RULES AND OTHER GOVERNING PROVISIONS

GENERAL RULES AND REGULATIONS

ITEM	SUBJECT	APPLICATION
5	DESCRIPTIONS OF GOVERNING CLASSIFICATIONS AND EXCEPTIONS....	The terms "Official Classification", "Uniform Freight Classification" and "TLT TB Tariff 90-Series" when used herein mean, respectively: Official Classification 66, I.C.C.-O.C. 66 (Flint Series), Uniform Freight Classification 5, I.C.C. A-5 (Flint Series) and TLT TB Freight Tariff 90-K, I.C.C. A-848 (Boin Series).
10	STATION LISTS AND CONDITIONS.....	This tariff is governed by the Official List of Open and Prepay Stations 75, I.C.C. A-40, Station List Publishing Company, Agent, to the extent shown below: PREPAY REQUIREMENTS AND STATION FACILITIES (a) For additions and abandonments of stations, and except as otherwise shown herein, for prepay requirements, changes in names of stations, restrictions as to acceptance or delivery of freight, and changes in station facilities. When a station is abandoned as of a date specified in the above named tariff, the rates from and to such station as published in this tariff are inapplicable on and after that date. GEOGRAPHICAL LIST OF STATIONS (b) For geographical locations of stations referred to in this tariff by station numbers. STATION NUMBERS (c) For the identification of stations when stations are shown or referred to by numbers in this tariff.
15	EXPLOSIVES, DANGEROUS ARTICLES...	For rules and regulations governing the transportation of explosives and other dangerous articles by freight, also specifications for shipping containers and restrictions governing the acceptance and transportation of explosives and other dangerous articles see Agent T. C. George's Freight Tariff 10, I.C.C. 10.
20	REFERENCE TO TARIFFS, ITEMS, NOTES, RULES, ETC.	(a) Where reference is made in this tariff to tariffs, items, notes, rules, etc., such references are continuous and include supplements to and successive issues of such tariffs and reissues of such items, notes, rules, etc. (b) Where reference is made in this tariff to another tariff by I.C.C. number, such reference applies also to such tariff to the extent it may be applicable on intrastate traffic or traffic to, from or through Canada.
25	TERMINAL OR TRANSIT PRIVILEGES OR SERVICES.....	Shipments made under the rates contained in this tariff are entitled also to terminal and transit services and privileges, and are subject to the charges, allowances, rules and regulations legally applicable thereto, as provided in separately published, lawfully filed tariffs. EXCEPTION When provisions of this tariff specifically cover any such charge, allowance, rule or regulation, corresponding or conflicting provisions in such separate tariffs will not apply.
30	PERISHABLE FREIGHT.	For rates, rules and regulations governing the handling of perishable freight, see Perishable Protective Tariff 17, W. T. Jamison, Agent, I.C.C. 34.
35	TRANSFER BETWEEN CONNECTING CARRIERS.....	The joint rates published herein include all charges for switching, drayage, or other transfer services at intermediate interchange points on shipments handled through and not stopped for special services at such intermediate interchange points.
40	CONSECUTIVE NUMBERS	Where consecutive numbers are represented in this tariff by the first and last numbers connected by the word "To" or a hyphen, they will be understood to include both of the numbers shown. If the first number only bears a reference mark, such reference mark also applies to the last number shown and to all numbers between the first and last numbers.
45	CAPACITIES AND DIMENSIONS OF CARS	(a) For marked capacities, lengths, dimensions and cubical capacities of cars, see Official Railway Equipment Register, I.C.C.-R.E.R. 335, The Railway Equipment and Publication Company, Agent. (b) For gallonage capacities of tank cars, see Western Trunk Lines Freight Tariff 300-H, I.C.C. A-4117 (Pruster Series).

RULES AND OTHER GOVERNING PROVISIONS

GENERAL RULES AND REGULATIONS

ITEM	SUBJECT	APPLICATION
50	COMBINATION RATES- (RULE 56).....	Carriers have endeavored to publish herein rates which do not exceed the aggregate of the intermediate rates between points between which there is an actual movement of traffic, but if there should be in this tariff any rate which is in excess of the aggregate of intermediates, or if through subsequent change in an intermediate factor any rate in this tariff becomes higher than the aggregate of intermediates in violation of the provisions of the Fourth Section of the Act, carriers will reduce such rate to the aggregate of intermediate rates on one day's notice under authority of Rule 56 of Interstate Commerce Commission Tariff Circular 20, on any commodity between points between which there is a movement or a prospective movement of that commodity. The publication of such reduced rate will be made within thirty days after such unlawful rate comes to carrier's notice. Carriers, parties to this tariff, whose rate over the route of movement is higher than the aggregate of the intermediates over that route, further agree that on any shipment on which the higher rate named in this tariff for that route has been charged, application will be made promptly to the Interstate Commerce Commission for authority to award reparation on the basis of the aggregate of intermediates in effect on date of shipment (see Note). NOTE:--Carriers or shippers who discover combinations which result in lower charges than the rates named herein, should promptly report such cases to the publishing agent of this tariff, showing the through rate and the item or page where it is found, together with the separate factors which make up the combination, giving tariff reference by item or page, where possible, for each.
55	SUBSTITUTION OF MOTOR CARRIER SERVICE FOR RAIL SERVICE.....	Applicable only on Interstate Traffic. Less-than-carload shipments handled under this tariff are subject to the provisions of National Substituted Freight Service Tariff 429-A, I.C.C. A-4173, Western Trunk Line Committee, Agent, and where substituted service as authorized therein is performed, rates named herein will apply. Rule 4(1) and 4(k) of Tariff Circular waived; I.C.C. Permission 178475.
60	NATIONAL SERVICE ORDER TARIFF.....	This tariff is subject to provisions of various Interstate Commerce Commission Service Orders and General Permits as shown in National Service Order Tariff 1-D, I.C.C. A-3949, Western Trunk Line Committee, Agent.
65	PROPORTIONAL RATES- APPLICATION.....	Proportional rates, which by their terms are limited in their application to traffic destined to, or originating at specific points or territories, including rates which are published for application on traffic "from beyond", or "when destined beyond", apply only when the entire through transportation is performed by carriers by rail or partly by rail and partly by water under rates lawfully on file with the Interstate Commerce Commission or State Commissions. EXCEPTION The foregoing not to affect any rates now published carrying provisions that rates are applicable on ex-river, ex-ocean, or ex-lake traffic, or on traffic forwarded by river, ocean, or lake from the port.
70	ALTERNATION-RATES- VARYING MINIMUM WEIGHTS.....	When two or more carload rates are provided in the same rate item for application on the same commodity from and to the same points, apply that rate which results in the lowest charge based upon the actual or authorized estimated weight of the shipment, but not less than the minimum weight published in connection with the rate used.
75	METHOD OF CANCELING ITEMS.....	As this tariff is supplemented, numbered items with letter suffixes cancel correspondingly numbered items in the original tariff or in a prior supplement. Letter suffixes will be used in alphabetical sequence starting with A. Example: Item 5-A cancels Item 5, and Item 10-B cancels Item 10-A in a prior supplement, which, in turn, canceled Item 10.

