops.

Trains	Stations	Mile Post
20-24-27	Zimmerman	B-211.7
20-27	Montrose	B-232-2
24	Armistead	N-37.3

Nos. 20-27 Lena, M.P. B-216.9. Regular Stop.

No. 21 Gahagan: to discharge passengers from Addis and beyond.

No. 23 Zimmerman: to discharge passengers from Alexandria and points east and to receive passengers for Natchitoches and points beyond where scheduled to stop or flag. Chopin: to discharge passengers from points east of Alexandria.

No. 26 Gahagan: to receive passengers for Addis or beyond.

Special Instructions

DALLAS SUB-DIVISION

Schedule meeting point Nos. 2 and 237 applies at Water track, Longview.

Time of first class westward trains Marshall applies at Shreveport Sub-Division junction switch.

Time at Dallas shown for information only.

Time at Grand Prairie and Arlington applies at Station.

Time arrival and departure Nos. 501 and 502 Ft. Worth (Passenger Station) applies at G.C.&S.F. Passenger Station.

Time of departure Lancaster Yard and arrival Ft. Worth Nos. 2 and 8 shown for information only.

Time of departure Ft. Worth and arrival Lancaster Yard Nos. 7 and 11 shown for information only.

Mineola Yard is train order office for Second and inferior class trains only.

No. 501 and westward trains originating at Dallas (Union Terminal) must secure clearance card at Dallas (Union Terminal) train order office.

Ft. Worth (Passenger Station) is a train order office for first-class trains and all other trains originating at that point; other trains may leave that station without clearance card.

Marshall register station for Nos. 6, 11, 54 and 55 only.

Longview register station for Nos. 201, 202, 237, 238, 266, 267 and 269 only.

Mineola Yard register station for second class and inferior trains only.

All trains will register at T&P Jct. by register ticket.

Dallas (Union Terminal) register station for Nos. 501 and 502 only.

Ft. Worth (Passenger Station) is a register station for first-class trains and trains originating or terminating at that station.

Between St.L.-S.W. Ry. crossing, Bonham Sub-Division connection with K.C.S. Ry. near Compress, and Texarkana Passenger station, ALL TRAINS AND ENGINES must move at REDUCED SPEED and will not exceed a maximum speed of ten (10) miles per hour.

First Class trains must run at REDUCED SPEED between East switch Water Track and Fredonia Street Longview; and between the east end siding Ft. Worth and Ft. Worth (Passenger station).

All Trains and Engines must approach St.L.-S.W. Ry. and Bonham Sub-Division connections, Texarkana, prepared to STOP unless the switches and signals are right and the track clear.

Second class and inferior trains, yard and other engines may run ahead of overdue EASTWARD first class trains between mile Post 250, Lancaster Yard, and east end siding Ft. Worth, Mile Post 244.2, without train order authority, but will not occupy the main track within these limits when it is known a first class train will be delayed.

Second class and inferior trains may run ahead of overdue WESTWARD first class trains between east end siding Ft. Worth, Mile Post 244.2, and Mile Post 250, Lancaster Yard, without train order authority.

Yard and other engines may run ahead of overdue WESTWARD first class trains between east end siding Ft. Worth, Mile Post 244.2, and Mile Post 250, Lancaster Yard, without train order authority, but will not occupy the main track within these limits when it is known a first class train will be delayed.

Electric Locked Hand-throw Switches: Main track hand-throw switches at east end Drill Track Willow Springs and all main track hand-throw switches between this location and east end siding Big Sandy are electrically locked. Electric lock on switch at west end Drill Track Willow Springs is manually controlled by Operator Marshall; all other electric locks are automatically controlled.

Employees of the FW&DC, GC&SF, I-GN, KCS, M-K-T, StLSF&T and T&NO Railways are subject to the Rules, Time-Table and special Instructions of the Texas and Pacific Railway while occupying its tracks.

Between U. T. Jct. and T&P Jct. employees of the Texas and Pacific Railway are subject to the Rules, Time Table and Special Instructions of the T&NO RR and to Rules and Special Instructions of the Union Terminal Co., Dallas while occupying their tracks.

Standard Clocks: Texarkana, Marshall, Longview, Mineola Yard, Dallas Yard, Dallas Union Terminal, Ft. Worth (Passenger station).

OTHER PASSENGER TRAIN FLAG STOPS

Train	Stations

SAFETY RULES GOVERNING EMPLOYES IN TRAIN, ENGINE, AND YARD SERVICE

The Company requires that every precaution be taken to prevent injuries to employees or others

THE FOLLOWING IS PROHIBITED:

- (1) Going between moving cars or engines to couple, uncouple or adjust air hose, stop air leaks, or operate knuckle lock pins.
- (2) Lining or adjusting draw bars or opening draw bar knuckles with hand or foot while cars or engines are in motion.
- (3) Alighting from or boarding a moving engine or car from a position between the rails, or a rapidly moving train or engine.
- (4) Riding on foot board of engine between engine and cars when pushing cars, or when coupling engine to cars.
- (5) Riding on ends or inside of cars containing loads which are liable to shift from impact when coupling is made, or during ordinary train movement.
- (6) Riding on draw bars, ladders, hand holds, or any other appurtenances on the facing ends of cars when such cars are being pushed.
- (7)
 - (a) Giving signal to move an engine or cars and then crossing track in front of movement.
 - (b) Giving signal to move an engine or cars without first placing switch in proper position.
 - (c) Throwing or attempting to throw switch too short a distance ahead of an approaching train or engine.
 - (d) Enginemen drifting down too close to switches that are to be thrown.
- (8) Staking or poling out cars when practicable to avoid it. When done, employe should follow the push pole.
- (9) Permitting any car with a defective or missing hand hold to be moved or set out without first notifying all employes on the train and making wire report to the Superintendent.
- (10) Pushing cars or backing engines over public crossings at grade without signal from member of crew on leading car, rear of engine tank, or on crossing. Crossings must be approached prepared to stop.
- (11) Leaving cars standing on tracks too near street or highway crossings. Cars must be left at least sixty (60) feet away from crossing where possible.
- (12) Hanging dope pails on hand holds, door guides, or side or end ladders of cars.
- (13) Hanging squirt hose over or through locomotive hand holds, or in gangways between engine and tender, except where brackets have been provided to retain in such a position it will not be mistaken for a hand hold.
- (14) Tightening packing nuts on lubricator glasses or water gauge glasses while there is any pressure within the glasses.
- (15) Opening blow off or cylinder cocks near a building, street, highway, or in any location where escaping steam and water may cause injury or inconvenience to persons or damage to property. Starting and shutting off injectors on engines which have overflow pipes outside of ash pan without first ascertaining that no one is near or liable to injury.
- (16) Riding on locomotive (footboards, pilots, or elsewhere) or on cars or trains in yards by employes whose duties do not require them to do so unless authorized by proper authority.
- (17) Throwing any object from a train or engine without first ascertaining whether any person is nearby who might be struck and injured.
