Magna Carta for TRANSPORTATION

The railroaders of America, responsible for meeting our country's transportation needs in war and peace, solemnly declare that their industry is in jeopardy to the detriment of the national interest.

A major cause of this condition lies in unequal government treatment compared with other forms of transportation — in over-regulation, subsidization of competition and inequitable tax policies which discriminate against railroads.

As a result of these conditions, thousands of jobs in the railroad and related industries have been lost and more thousands are in jeopardy, the public has been denied the kind of fast, low-cost transportation a dynamic economy demands, and the nation's defense capability has been weakened to an alarming degree.

The national interest cries for an end to such distressful conditions. These are matters of legislative determination and can be corrected only by legislative action.

We, the railroaders of America, therefore respectfully petition the Congress of the United States and the governing authorities for the following Four Freedoms·

- Freedom from discriminatory regulation
- Freedom from discriminatory taxation
- Freedom from subsidized competition
- Freedom to provide a diversified transportation service

Railroaders seek no favors or special privileges. They seek only equality of treatment for all forms of transportation — the traditional American concept of fair play.

AMERICAN RAILROADS

The Association of American Railroads 21-man Board of Directors have issued a formal plea to the Congress and to the new administration to head off a major crises in the industry, contending that the major cause of the railroads' difficulty lies in unequal government treatment compared with other forms of transportation.

The Railroads' "Magna Carta" sums up the industry's legislative necessities listed as the "Four Freedoms for Transportation"

We earnestly solicit support of the public in this drive for Equal Treatment by Government for all Carriers INCLUDING THE RAILROADS.
