AVOID DAMAGE—SWITCH CUSTOMERS CARS CAREFULLY

OVERSPEED Couplings are DAMAGING - Here's what happens:

Speed	SAFE COUPLING SPEED
4 miles per hour <input type="checkbox"/>	Damage Begins
5 miles per hour <input type="checkbox"/>	2½ times as damaging as 4 MPH
6 miles per hour <input type="checkbox"/>	3 times as damaging as 4 MPH
7 miles per hour <input type="checkbox"/>	4 times as damaging as 4 MPH
8 miles per hour <input type="checkbox"/>	5 times as damaging as 4 MPH
9 miles per hour <input type="checkbox"/>	6 times as damaging as 4 MPH
10 miles per hour <input type="checkbox"/>	

Damage to freight or car can be avoided by always keeping coupling speed within the safe range — NOT OVER 4 MILES PER HOUR—A BRISK WALK.

HANDLE FREIGHT CAREFULLY AND KEEP OUR CUSTOMERS.

IT'S EVERYBODY'S JOB ON THE SANTA FE.

SPECIAL RULES.

Rules 16, S-89 (A) and 104 (A) of the Rules, Operating Department, revised 1953, are amended as follows:

- Rule 16: (e): Canceled, (l) and (m) amended to read:
 (l): ———— When standing — apply or release air brakes.
 (m): ———— When running — brakes sticking; look back for hand signals.

NOTE:—Hand or lamp signals must be given in addition to communicating signals (a), (c) and (l).

Rule S-89 (A). Amended to read: At meeting point, the train holding main track must stop clear of the track to be used by the train to be met and, if practicable, be protected by lining the switch.

Rule 104 (A). Amended to read: When a train is clear of main track, to be met or passed by another train, employe attending the switch will not go nearer the switch than the clearance point until the expected train has been met or has passed.

When a train is on the main track, to be met or passed by another train, employe attending the switch will, after lining and locking it, immediately return to the clearance point and remain back of that point until expected train clears the main track.

When necessary to go beyond the switch in flagging, the flagman must remain at least 150 feet away from the switch while approaching train is passing over it.

The conductor or engineman must have an oral understanding with the employe attending the switch as to the required handling under this rule.

Employes using switches must observe whether switch points fit properly after switch is lined, and must grasp the lock chain and pull it to insure that the lock is securely fastened.

Employes, in alighting from trains to change switches, must get off on opposite side of train from switch stand when to do so will not endanger their safety.

Crews of trains which are clear of main track must not give "proceed" signals to approaching trains.

1. Except as otherwise provided, Eastward Trains are superior to Westward Trains of the same class.

25. STATUTORY REGULATIONS.

In KANSAS, it is lawful for the Conductor to eject from the train any passenger who refuses upon demand to produce a proper ticket or other transportation, or pay his fare to his destination, and he may be expelled at any point on the line of the road at which there is a station where the person ejected may at least get lodging.

The Kansas statutes prohibit gambling and the practice of any confidence games.

Drunken or disorderly persons may lawfully be expelled from the train at any place, provided the place is not such as to cause want or injury; this may be done whether fare has been paid or not.

In OKLAHOMA, a passenger who refuses to pay his fare, or to conform to any lawful regulation of the carrier, may be ejected from the vehicle by the carrier. But this must be done with as little violence as possible, and at any usual stopping place, or near some dwelling house. After having ejected a passenger, a carrier has no right to require the payment of any part of his fare.
