RULES AND OTHER GOVERNING PROVISIONS

GENERAL RULES AND REGULATIONS

Item	SUBJECT	APPLICATION
5	DESCRIPTION OF GOVERNING CLASSIFICATION ALSO RULES AND REGULATIONS	The terms " Western Classification " and " GN Tariff 440 Series " when used herein mean, respectively: Western Classification 78, WC I. C. C. 36 and GN Rules and Regulations Tariff 440-O, I. C. C. A-8730.
10	STATION LISTS AND CONDITIONS	This tariff is governed by the Official List of Open and Prepay Stations 77, Station List Publishing Company, Agent, I. C. C. A-42, to the extent shown below: PREPAY REQUIREMENTS AND STATION CONDITIONS (a) For additions and abandonments of stations, and, except as otherwise shown herein, for prepay requirements, changes in names of stations, restrictions as to acceptance or delivery of freight, and changes in station facilities. When a station is abandoned as of a date specified in the above named tariff, the rates from and to such station as published in this tariff are inapplicable on and after that date. GEOGRAPHICAL LIST OF STATIONS (b) For geographical locations of stations referred to in this tariff by station numbers. STATION NUMBERS (c) For the identification of stations when stations are shown or referred to by numbers in this tariff.
20	REFERENCE TO TARIFFS, ITEMS, NOTES, RULES, ETC.	(a) Where reference is made in this tariff to tariffs, items, notes, rules, etc., such references are continuous and include supplements to and successive issues of such tariffs and reissues of such items, notes, rules, etc. (b) Where reference is made in this tariff to another tariff by I. C. C. number such reference applies also to such tariff to the extent it may be applicable on Intrastate traffic.
25	TERMINAL OR TRANSIT PRIVILEGES OR SERVICES	Shipments made under the rates contained in this tariff are entitled also to terminal and transit services and privileges, and are subject to the charges, allowances, rules and regulations legally applicable thereto, as provided in separately published, lawfully filed tariffs.
35	TRANSFER BETWEEN CONNECTING CARRIERS	The joint rates published herein include all charges for switching, drayage, or other transfer services at intermediate interchange points on shipments handled through and not stopped for special services at such intermediate interchange points.
40	CONSECUTIVE NUMBERS	Where consecutive numbers are represented in this tariff by the first and last numbers connected by the word " to " or a hyphen they will be understood to include both of the numbers shown. If the first number only bears a reference mark, such reference mark also applies to the last number shown and to all numbers between the first and last numbers.
45	CAPACITIES AND DIMENSIONS OF CARS	For marked capacities, lengths, dimensions and cubical capacities of cars, see Official Railway Equipment Register, The Railway Equipment and Publication Company, Agent, I. C. C. RER 346.
60	NATIONAL SERVICE ORDER TARIFF	This tariff is subject to provisions of various Interstate Commerce Commission Service Orders and General Permits as shown in National Service Order Tariff 1-D, I. C. C. A-3949, Western Trunk Line Committee, Agent.

RULES AND OTHER GOVERNING PROVISIONS

GENERAL RULES AND REGULATIONS

Item	SUBJECT	APPLICATION
70	ALTERNATION-C.L. RATES - VARYING MINIMUM WEIGHTS	When two or more C. L. rates are provided in the same rate item for application on the same commodity from and to the same points, apply that rate which results in the lowest charge based upon the actual or authorized estimated weight of the shipment, but not less than the minimum weight published in connection with the rate used.
75	METHOD OF CANCELLING ITEMS	As this tariff is supplemented numbered items with letter suffixes cancel corresponding numbered items in the original tariff or in a prior supplement. Letter suffixes will be used in alphabetical sequence starting with A. EXAMPLE: Item 445-A cancels Item 445, and Item 365-B cancels Item 365-A in a prior supplement, which in turn cancelled Item 365.
80	INTERMEDIATE APPLICATION-ORIGIN	Subject to the provisions of Notes 1, 2, 3 and 4 below, from any point of origin from which a commodity rate on a given article to a given destination and via a given route is not named in this tariff, which point is intermediate to a point from which a commodity rate on said article is published in this tariff via a route through the intermediate point over which such commodity rate applies to the same destination, apply from such intermediate point to such destination and via such route the commodity rate in this tariff on said article from the next point beyond from which a commodity rate is published herein on that article to the same destination via the same route. NOTE 1.-When by reason of branch or diverging lines there are two or more "next beyond" points, apply the rate from the next point beyond (in this tariff) which on that article to the same destination via the same route results in the lowest charge. NOTE 2.-If the intermediate point is located between two points from which commodity rates on the same article via the same route are published in this tariff, apply via that route from the intermediate point the rate from the next point in either direction which results in the higher charge. In applying this note, if there are two or more " next beyond " points due to branch or diverging lines, eliminate all such " next beyond " points except the point from which the lowest charge is applicable. NOTE 3.-If the class rate on the same article via the same route from the intermediate point produces a lower charge than would result from applying the commodity rate under this item, such commodity rate will not apply. NOTE 4.-If there is in any other tariff a commodity rate on the same article from the intermediate origin point applicable over the same route to the same destination, the provisions of this item are not applicable from such intermediate origin point.
85	INTERMEDIATE APPLICATION-DESTINATION	Subject to the provisions of Notes 1, 2, 3 and 4 below, to any point of destination to which a commodity rate on a given article from a given point of origin and via a given route is not named in this tariff, which point is intermediate to a point to which a commodity rate on said article is published in this tariff via a route through the intermediate point over which such commodity rate applies from the same point of origin, apply to such intermediate point from such point of origin and via such route the commodity rate in this tariff on said article to the next point beyond to which a commodity rate is published herein on that article from the same point of origin via the same route. NOTE 1.-When by reason of branch or diverging lines, there are two or more " next beyond " points, apply the rate to the next point beyond (in this tariff) which on that article from the same point of origin via the same route results in the lowest charge. NOTE 2.-If the intermediate point is located between two points to which commodity rates on the same article via the same route are published in this tariff, apply via that route to the intermediate point the rate to the next point in either direction which results in the higher charge. In applying this note, if there are two or more " next beyond " points due to branch or diverging lines, eliminate all such " next beyond " points except the point to which the lowest charge is applicable. NOTE 3.-If the class rate on the same article via the same route to the intermediate point produces a lower charge than would result from applying the commodity rate under this item, such commodity rate will not apply. NOTE 4.-If there is in any other tariff a commodity rate on the same article to the intermediate destination point applicable over the same route from the same point of origin the provisions of this item are not applicable to such intermediate destination point.

