**Criticism and Commendation of the Railway Service and Suggestions for its Improvement
Are Invited by United States Railroad Administration from the Public**

The Railroad Administration is being conducted with these principles in view:
Fidelity to the public interest, a square deal for labor with not only an ungrudging, but a sincere and cordial recognition of its partnership in the railroad enterprise, and fair treatment for the owners of railroad property, and for those with whom the railroads have business dealings.

Recognition of these principles should go far to promote mutual understanding.
Information and suggestions tending to further such an understanding and improve service to the public, are welcome. It is requested that all communications be brief and explicit, and that where it is necessary to fix responsibility, the date, time, train number and name of the railroad and employe complained of or commended shall be given. All communications must bear the name and address of the writer distinctly written.

Bureau for Suggestions and Complaints,
