Old King Coal is a merry old soul
And happy as can be!
His carloads of coal so smoothly roll
Over rails to industry.

Here's to OLD KING COAL Long may he live!

Nature makes it; man mines it; the Illinois Central hauls it. It is c-o-a-l, the fuel that generates the power that makes the wheels of industry turn.

One of Illinois Central's most important jobs is to transport coal. It does this day after day, year in and year out. At this very moment many thousands of tons are on the move over Illinois Central rails. And although we do our chore well, we are constantly seeking more efficient methods and better facilities . . . all to the end that

Coal may be transported most quickly and economically . . . that industry may be well served.