RULES AND OTHER GOVERNING PROVISIONS

GENERAL RULES AND REGULATIONS

Item	SUBJECT	APPLICATION
100	METHOD OF DENOTING REISSUED MATTER IN SUPPLEMENTS	Matter brought forward without change from one supplement to another will be designated as "Reissued" by a reference mark in the form of a square enclosing a number, the number being that of the supplement in which the reissued matter first appeared in its currently effective form. To determine its original effective date consult the supplement in which the reissued matter first became effective.
105	STRAIGHT OR MIXED CARLOAD APPLICATION	Where individual commodity descriptions herein include two or more articles subject to the same carload rates, such rates are applicable upon straight or mixed carload shipments of the articles named, unless otherwise specifically indicated therein.

SPECIAL RULES AND REGULATIONS

Item	SUBJECT	APPLICATION
110	MINIMUM WEIGHT	(Applicable only when specific reference is made to this item) Minimum weight 50,000 lbs., except when marked capacity of car used is less, the actual weight, but not less than 40,000 lbs., will apply (See Note 1). NOTE 1.-Orders for cars less than 50,000 lbs., will not be accepted by carriers.
115	TEMPORARY DOOR PROTECTION FOR SHIPMENTS OF BULK CEMENT	Suitable doors or door boards will be furnished at loading stations for use in cooping cars to be loaded with bulk cement requiring such protection, and in the event the supply at station should run out, Agent should report facts by wire to Division Superintendent, and upon receiving authority from him, the railway company will assume the cost of the lumber necessary to put the car in proper condition to transport the shipment. A uniform charge of seven dollars and thirty one cents (\$ 7.31) per car will be assessed on all carload shipments where parties unloading appropriate or fail to account to the carrier for the doors or door board material in cars at time of delivery. Agent at loading point must show on face of waybills the number and dimensions of the doors or door boards used or the height from the car floor in inches of the temporary door protection applied in cooping each car; also the weight thereof. (See Note.) NOTE.-When railroad track scale weights are used for freight charges on bulk shipments of cement, for which doors or door boards are used for side door protection, the weight of such doors or door boards will be considered as part of the tare weight of the car. If the actual weight of the doors or door boards is not ascertained, an estimated weight of 55 lbs. per door or 2.5 lbs. per board foot for loose boards will be used.

COMMODITY DESCRIPTION

Item	SUBJECT	DESCRIPTION
120	COMMODITIES ON WHICH RATES APPLY	Rates making reference hereto apply on: CEMENT, viz.: Hydraulic, Masonry, Mortar, Mortar, Building, Dry, Natural, Portland, Tile Grout, CONCRETE, dry, ready-mix, viz.: Portland Cement 25 per cent and Sand 75 per cent, contained in 45 and 80 pound bags; Portland Cement 17 per cent and Sand 49 per cent, and Gravel 34 per cent, contained in 45 and 90 pound bags; Masonry Cement 25 per cent and Sand 75 per cent, contained in 45 and 80 pound bags.

ROUTING INSTRUCTIONS

TO STATIONS ON	ROUTE VIA
CMStP&P	GN, Judith Gap, Mont., CMStP&P.
GN	GN.
NP	GN, Helena, Mont., NP.
Soo Line RR	GN, Minot, N. D., Soo Line RR.

The rates named in this tariff will apply only via the routes and junction points authorized herein except that when in the case of pronounced traffic congestion (not an embargo), washout, wreck or other similar emergency, or through carriers' error, carriers forward shipments via other junction points of the same carriers, the rate to apply will be that specified in this tariff but not higher than the rate applicable via the route of movement. (Departure from the terms of the amended Fourth Section of the Interstate Commerce Act is permitted by authority of the Interstate Commerce Commission Fourth Section Order 10500 of July 25, 1930).

INTERNAL ROUTING.- Traffic from or to points on the Great Northern Railway, or via the Great Northern Railway, is subject to routing instructions as published in GN Tariff 3000-A, I. C. C. A-6842, and may also be routed via other lines of the Great Northern Railway through reconsigning or transit points to the extent authorized in tariffs lawfully on file with the Interstate Commerce Commission and subject to conditions and additional charges, if any, provided therewith.