RULES AND OTHER GOVERNING PROVISIONS

GENERAL RULES AND REGULATIONS

ITEM	SUBJECT	APPLICATION
80	INTERMEDIATE APPLICATION-ORIGIN.....	Subject to the provisions of Notes 1, 2, 3 and 4 below, from any point of origin from which a commodity rate on a given article to a given destination and via a given route is not named in this tariff, which point in intermediate to a point from which a commodity rate on said article is published in this tariff via a route through the intermediate point over which such commodity rate applies to the same destination, apply from such intermediate point to such destination and via such route the commodity rate in this tariff on said article from the next point beyond from which a commodity rate is published herein on that article to the same destination via the same route. NOTE 1:--When by reason of branch or diverging lines there are two or more "next beyond" points, apply the rate from the next point beyond (in this tariff) which on that article to the same destination via the same route results in the lowest charge. NOTE 2:--If the intermediate point is located between two points from which commodity rates on the same article via the same route are published in this tariff, apply via that route from the intermediate point the rate from the next point in either direction which results in the higher charge. In applying this note, if there are two or more next beyond points due to branch or diverging lines, eliminate all such next beyond points, except the point from which the lowest charge is applicable. NOTE 3:--If the class rate on the same article via the same route from the intermediate point produces a lower charge than would result from applying the commodity rate under this Rule, such commodity rate will not apply. NOTE 4:--If there is in any other tariff a commodity rate on the same article from the intermediate origin point applicable over the same route to the same destination, the provisions of this rule are not applicable from such intermediate origin point. EXCEPTIONS This rule is applicable in connection with all rates in tariff, except where otherwise indicated. This rule will not apply in connection with items or rates bearing reference to Fourth Section Orders by numbers, nor to rates bearing reference to applications filed for fourth section relief, unless specifically provided to the contrary in individual rate items, unless specific reference is also made to this item. This rule will not apply in connection with proportional rates which by their terms are limited in their application to traffic originating beyond the point or points from which the proportional rate applies.
85	INTERMEDIATE APPLICATION-DESTINATION.....	Subject to the provisions of Notes 1, 2, 3 and 4 below, to any point of destination to which a commodity rate on a given article from a given point of origin and via a given route is not named in this tariff, which point is intermediate to a point to which a commodity rate on said article is published in this tariff via a route through the intermediate point over which such commodity rate applies from the same point of origin, apply to such intermediate point from such point of origin and via such route the commodity rate in this tariff on said article to the next point beyond to which a commodity rate is published herein on that article from the same point of origin via the same route. NOTE 1:--When by reason of branch or diverging lines there are two or more "next beyond" points, apply the rate to the next point beyond (in this tariff) which on that article from the same point of origin, via the same route results in the lowest charge. NOTE 2:--If the intermediate point is located between two points to which commodity rates on the same article via the same route are published in this tariff, apply via that route to the intermediate point the rate to the next point in either direction which results in the higher charge. In applying this note, if there are two or more next beyond points due to branch or diverging lines, eliminate all such next beyond points except the point to which the lowest charge is applicable. NOTE 3:--If the class rate on the same article via the same route to the intermediate point produces a lower charge than would result from applying the commodity rate under this rule, such commodity rate will not apply. NOTE 4:--If there is in any other tariff a commodity rate on the same article to the intermediate destination point applicable over the same route from the same point of origin, the provisions of this rule are not applicable to such intermediate destination point. EXCEPTIONS This rule is applicable in connection with all rates in tariff, except where otherwise indicated. This rule will not apply in connection with items or rates bearing reference to Fourth Section Orders by numbers, nor to rates bearing reference to applications filed for fourth section relief, unless specifically provided to the contrary in individual rate items, unless specific reference is also made to this item. Will not apply in connection with proportional rates which by their terms are limited in their application to traffic destined beyond the point or points to which the proportional rate applies.

TARIFF 1941-E

RULES AND OTHER GOVERNING PROVISIONS

GENERAL RULES AND REGULATIONS

ITEM	SUBJECT	APPLICATION
90	FOURTH SECTION AUTHORITIES.....	This tariff contains rates that are higher for shorter than for longer distances over the same route. Such departures from the terms of the amended Fourth Section of the Interstate Commerce Act are permitted by authority of the Interstate Commerce Commission's Fourth Section Orders as indicated in individual items of this tariff.
100	METHOD OF DENOTING REISSUED MATTER IN SUPPLEMENTS.....	Matter brought forward without change from one supplement to another will be designated as "Reissued" by a reference mark in the form of a square enclosing a number, the number being that of the supplement in which the reissued matter first appeared in its currently effective form. To determine its original effective date, consult the supplement in which the reissued matter first became effective.
105	STRAIGHT OR MIXED CARLOADS OF DIFFERENT ARTICLES	The rates published in this tariff apply on straight or mixed carloads unless specifically indicated.

