A large illustration of a train on tracks, viewed from a high angle. The train is moving towards the bottom left. A compass rose is located in the bottom right corner of the illustration, with lines connecting it to the train's path. The compass rose shows cardinal directions and is surrounded by a circular border with text.

## A GUIDE TO POINTS OF INTEREST IN THE EAST SHORE EMPIRE

OAKLAND'S SKYLINE ACROSS LAKE MERRITT

**A**LL street railway and motor coach lines, with the exception of "KEY SYSTEM" trains, are distinguished by route numbers, as designated in the map on the inner page. The numbers given after each point of interest indicate the lines by which it may be reached; in a few instances a short walk may be necessary. Free transfers are interchanged between street railway and motor coach lines and those portions of the urban lines of the "KEY SYSTEM" which are devoted to local service. If you are not near the line which operates to the point to which you wish to go, you may transfer to it from any connecting line. The exact course of each line is shown in the map.

**CHARTER SERVICE**—To any point in California  
Motor Coaches available for any occasion
