"We HEAT with ANTHRACITE"

... This is another familiar phrase ... a phrase which is on the lips of millions of American and Canadian fuel buyers with the arrival of each Fall and Winter. Again, why?

- 1st—because Anthracite is clean and smokeless.
- 2nd—because Anthracite is an economical fuel.
- 3rd—because Anthracite is dependable. The supply is adequate.
- 4th—because Anthracite is safe. It has never been known to explode.
- 5th—because Anthracite gives you the convenience of few firing periods—the comfort of steady, even heat.
- 6th—because it can be used in fully automatic equipment.

Have you investigated the outstanding advantages of automatic heat with Anthracite? If not, why not do so in the near future. Your local Anthracite dealer will be glad to give you full details.