SPECIAL RULES AND REGULATIONS

UNLIMITED

ITEM	SUBJECT	APPLICATION								
200	REFERENCE MARKS, APPLICATION OF.....	In all cases where reference marks are shown in the rate column, but not opposite a station number or group of station numbers, they are to be used in connection with the rate appearing next under such reference marks.								
205	RULES, REGULATIONS, AND PACKING REQUIREMENTS.....	The commodities for which rates are provided for in this tariff will be subject to all rules, regulations and packing requirements of the governing classification and the Exceptions thereto, as named in Item 5, unless otherwise specifically provided for herein.								
210	NEW YORK HARBOR LIGHTERAGE.....	The rates in this tariff applying from or to stations in or adjacent to New York Harbor (including points within free lighterage limits) are subject to the rates, rules and regulations published in TLT TB Tariff 116-G, I.C.C. A-1108 (Boin Series), and are applicable for account of carriers parties to this tariff.								
215	NON-APPLICATION OF RATES TO MARYLAND AND PENNSYLVANIA RAILROAD.....	Rates named in this tariff from Baltimore Stations, Md. to Stations on the Maryland and Pennsylvania Railroad do not include lighterage or carfloat service at Baltimore, Md.								
220	WATERBORNE TRAFFIC, ADDITIONAL CHARGES FOR.....	When line-haul rates published in this tariff and as same may be amended are applied on Export (Note A), Import (Note B), Coastwise (Notes D or E) or Intercoastal traffic (Note C), such rates are subject to an additional charge of 6 cents per 100 pounds or 120 cents per ton of 2000 or 2240 pounds, as rated (see Exceptions). EXCEPTIONS Will not apply on: (1) Flaxseed, in bulk handled through grain elevators or other bulk grain facilities at the port. (2) Bulk Ore, viz.: <table><tr><td>Bauxite Ore</td><td>Manganese Ore</td></tr><tr><td>Cryolite Ore</td><td>Pyrites Ore</td></tr><tr><td>Kyanite Ore</td><td>Vermiculite Ore</td></tr><tr><td>Lead Ore and Lead Concentrates</td><td>Zinc Ore and Zinc Concentrates</td></tr></table> (3) Phosphate Rock (4) Barytes, in bulk (5) Traffic interchanged in railroad cars with the Seatrain Lines, Inc. NOTE A - Traffic transported from North Atlantic Ports, South Atlantic or Gulf Ports by vessel to all destinations not located in - The Continental United States of America (including Alaska) Dominion of Canada Islands of Miquelon and St. Pierre (off the southcoast of Newfoundland) Newfoundland NOTE B - Traffic transported to North Atlantic Ports by vessel from all origins not located in - The Continental United States of America (including Alaska) Dominion of Canada Islands of Miquelon and St. Pierre Newfoundland NOTE C - On traffic for trans-shipment from or to North Atlantic Ports originating at or destined to points on the Pacific Coast of the United States, Alaska and British Columbia also on traffic originating at or destined to interior Pacific Coast Points, and moving via the Panama Canal. NOTE D - Traffic for trans-shipment from or to North Atlantic Ports originating at or destined to South Atlantic and Gulf Ports south of Albemarle Sound, and on traffic originating at or destined to interior points moving via South Atlantic or Gulf Ports. NOTE E - Traffic for trans-shipment from South Atlantic or Gulf Ports south of Albemarle Sound destined to North Atlantic Ports and on traffic destined to interior points moving via North Atlantic Ports. Rule 4 (1) of Tariff Circular waived; I.C.C. Permission 81871 and Amendment 1.	Bauxite Ore	Manganese Ore	Cryolite Ore	Pyrites Ore	Kyanite Ore	Vermiculite Ore	Lead Ore and Lead Concentrates	Zinc Ore and Zinc Concentrates
Bauxite Ore	Manganese Ore									
Cryolite Ore	Pyrites Ore									
Kyanite Ore	Vermiculite Ore									
Lead Ore and Lead Concentrates	Zinc Ore and Zinc Concentrates									

