**ALGOMA CENTRAL RAILWAY LANDS FOR PROSPECTING**

The lands along the line of the railway offer splendid opportunities to prospectors.

The largest bodies of iron ore and pyrite in Canada have been found in this district.

One of the largest areas in Ontario favorable for the occurrence of gold exists in the Michipicoten, Goudreau and adjacent areas. Five gold mines are in steady production and other gold mines are in the making.

Only a small part of the favorable area has yet been explored. Existing transportation facilities make all parts of this area easily accessible. Cheap electric power is already available at many points.

All lands owned by the Railway Company are open for prospecting and claims are staked in the same manner as on Crown Lands.

A mining license enabling a prospector to stake three claims costs One Dollar.

The Railway Company maintains a Mines Department, including assay office, and every facility is offered those interested in mining in this area.

Prospectors may obtain return tickets at single fare rates, good for ninety days, upon presentation of permit which must be secured from Railway Mines Department at Bruce St. Station, Sault Ste. Marie.

All claims staked on Railway Lands are recorded at the office of the Company at Sault Ste. Marie.
