SURGEONS AND PHYSICIANS

Rapid City	DR. R. J. JACKSON	Surgeon and Examiner
Rapid City	DR. W. A. DAWLEY	Surgeon and Examiner
Rapid City	DR. D. L. KEGARIES	Surgeon and Examiner

Whenever any person other than a trespasser, sustains injuries on company property requiring immediate medical attention, the nearest company surgeon should be summoned by the officer or employee of highest rank present.

In case of emergency when the attendance of the company surgeon cannot be had at once, the most available surgical aid should be called to serve until the company surgeon arrives, who, upon arrival, should at once take charge of the case and relieve the called surgeon from further care or attendance, as far as the company is concerned.

In case of injury to trespassers, a physician—the company surgeon when available—should be summoned only in case the injury renders the patient incapable of seeking medical attention himself. An injured trespasser should not, except in emergency, be removed from the county in which the injury occurs, but arrangements should be made to turn the patient over to the county authorities in case he cannot provide for his own care after emergency service has been rendered.

The acceptance of the aid of a surgeon called by the company is entirely optional with the injured parties. In case they desire, they can select, at their own expense, other surgical attendance.

This company will not recognize bills of surgeons other than those on its regular staff, except for temporary service rendered prior to the arrival of the company surgeon, and then only for such attendance as it appears is clearly and immediately demanded. No important surgical operation should be made previous to the arrival of the company surgeon, except such as may be required for the immediate safety of the patient.