TARIFF 1941-E

RULES AND OTHER GOVERNING PROVISIONS

SPECIAL RULES AND REGULATIONS
UNLIMITED

ITEM	SUBJECT	APPLICATION
230	NON-APPLICATION OF RATES IN NEW YORK HARBOR.....	Rates published herein between points in the State of New Jersey will not include pick-up or delivery service by lighter or carfloat in New York Harbor.
270	ALTERNATION OF COMMODITY RATES WITH CLASS RATES..	If by use of the class rates determined by the use of ratings provided in Uniform Freight Classification published in the following tariff (or charges accruing under alternative provisions authorized in such tariff) the charge accruing on a given shipment is lower than that accruing under the commodity rates published in this tariff, such lower charge will apply. CTR TB Tariff E-1009, I.C.C. 4487 (Hinsch Series). Various Rules of Tariff Circular waived; I.C.C. Permission 84518.
280	(F8) TAR, ROAD OR PAVING IN TANK CARS, CONTAMINATED OR REFUSED, RETURNED.....	When a shipment of Road or Paving Tar in a tank car has reached destination but is not unloaded and is returned via the same route to the original shipping point for reasons other than carriers' error, the return movement will be subject to the rate in reverse direction provided for in this tariff in effect on the date the shipment is tendered for return or to the rate normally applicable for such movement if lower. Various rules of Tariff Circular waived; I.C.C. Permission 69307.
290	GLUE, LIQUID; SYNTHETIC GUMS AND RESINS; OR PLASTICS, SYNTHETIC, IN TANK CARS, RETURNED TO SHIPPING POINT....	When a shipment of glue, liquid; synthetic gums and resins; or plastics, synthetic, named in Items 46790, 77656 and 77800 of Official Classification respectively, in a tank car, has reached destination but is not unloaded and is returned via the same route to the original shipping point (for reasons other than the carrier's error), the return movement will be subject to the rates in the reverse direction provided in this tariff in effect on the date the shipment is tendered for return, or to the rate normally applicable for such return movement if lower. Various Rules of Tariff Circular waived; I.C.C. Permission 84427.
300	(F10) CHEMICALS, FERTILIZER SOLUTION RETURNED TO SHIPPING POINT....	When a shipment of a Chemical named in Items 2210, 21990 to 26640 or 45400 of Official Classification or when a shipment of Ammoniating Fertilizer Solution or Nitrogen Fertilizer Solution covered by Item 37820 of Official Classification in tank cars, has reached destination but is not unloaded and is returned via the same route to the original shipping point (for reasons other than carriers' error), the return movement will be subject to the rate in the reverse direction in effect on the date the shipment is tendered for return, or to the rate normally applicable for such return movement, if lower. Various Rules of Tariff Circular waived; I.C.C. Permission 74288.

For explanation of reference marks, see concluding pages of this tariff.

RULES AND OTHER GOVERNING PROVISIONS

SPECIAL RULES AND REGULATIONS
LIMITED

(Items 350 to 405 are applicable only when specific reference is made thereto)

ITEM	SUBJECT	APPLICATION
350	FOURTH SECTION ORDER NO. 18025...	COMMODITY RATES FROM AND TO INTERMEDIATE POINTS UNDER AUTHORITY OF I.C.C. FOURTH SECTION ORDER 18025 Commodity rates made subject to this item are: (1) Applicable from (or to) intermediate points as provided in A below, or (2) To be used in constructing rates from (or to) intermediate points as provided in B below. A. When the Class 100 rate (governed by Uniform Freight Classification) from (or to) an intermediate point is the same or less than the like Class 100 rate from (or to) any more distant point from (or to) which the commodity rate is applicable. (1) The Commodity rate from the more distant point will apply from such intermediate point when located on a route via which the commodity rate is applicable. See Notes 1, 2 and 3. (2) The Commodity rate to the more distant point will apply to such intermediate point when located on a route via which the commodity rate is applicable. See Notes 4, 5 and 6. B. When the Class 100 rate (governed by Uniform Freight Classification) from (or to) an intermediate point is greater than the like Class 100 rate from (or to) any more distant point from (or to) which the commodity rate is applicable. (1) Carriers will establish on lawful notice from (or to) such intermediate point, when located on a route via which the commodity rate is applicable, a rate which bears the same percentage relation to the Class 100 rate (governed by Uniform Freight Classification) from (or to) such intermediate point as the published commodity rate from (or to) the more distant point bears to its like Class 100 rate. (2) In constructing rates under the formula provided in (1), fractions will be disposed of as follows: (a) When determining the percentage relation the published commodity rate from (or to) the more distant point bears to the class rate from (or to) the same point: Fractions of less than .25 ($\frac{1}{4}$) of one per cent will be dropped. Fractions of .25 ($\frac{1}{4}$) of one per cent to, but not including .75 ($\frac{3}{4}$) of one per cent, will be converted to .50 ($\frac{1}{2}$) of one per cent. Fractions of .75 ($\frac{3}{4}$) of one per cent and over will be converted to the next higher whole per cent. (b) When computing the commodity rate from (or to) the intermediate point, fractions of less than .50 ($\frac{1}{2}$) of a cent will be dropped, and fractions of .50 ($\frac{1}{2}$) of a cent or greater will be increased to the next higher whole cent. (3) Where shipments have moved before the related rate can be published and made effective, carriers will file an application with the Interstate Commerce Commission for authority to make refund on all such shipments on basis of the rate subsequently published. (4) When the rate produced under the formula described in B (1) and (2) above is the same as the published commodity rate from (or to) the more distant point, apply the provisions of A (1) and (2) above. NOTE 1.-When by reason of branch or diverging lines, a point is intermediate to two or more distant points subject to this item, apply the rate from the more distant point subject to this item (in this tariff) which on that article to the same destination via the same route results in the lowest charge. NOTE 2.-If the class rate on the same article via the same route from the intermediate point produces a lower charge than would result from applying the commodity rate under this item such commodity rate will not apply. NOTE 3.-If there is in this or any other tariff a commodity rate on the same article from the intermediate point applicable over the same route to the same destination, the provisions of this item are not applicable from such intermediate point. NOTE 4.-When by reason of branch or diverging lines a point is intermediate to two or more more distant points subject to this item, apply the rate to the more distant point subject to this item, (in this tariff) which on that article from the same origin via the same route results in the lowest charge. NOTE 5.-If the class rate on the same article via the same route to the intermediate point produces a lower charge than would result from applying the commodity rate under this item, such commodity rate will not apply. NOTE 6.-If there is in this or any other tariff a commodity rate on the same article to the intermediate point applicable over the same route from the same origin, the provisions of this item are not applicable to such intermediate point. Various rules of Tariff Circular waived; I.C.C. Permission 54091.

