

PENNSYLVANIA COMPANY.

OFFICE OF THE DIVISION FREIGHT AGENT.

CIRCULAR NO. 138,

Superseding Circulars Nos. 119 and 133.

CLEVELAND, O., July 2nd, 1900.

TO AGENTS AND PATRONS:

The following is a list of consignees and of regular delivery points on the Pennsylvania Company's tracks in the Cleveland-Newburgh District for Less than Car Load freight, with billing instructions to govern; also list of Shippers and Receivers of freight in Car Loads, showing their location on tracks of Cleveland & Pittsburgh Railroad and Connecting Lines at all junction points, cost of switching Car Loads between our tracks and such parties located on connecting Lines, and information as to whether we equalize this cost or not.

On page 12 will be found List of Foreign Lines with which the Cleveland & Pittsburgh Railroad have direct track connection, and make free delivery of car load business at junction points when destined beyond.

Also method of handling less than car load business at junction points, when destined beyond and cost for this service:

CLEVELAND AND NEWBURGH DISTRICT.

This Company has five freight stations within the city limits of Cleveland, namely: Cleveland, Wason St. Station, Euclid Ave. Station, Woodland Ave. Station, and Newburgh. Track deliveries of car loads of inbound freight are made in the several districts, which include about twelve miles of main track.

Vexatious delays and unnecessary shiftings are frequently occasioned when inbound freight for one station is billed to another, through failure of consignees or shippers to designate the proper point of delivery in shipping directions, or failure of agents to observe instructions when given.

In the following list will be found billing instructions for consignees who require delivery on the Penna. Co.'s tracks, or at Penna. Co.'s freight houses at Wason St., Euclid Ave., Woodland Ave., and Newburgh, car loads or less than car loads, with some exceptions noted, where consignees who receive car loads at one of the stations named above, desire less than car load freight delivered at Cleveland Station.

Freight, both car loads and less than car loads, consigned to parties not named in this circular should be manifested to Cleveland.

Euclid and Woodland Ave. Stations are at the intersection of those avenues with the Pennsylvania Company's tracks, but both streets extend into the down town district for which Cleveland proper is the most convenient delivery. Consignments to parties doing business on either of these avenues *must be billed to Cleveland*, unless the circular locates such parties at Euclid Ave. or Woodland Ave. Stations.

Less than car load shipments are only received or delivered at the regular freight stations of this Company.

Patrons will favor themselves and the transporter by being careful to give full and exact shipping directions. Agents will be particular to see that manifests are made in accordance with the instructions contained in this circular, and when the shipper's directions conflict, call their attention to it, and ask them to correct them, or furnish satisfactory evidence that the directions differing from instructions contained in this circular are given by the Cleveland consignees.

Free Deliveries of Car Load Freight can be made to parties shown in this list as located on foreign lines with exceptions noted. If free Car Loads delivery is wanted for other parties, telegraph to C. F. Perkins, Division Freight Agent, Penna. Co., Cleveland, O.

†Car load deliveries on Belt Line and C. L. & W. Ry. will be subject to \$2.50 per car switching, unless special arrangement is made to absorb this extra charge.

Deliveries to the Lake Lines are made at Cleveland freight station, and manifests for property intended for lake shipment must be made to Cleveland.

This circular does not cover the manifesting or the equalization of connecting line switching on coal and coke. Those commodities will be billed to Newburgh or Cleveland as shippers direct and to Woodland Ave. when for points on the N. Y. C. & St. L. R. R. east of Cleveland, and Agents must apply to the Division Freight Agent for instructions before absorbing connecting line switching.

Car Load Freight must be billed as follows:

No.	DELIVERING RAIL ROAD.	MAKE WAY BILL
1.	Pennsylvania Company.	In accordance with instructions herein.
2.	L. S. & M. S. R'y.	Cleveland.
3.	C. C. C. & St. L. R'y.	Cleveland.
4.	Cleveland Terminal & Valley R. R.	Cleveland.
5.	N. Y. C. & St. L. R. R.	Woodland Avenue.
6.	Erie R. R.	Newburgh.
7.	W. & L. E. R. R.	Newburgh.
8.	Belt Line.	Newburgh, care W. & L. E. R. R. }
9.	C. L. & W. R'y.	Cleveland, care C. T. & V. R. R. } See paragraph above marked †

It will be seen that a number of consignees have establishments on more than one line in the city and that car load deliveries can be made at either, provided freight is billed to proper point.

When deliveries can be made on this line and other lines as well, the freight should be correctly manifested for "Penna. Co. delivery," unless shipping directions require delivery on foreign lines.

For instructions relative to Carding Cars, see circular issued by the General Superintendent of Transportation.

NOTE.—This Circular covers Cleveland-Newburgh District on pages 3 to 7 inclusive.

Junction points south of Newburgh on pages 8 to 11 inclusive.

Information as to interchange with Foreign Lines, Car Loads and less, on page 12.
