

ake home this jolly Santa
to decorate your Tree
He brings you Christmas greetings
And good wishes from S.P.

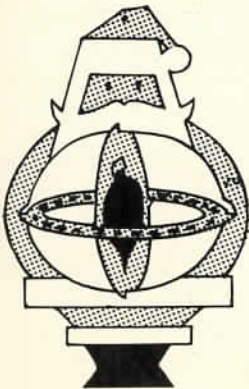

BOB GILMORE
and all your friends at Southern Pacific

HOW TO DO IT:

① Remove Santa by carefully breaking perforations around outside edge. Rotate first inside ring (with trains) 90 degrees so that trains face up.

② Rotate second inside ring 90 degrees so that ornament design is upright. Lock notches in place at top and bottom of this ring.

③ Rotate ornament into plane parallel with outside ring. Punch out hole in Santa's cap for suspension thread or hook.