RULES AND OTHER GOVERNING PROVISIONS

SPECIAL RULES AND REGULATIONS

LIMITED

(Items 350 to 405 are applicable only when specific reference is made thereto)

ITEM	SUBJECT	APPLICATION
355	MODIFIED FOURTH SECTION ORDER NO. 18025.....	COMMODITY RATES FROM AND TO INTERMEDIATE POINTS UNDER AUTHORITY OF I.C.C. FOURTH SECTION ORDER 18025 MODIFIED Commodity rates made subject to this item are not made applicable from or to intermediate points pursuant to authority granted by Fourth Section Order 18025. Upon reasonable request for the establishment of a rate from or to an intermediate point on the shortest route over which a rate made subject to this item applies (see Note 6), carriers will establish on lawful notice from (or to) such intermediate point a rate constructed on the bases described below: A - When the Class 100 rate (governed by Uniform Freight Classification) from (or to) an intermediate point is the same or less than the like Class 100 rate from (or to) any more distant point from (or to) which the commodity rate is applicable: (1) The commodity rate from the more distant point will be published from such intermediate point (see Notes 1, 2, 5 and 6). (2) The commodity rate to the more distant point will be published to such intermediate point (see Notes 3, 4, 5 and 6). B - When the Class 100 rate (governed by Uniform Freight Classification) from (or to) an intermediate point is greater than the like Class 100 rate from (or to) any more distant point from (or to) which the commodity rate is applicable: (1) A commodity rate will be published from (or to) such intermediate point which bears the same percentage relation to the Class 100 rate (governed by Uniform Freight Classification) from (or to) such intermediate point as the published commodity rate from (or to) the more distant point bears to its like Class 100 rate (see Notes 2, 4, 5 and 6). (2) In constructing rates under the formula provided in (1), fractions will be disposed of as follows: (a) When determining the percentage relation the published commodity rate from (or to) the more distant point bears to the class rate from (or to) the same point: Fractions of less than .25 ($\frac{1}{4}$) of one percent will be dropped. Fractions of .25 ($\frac{1}{4}$) of one percent to, but not including .75 ($\frac{3}{4}$) of one percent, will be converted to .50 ($\frac{1}{2}$) of one percent. Fractions of .75 ($\frac{3}{4}$) of one percent and over will be converted to the next higher whole percent. (b) When computing the commodity rate from (or to) the intermediate point fractions of less than .50 ($\frac{1}{2}$) of a cent will be dropped, and fractions of .50 ($\frac{1}{2}$) of a cent or greater will be increased to the next higher whole cent. NOTE 1 - When by reason of branch or diverging lines a point is intermediate to two or more distant points subject to this item, the rate to be published will be the rate from the more distant point subject to this item which on that article to the same destination via the same route results in the lowest charge. NOTE 2 - If there is in this or any other tariff a commodity rate on the same article from the intermediate point applicable over the same route to the same destination, the provisions of this item are not applicable from such intermediate point. NOTE 3 - When by reason of branch or diverging lines a point is intermediate to two or more distant points subject to this item, the rate to be published will be the rate to the more distant point subject to this item which on that article from the same origin via the same route results in the lowest charge. NOTE 4 - If there is in this or any other tariff a commodity rate on the same article to the intermediate point applicable over the same route from the same origin, the provisions of this item are not applicable to such intermediate point. NOTE 5 - Where shipments have moved before the authorized rate can be published and made effective, carriers will file an application with the Interstate Commerce Commission for authority to make refund on all such shipments on basis of the rate subsequently published. NOTE 6 - Upon the request of the Interstate Commerce Commission, or upon reasonable request of any interested shipper or receiver, carriers parties to this tariff will furnish information showing the shortest route, including carriers and junction points, over which rates made subject to this item apply.

RULES AND OTHER GOVERNING PROVISIONS

COMMODITY DESCRIPTIONS AND MINIMUM WEIGHTS
(Items 410 to 720 are applicable only when specific reference is made thereto)

ITEM	SUBJECT	DESCRIPTION
410	ALCOHOL, DENATURED AND OTHER COM- MODITIES.....	Acetone, Methyl Acetone, noibn Alcohol, Denatured Alcohol, Denaturing (Note 3) Allyl Alcohol, Methyl Isobutyl Carbinol and Methylal Alcohol Anti-Freeze Alcohol (Note 1) Butyl Acetate Butyl Alcohol Denatured Alcohol Solvent (containing not less than 90 percent denatured Alcohol) Diacetone Alcohol Diethylene Glycol Di-Isobutyl Ketone Dipropylene Glycol Ethyl Acetate Ethyl Ether (Sulphuric Ether) other than Anesthesia Ether Ethylene Glycol Hexylene Glycol 2-Methyl-2, 4-(Pentanedioil) Hexylene Glycol (2-Methyl-1, 3-Pentanedioil) Minimum weight in tank cars subject to Rule 35 of Official Classification, except that minimum weight will be 98 percent of the shell gallonage capacity of the tank but not less than 30,000 pounds. NOTE 1:--Applies only on Alcohol or Alcohols with or without inhibitor, prepared and represented as Anti-Freeze Alcohol. NOTE 2:--Applies only on Proprietary Anti-Freeze Preparations made from denatured Ethyl Alcohol, Methanol, Ethylene Glycol, Diethylene Glycol, Polyethylene Glycol, Propylene Glycol, Dipropylene Glycol or Hexylene Glycol, with or without inhibitor. NOTE 3:--Applies only on denaturants for Ethyl Alcohol consisting of natural blend or synthetic alcohol distillates which have not been processed beyond separation and removal of the methanol content. Isobutyl Alcohol Iso-Octyl Isopropanol or Isopropyl Alcohol Isopropyl Acetate Isopropyl Ether Methanol (Methyl Alcohol) Methanol Solvent (containing not less than 90 percent Methanol) Methanol Butyl Ketone Methyl Ethyl Ketone Methyl Isobutyl Ketone: Methyl Propyl Ketone Oxtyl Alcohols (other than Perfumery Grade) Polyethylene Glycol Polypropylene Glycol Proprietary Anti-Freeze Preparations (Note 2) Propyl Acetate Propyl Alcohol Propylene Glycol
420	ALCOHOL, DENATURED, ACETONE, ETC.....	Denatured Alcohol, Ethyl Acetate, also Denatured Alcohol Solvent, containing not less than 90 percent of denatured alcohol, in tank cars, subject to Rule 35 of Official Classification, except that the minimum weight will be 98 percent of the shell capacity of the tank, but not less than 30,000 pounds. Acetone, noibn; Amyl Acetate; Butyl Acetate; Butyl Alcohol; Isopropyl Acetate and Methyl Acetone; in tank cars, subject to Rule 35 of Official Classification.
430	ANTI-FREEZE PREPARATIONS.....	Anti-Freeze Alcohol (see Note 1); Proprietary Anti-Freeze Preparations (see Note 2); Acetone, noibn; Butyl Acetate; Butyl Alcohol; Isopropyl Acetate; Methyl Acetone; in containers in barrels or boxes, or in bulk in barrels. NOTE 1:--Applies on Alcohol or Alcohols, with or without inhibitor prepared and represented as Anti-Freeze Alcohols. NOTE 2:--Applies on Proprietary Anti-Freeze Preparations made from Denatured Ethyl Alcohol, Methanol, Ethylene Glycol, Propylene Glycol, Dipropylene Glycol, Diethylene Glycol, Hexylene Glycol, Polyethylene Glycol or Polypropylene Glycol, with or without inhibitor.

