

I-5 Corridor

Service at Southern Pacific means ...

- **Actual day of the week schedules – not average transit times**
- **Consistent transit times**
- **Pro-Active Monitoring to ensure we deliver on the scheduled date.**

Use this guide to determine Quality Service Carload Schedules to and from locations in the Pacific Northwest, the San Francisco Bay Area, and the Los Angeles Basin.

As an example, the following steps should be taken for a shipment originating in Portland, Oregon, and destined Anaheim, California ...

- 1: Look up Portland in Index or on Pacific Northwest map on page 4. Portland is in Zone PNW-1.**
- 2: Look up Anaheim in Index or on Los Angeles map on pages 8 and 9. Anaheim is in Zone LA-1.**
- 3: Look at the Matrix for zone of origin (PNW-1) located on Page 5. Find the day the car was released, then trace that day down the column to zone of destination (LA-1). The release day determines the day the car will be spotted.**
