This folder is for public information. The utmost care is taken to keep it revised to date of issue, but these Railways cannot guarantee perfect accuracy nor be responsible for any existing errors. The right to deviate from or change the figures herein without previous notice is reserved. While these Railways employ every reasonable effort to operate trains on schedule time, they do not guarantee that trains will run according to schedule nor that they will make connections at junction points with the trains of any other line. All tickets are sold subject to delays caused by the elements or other unforeseen circumstances.

## GENERAL INFORMATION

### LOCAL REGULATIONS

**STANDARD TIME**—Central time is used throughout this folder.

If tickets are not redeemed on the date of sale they should be forwarded to the Traffic Manager within thirty days from the date of expiration thereof, after which time they will have no redemption value.

**LIMIT OF TICKETS: STOPOVERS**—Local tickets are good only for continuous passage starting on date of sale and without stopovers.

Through one-way coupon tickets from or to points in the United States, Canada, etc., will be honored for continuous passage within limit, except when stopover privileges are specifically authorized. Journey must begin on date of sale as stamped on back of such tickets. Passengers changing trains at junction points may take the first or second connecting train and will not be considered as having made a stopover. Journey must be completed, however, prior to midnight of expiration date.

Passengers should notify train auditor or conductor of such losses and pay their fare to him or purchase another ticket whenever requested; auditor's or ticket agent's receipt will be given for the amount paid. Such a receipt with explanation of the circumstances should be forwarded to the Traffic Manager and if the ticket is found and returned unused, the additional fare paid will be refunded.

**ADJUSTMENT OF FARES**—In case of disagreement with train auditors or agents, passengers should pay the fare required, take receipt, and refer the matter to the Traffic Manager. Employees have no discretion in such matters, but are governed by rules.

**PULLMAN CARS**—Only passengers holding first-class railroad and Pullman transportation are allowed to ride in Pullman cars.

A minimum of two (2) adult one-way tickets or their equivalent, will be required for the exclusive use of a drawing-room in a sleeping car, one and one half tickets (1½) for a compartment and one (1) adult ticket, or its equivalent, for a section.

The occupancy of sleeping car space by children under twelve years of age is governed by tariff rules which will be explained by conductors.

**PULLMAN SLEEPING CARS** are owned and operated by the Pullman Company, and are hauled under contract, and these Railways are not responsible for the conduct of the employes thereof. Our agents in selling Pullman tickets act simply as agents for the Pullman Company. All Pullman conductors and practically all porters speak both English and Spanish.

Local tickets reading between points in Mexico carry one hundred and ten pounds free allowance.

Each passenger is permitted to carry in coaches a maximum of fifty-five pounds of hand baggage not exceeding 26 inches in length and 16 inches in width and which will not serve to incommode other passengers nor occupy too much space. Hand baggage in Pullman cars is restricted to what can be conveniently placed in the berth, seat, or other accommodations occupied.

**LIMIT OF WEIGHT OF SINGLE PIECES**—No single piece of baggage weighing over two hundred and fifty pounds will be accepted for transportation in baggage service.

**LOSS OF BAGGAGE**—Baggage which is not securely fastened or locked will not be checked.

**CORPSE**—A corpse (whether adult or child) will be carried in baggage car on two full first-class tickets, provided it is accompanied on the train by a person holding one first-class ticket to the same destination and via the same route, and provided the corpse has been prepared in accordance with regulations of these Railways and connecting lines, and the necessary documents have been procured, excepting that the remains of persons dead of infectious diseases will not be received for transportation. Dogs and cats in crates, or provided with collar and chain and check showing owner's name, address and destination of ticket, also birds and other domestic animals in cages, may be carried in baggage cars upon payment of \$1.00 (Mexican Currency) for distances under 250 kilometers, \$2.00 (Mexican Currency) for distances 250 kilometers to 500 kilometers; for greater distances \$3.00 (Mexican Currency) for each animal or cage, entire amount to be paid to first messenger. Not more than two dogs or cats or one cage with birds will be carried in connection with each ticket.

**LOST ARTICLES**—In case articles are left on trains or at stations, communicate at once with Traffic Manager, Mexico City, giving full particulars. No responsibility is assumed for unchecked articles left in stations or cars.

**STORAGE** on baggage will be charged at the rate of \$0.25 (Mexican Currency) daily for one hundred and ten pounds or fraction thereof, if unclaimed within two days following the date of arrival.

**CAUTION**—To insure the forwarding of baggage on the same trains by which passage is taken locally in Mexico, it should be delivered at stations at least thirty minutes before the advertised time for departure of trains. It is necessary to present passage tickets to Station Baggage Master when baggage is checked.

Passengers from Tampico or other points between Monterrey and Tampico en route to the United States or Canada and who occupy space in Pullman sleeping car leaving Tampico daily should check their baggage one day prior to departure so as to insure its being at the border when they arrive.

Many fast trains in the United States and Canada carry only a limited amount of baggage, hence all passengers enroute to Mexico from points in those countries are advised to check their baggage so as to insure its being on the same train on which they arrive at the border port of entry.

**BAGGAGE FROM AND TO THE UNITED STATES, CANADA, ETC.**—Baggage northbound must be re-checked at El Paso, Eagle Pass, Laredo, Brownsville, Texas or Nogales, Ariz.

Baggage southbound must be re-checked at Ciudad Juarez, Chih. (opposite El Paso), Piedras Negras, Coah. (opposite Eagle Pass), Nuevo Laredo, Tams. (opposite Laredo), Matamoros, Tams. (opposite Brownsville) or at Nogales, Son. (opposite Nogales, Ariz).

Baggage entering the United States is examined by the Mexican and the United States officials at port of departure and port of entry, respectively.

The inspection of baggage is quickly and courteously made, and passengers should have their keys ready to open baggage when requested by the Custom officer.

Hand baggage is inspected in the Pullman cars upon arrival at the border; hand baggage in day coaches and baggage under check is inspected in revision room.

All dutiable articles should be so declared on blanks which will be furnished by the inspectors.