RULES AND OTHER GOVERNING PROVISIONS

COMMODITY DESCRIPTIONS AND MINIMUM WEIGHTS

(Items 410 to 720 are applicable only when specific reference is made thereto)

ITEM	SUBJECT	DESCRIPTION
440	ASPHALT FILLER,....	Asphalt Filler, consisting of: Pulverized Slate or Slate Dust.... Mica Dust..... Pulverized Talc Tailings..... Pulverized Soapstone..... Pulverized Brick..... Pulverized Clay..... Pulverized Shale..... Pulverized Serecite..... Having value only as a filler in asphalt, pitch or tar. When moving in closed cars.
450	BOILERS AND BOILER PARTS,.....	PART 1 Boilers, cast iron or steel, heating. Rate will also apply on Burners, Sprayers, Vaporizers or Mechanical Stokers when forming an integral part of the boilers which they accompany, not in excess of 33 1/3 percent of weight upon which charges are assessed. Enclosures, Radiators, Iron or Steel (for recessed radiator installation). Guards, Radiator, Iron or Steel, noibn. Heaters, Water, noibn. Radiators, Air Heating or Cooling, Brass, Bronze or Copper or Brass, Bronze or Copper and Iron and Steel combined. Radiators, Hot Water or Steam, Iron or Steel, noibn, loose or in packages (will also apply on cast iron or steel Tubular Gas Radiators). Radiators, Hot Water or Steam, with or without Air Filters, enclosed in iron or steel cabinets or housings. Shields, Radiator, Iron or Steel, noibn. PART 2 Boiler Casings or Jackets. Boiler Parts, cast iron: Boiler Sections; Base Sides; Dampers; Door Frames; Doors; Grate Bars; mixed carloads, or in mixed carloads with Steel Boiler Casings, Assembling Rods, Firing Tools (Pokers, Scrapers, Slice Bars or Wire Brushes), or other Iron or Steel parts, with or without articles named in Note below, loose or in packages as provided for straight carload shipments. Stoves, Coal or Wood Burning, cast iron. Rate will also apply on the following articles shipped with Boilers; Asbestos Cement, Brick, Fire Clay, Fire Tile insulating material; parts of Smoke Stacks for each boiler, or Iron or Steel Materials for setting up or suspending each boiler. The weight of Asbestos Cement and Insulating Material must not exceed 15 percent of the weight upon which charges are assessed. NOTE:--The following articles may be included, the combined weight of which must not exceed 10 percent of the weight on which charges are assessed, Asbestos Insulating Material, Damper Regulators, Automatic, in boxes; Gauges, in boxes; Paint; Putty; Thermometers, in boxes, or Valves, Pressure Reducing, in boxes.
460		Boiler Parts, Cast Iron; Boiler Sections; Assembling Rods; Base Sides, mixed carloads or in mixed carloads with Steel Boiler Casings; Dampers; Doors; Door Frames; Firing Tools (Pokers, Scrapers, Slice Bars or Wire Brushes); Grate Bars; or other Iron or Steel Parts, with or without articles named in Note, loose or in packages, as provided for straight carload shipments. NOTE:--The following articles may be included, the combined weight of which must not exceed 10 percent of the weight on which charges are assessed: Damper Regulators, Automatic, in boxes; Gauges, in boxes; Paint; Putty; Thermometers, in boxes, or Asbestos Insulating Material; Valves, Pressure Reducing, in boxes.

RULES AND OTHER GOVERNING PROVISIONS

COMMODITY DESCRIPTIONS AND MINIMUM WEIGHTS

(Items 410 to 720 are applicable only when specific reference is made thereto)

ITEM	SUBJECT	DESCRIPTION
470		Boilers, Cast Iron Heating; Boiler Casings or Jackets; Enclosures, Radiator, Iron or Steel (for recessed Radiator Installations); Guards or Shields, Radiator, Iron or Steel, noibn; Heaters, Water, Coal, Gas, Gasoline or Oil, Automatic or Instantaneous; Radiators, Air Heating or Cooling, Brass, Bronze or Copper or Brass, Bronze, Copper or Steel combined; Radiators, Hot Water or Steam, Iron or Steel, noibn, loose or in packages; Radiators, Hot Water or Steam, with or without Air Filters, enclosed in Iron or Steel Cabinets or Housings; Radiators, Tubular Gas, Cast Iron or Steel. Rate will also apply on Burners, Sprayers, Vaporizers or Mechanical Stokers when forming an integral part of the boilers which they accompany, not in excess of 33 1/3 percent of weight upon which charges are assessed.
480	BOILERS AND BOILER PARTS.....	Boilers, Cast Iron or Steel, Heating (see Note 2) Boiler Casings or Jackets. Boiler Parts, Cast Iron: Boiler Sections; Grate Bars; Dampers; Door Frames; Doors; Base Sides, mixed carloads or in mixed carloads with Steel Boiler Casings, Assembling Rods, Firing Tools (Pokers, Scrapers, Slice Bars or Wire Brushes), or other Iron or Steel Parts, with or without articles named in Note 1 below, loose or in packages, as provided for straight carload shipments. In straight or mixed carloads. NOTE 1:--The following articles may be included, the combined weight of which must not exceed 10 percent of the weight on which charges are assessed; Damper Regulators, Automatic, in boxes; Gauges, in boxes; Valves, Pressure Reducing, in boxes; Paint; Putty; Thermometers, in boxes; or Asbestos Insulating Material. NOTE 2:--Will also apply on Burners, Sprayers, Vaporizers or Mechanical Stokers when forming an integral part of the boilers which they accompany, not in excess of 33 1/3 percent of weight upon which charges are assessed.
490	BOXES OR CRATES, WOODEN.....	Boxes or Crates, wooden, folded flat, loose or in bundles (sides, bottoms, tops or ends cleated or not cleated, or otherwise fastened together or loose). Carload minimum weight 40,000 pounds, except that when cars are loaded to full visible capacity and the actual weight of the load is less than 40,000 pounds, charges will be assessed on basis of actual weight subject to minimum of 36,000 pounds on boxes and 34,000 pounds on crates.
500	CONTAINERS, SHEET IRON OR STEEL.....	Containers, Sheet Iron or Steel, set up (with or without their equipment of bails, bungs, covers, handles or nozzles): Cans, noibn, including jacketed cans (see Note), loose or in packages. NOTE:--On carload shipments, ratings will also apply on extra can keys or can tops, not exceeding 33 1/3 percent of the weight on which charges are assessed, when same are shipped with cans.
510	HEATERS AND VENTILATORS.....	Fireplace Air Heaters and Ventilators combined, Iron, loose or in packages. (Will also apply on mixed carloads with air registers with or without fan attached; grate baskets without heating units; dampers, noibn; Ash Pit doors or Ash Traps, Iron; doors, iron or steel, noibn, without hardware applied; angles, arches or cranes, iron; not exceeding 15 percent of the weight upon which charges are assessed).
520	HOUSEHOLD UTENSILS.	Household Utensils: Ash and Garbage Cans, Ash or Coal Sifters, Baskets (iron or steel), Bath Tubs (iron or steel), enameled or plain, Buckets (galvanized iron), Coal Hods, Copper Wash Boilers, Dinner Pails (tin), Dripping Pans (iron), Enameled Ware, Flour Bins and Sieves (tin), combined, Galvanized Ironware, noibn, Holloware (stone), Iron Cans, noibn, Iron Cuspidors, Iron Pans, noibn, (not nested), Iron Stove Shovels, Milk Cans, Oil Cans, Stove Pipe, Iron (cut in shape, nested), Tin Cans, Tin Spoons, Tin Trays, Tinware, noibn, Water Coolers, Wash Tubs (galvanized iron). In mixed carloads.
530	LARD: LARD, noibn, SHORTENING, noibn, OIL SHORTENING, PORK FAT, REN- DERED.....	Lard, noibn, Shortening, noibn, Vegetable Oil Shortening or Rendered Pork Fat, in semi-solid or plastic form, noibn, in packages as provided in Official Classification, carload minimum weight 30,000 pounds or in tank cars subject to Rule 35 of Official Classification. Oil, Cooking, Liquid, noibn, in tank cars, subject to Rule 35 of Official Classification.

COMMODITY DESCRIPTIONS AND MINIMUM WEIGHTS
(Items 410 to 720 are applicable only when specific reference is made thereto)

ITEM	SUBJECT	DESCRIPTION
590	PLUMBERS GOODS, IRON OR STEEL.....	Plumbers Goods (iron or steel): Bath Tubs, Cast; Bath Tubs, Sheet with or without wooden rims; Drinking Fountains; Laundry Tub Covers; Laundry Tubs, enameled or other than enameled; Lavatories, Lavatory Basins (Bowls); Pedestals, Lavatory; Refrigerator floor drain traps; Shower Bath Receptors; Sink Backs or Sink Drain Boards, enameled or other than enameled; Sinks, noibn: Enameled; Plain or Galvanized; Stall partitions, Shower Bath, Urinal or Water Closet: Enameled; Other than enameled, Urinals or Urinal Gutters: Enameled; Other than enameled, Water Closet Bowls or Hoppers; Water Closet Tanks, with or without fittings.
610	SHEET STEEL WARE...	Sheet Iron and Sheet Steel Ware, shown under this heading in Official Classification specified below, packed in accordance with Classification requirements, in straight or mixed carloads. Army Field Ranges and Cooking Outfits, Baking Pan Sets, consisting of two or more baking pans strapped together in sets by band iron or steel, Baskets or Dry Measures, Bath Tubs, portable (infants or foot tubs), not wheeled, enameled; galvanized, japanned, painted or tinned. Bins, Flour or Flour Bins and Sifters combined, Bins, Fruit or Vegetable, household, Boilers, Double, enameled, consisting of two or more boilers completely or partially enclosed one within the other, Cans, Ash, Garbage, Oiled Waste or Refuse, with or without bails or covers, Cookers, Steam, tinned (Tin Steam Cookers), Dinner Pails, consisting of several parts placed inside the pail proper, Food Strainers, Sheet Steel and Wire combined, Forks or Spoons, galvanized, tinned or plain, Kitchen sets, consisting of bread box, canister cans, dust pan, step-on-can, waste basket and cake or match safes (see Note), in boxes, Nozzles, Can, Tin, Pails (Buckets), noibn, with or without covers; other than tinned; enameled, Pans, Baking, noibn, Pantry Sets, Percolators, Coffee, Household, enameled, other than self heating, Portable Twin Laundry Tubs: without legs or with legs detached, Roasters, Meat, plain or enameled, top and bottom pans fitted together and enclosing meat rack, Shovels, Stove, with iron, wire or wooden handles, Sieves or Sifters, Trays, Serving, Wash Tubs, noibn, On legs; Without legs, or with legs detached, Wash-Boilers, galvanized or tinned, with or without copper bottoms, Water Coolers. Sheet Iron or Sheet Steel Ware, noibn, tinned (tinware), copper, brass or bronze coated; galvanized, japanned, lithographed, nickel plated, painted, plain or enameled. NOTE:--Any three or more of the articles named in this entry will be considered a complete set when shipped in boxes.

RULES AND OTHER GOVERNING PROVISIONS

COMMODITY DESCRIPTIONS AND MINIMUM WEIGHTS
 (Items 410 to 720 are applicable only when specific reference is made thereto)

ITEM	SUBJECT	DESCRIPTION
620	CARLOAD MINIMUM WEIGHTS.....	Barrels, Tight, New, 12,000 pounds. Barrels, Tight, Old, carload and Tight, New or Old, mixed carload 14,000 pounds.
630		45,000 pounds, except during the period from October 1 to March 31st, inclusive, the carload minimum weight will be 30,000 pounds.
640		60,000 pounds, except when car of less capacity is furnished in which case marked capacity of car will govern. Rule 24 of Official Classification not to apply.
650		In bulk, in barrels or metal drums 30,000 pounds; in tank cars 60,000 pounds.
660		In bags, barrels, boxes, or in bulk in other than covered hopper cars 50,000 pounds. In bulk in covered hopper cars 90 percent of marked capacity of car except that when car is loaded to full visible or cubical capacity actual weight will apply.
670		In bags, barrels, boxes, or in bulk in other than covered hopper cars 60,000 pounds. In bulk in covered hopper cars 90 percent of marked capacity of car except that when car is loaded to full visible or cubical capacity, actual weight will apply.
680		90 percent of marked capacity of car, except when car is loaded to cubical or visible capacity actual weight will apply, but not less than 80,000 pounds
690		90 percent of the gallonage capacity of the tank car shell computed at 11.7 pounds per gallon, but in no case more than the weight carrying capacity of car (see Note below). NOTE:--Actual weight will be charged for, subject to published carload minimum weight, except when cars are not weighed on track scales, or it is impracticable to obtain tare weight of cars, the weight will be computed on basis of 11.7 pounds per gallon upon the number of gallons loaded in the car as ascertained by public gaugers' certificates, subject to the published carload minimum weight.
700		90 percent of marked capacity of car, except when car is loaded to cubical or visible capacity, actual weight will apply.
710		Marked capacity of car, except that when cars are loaded to cubical or visible capacity, actual weight will apply.
720		Subject to Rule 35 of Official Classification, except that the minimum weight will be 98 percent of the shell gallonage capacity of the tank, but not less than 30,000 pounds.

SECTION 2

ROUTING INSTRUCTIONS

ITEM	SUBJECT	
	ROUTING.....	Except as specifically provided in Note below and Items 11020 and 11040 the rates named in this tariff will apply only via the routes specified on pages 40 to 93 and explained on pages 95 to 99.
11000	EMERGENCY ROUTING.....	NOTE:--When in the case of pronounced traffic congestion (not an embargo), washout, wreck or other similar emergency, or through carrier's error, carriers forward shipments via other junction points of the same carriers or via the lines of other carriers parties to this tariff, the rate to apply will be that specified in this tariff, but not higher than the rate applicable via the route of movement. Departure from the terms of amended Fourth Section of the Interstate Commerce Act is permitted by authority of the Interstate Commerce Commission Fourth Section Order 10500 of July 25, 1930.
11020	ROUTING ON TRAFFIC TRANSITTED AT POINTS ON THE PENNSYLVANIA-READING SEASHORE LINES.....	The rates named in this tariff on commodities which are accorded transit under provisions of Pennsylvania-Reading Seashore Lines Tariff 4-H, I.C.C. 76, from origins to destinations which route via the Pennsylvania Railroad through Exton, Pa., Philadelphia, Pa. or Jersey City, N.J., will also apply via the Pennsylvania Railroad, Pavonia Junction, N.J., Pennsylvania-Reading Seashore Lines; Pavonia Junction, N.J., Pennsylvania Railroad, on traffic stopped at transit points authorized in Pennsylvania-Reading Seashore Lines Tariff 4-H, I.C.C. 76, for the purpose of transit as therein authorized, subject to the addition of the arbitraries provided in Pennsylvania-Reading Seashore Lines Tariff 4-H, I.C.C. 76, which arbitraries shall accrue to the Pennsylvania-Reading Seashore Lines.
11040	ALTERNATE APPLICATION OF ROUTES VIA NEW YORK CENTRAL RAILROAD	(a) In order to permit operating efficiency and economy and to expedite the movement of traffic, the routing of which is governed by this tariff or by tariffs referred to herein, the New York Central Railroad Company reserves the right to move traffic over any or all of its several districts as named in Official List of Open and Prepay Stations 75, I.C.C. A-40, Station List Publishing Company, Agent, for that portion of the route applying via one or more of such districts. (b) When traffic is so handled, the rate to apply will be that specified in this tariff applicable via the route originally designated. (c) It should be understood that the provisions of paragraphs (a) and (b) above do not deprive the shipper or owner of the property of any right or privilege to which he may have been entitled via the route originally designated.
